

Selected Articles: Addressing Myths About Climate Change and Carbon Emissions

By [Global Research News](#)

Global Research, November 14, 2021

In this weekend selection, we put together some of Global Research articles pertaining to climate change and the subsequent corporate and government “bluff” in addressing the crisis.

With the culmination of COP26 in Glasgow, will the real culprit of global warming finally see the light of the day?

Share this selection far and wide.

[“Global Financial Governance”: UN-backed Banker Alliance Announces “Green” Plan to Transform the Global Financial System](#)

By [Whitney Webb](#), November 11, 2021

The most powerful private financial interests in the world, under the cover of COP26, have developed a plan to transform the global financial system by fusing with institutions like the World Bank and using them to further erode national sovereignty in the developing world.

[The Sponsors of COP26 Are Behind the Corporate Greenwashing Agenda](#)

By [Robbie Kirk](#), November 09, 2021

COP26 has been sold as a conference where world leaders will finally tackle climate change. But for its corporate sponsors, the conference is an opportunity to greenwash their practices of polluting for profit.

[Video: Al Gore’s Latest ‘Solution’ to Climate Change Is Mass Surveillance](#)

By [Steve Watson](#), November 09, 2021

Speaking from the private jet and super yacht owners gathering, otherwise known as the COP 26 summit, Al Gore touted his latest solution to curb carbon emissions, mass surveillance via satellites, sensors and artificial intelligence.

[COP26: Wall Street Rolls Out Climate Finance](#)

By [M. K. Bhadrakumar](#), November 08, 2021

The US climate envoy John Kerry is getting down to the real business at the United Nations Framework Convention on Climate Change in Glasgow after President Joe Biden has had his photo-ops, made his idiosyncratic public remarks and flew back home.

[COP26: US Military 'One of the Biggest Polluters in the Middle East'](#)

By [Umar A Farooq](#), November 07, 2021

The Middle East has become one of the world's most climate change-affected regions, with severe droughts, devastating wildfires, massive floods and pollution affecting millions of lives and making some areas nearly unliveable.

[In Defense of CO2: Astro-Climatology, Climategate and Common Sense Revisited](#)

By [Matthew Ehret-Kump](#), November 06, 2021

According to such modern climate experts as Bill Gates, Greta Thunberg, Michael Bloomberg, Mark Carney, Al Gore, Alexandria Ocasio Cortez, Prince Charles and Klaus Schwab, carbon dioxide (CO2) must be stopped at all cost. Images of submerged cities, drowning polar bears and burning deserts taking over civilization flash before our eyes repeatedly in schools, mainstream media and films.

[Global Warming: Ten Facts and Ten Myths on Climate Change](#)

By [Prof. Robert M. Carter](#), November 06, 2021

Climate has always changed, and it always will. The assumption that prior to the industrial revolution the Earth had a "stable" climate is simply wrong. The only sensible thing to do about climate change is to prepare for it.

[Biden Makes Climate Pledge at Glasgow While Pushing Oil, Gas Leasing in U.S.](#)

By [Center For Biological Diversity](#), November 05, 2021

U.S. climate groups slammed the Biden administration today for ignoring climate impacts and refusing to stop oil and gas leasing on public lands despite President Biden's Glasgow pledge to halve greenhouse gas emissions by 2050.

[We Need to Take Power from the People Who Are Destroying Our Planet](#)

By [Jeremy Corbyn](#), November 05, 2021

COP26 looks set to be another case of governments talking big on the climate yet doing nothing to stop the big polluters. As Jeremy Corbyn writes, ordinary people can only save our future by taking power back into our own hands.

[COP 26: Can a Singing, Dancing Rebellion Save the World?](#)

By [Medea Benjamin](#) and [Nicolas J. S. Davies](#), November 04, 2021

COP Twenty-six! That is how many times the UN has assembled world leaders to try to tackle the climate crisis. But the United States is producing [more oil](#) and [natural gas](#) than ever; the amount of greenhouse gases (GHG) in the atmosphere and global temperatures are both [still rising](#); and we are already experiencing the extreme weather and climate chaos that scientists have warned us about for [forty years](#), and which will only get worse and worse without serious climate action.
