Dear Readers,

More than ever, Global Research needs your support. Our task as an independent media is to “Battle the Lie”.

“Lying” in mainstream journalism has become the “new normal”: mainstream journalists are pressured to comply. Some journalists refuse.

Lies, distortions and omissions are part of a multibillion dollar propaganda operation which sustains the “war narrative”.

While “Truth” is a powerful instrument, “the Lie” is generously funded by the lobby groups and corporate charities. And that is why we need the support of our readers.

[Corporate Spin: Genetically Modifying the Way to Food Security?](#)

By [Colin Todhunter](#), July 24, 2018

There are major uncertainties concerning the technology (not least regarding its [precision](#) and health safety aspects), which are brushed aside by claims of ‘the science’

is decided and the 'facts' about GM are indisputable. Such claims – alongside the attempt to sideline non-scientists from the debate – are merely [political posturing](#) and part of the agenda to tip the policy agenda in favour of GM.

[UK Favours Extremism Over Democracy in Syria](#)

By [Mark Curtis](#), July 24, 2018

How does a British government respond when an allied state invades another territory with the backing of jihadists, overthrows a democratic experiment and consolidates an occupation? Judging by what Turkey is doing in the Afrin district of northern Syria, the answer is: by supporting it.

[Israel: The Ultimate Racist Colony. The Jewish Nation State Law](#)

By [Dr. Elias Akleh](#), July 24, 2018

All these privileges for the Jews come on the expense and nullification of the rights of the indigenous Palestinians. This law violates international laws, UN resolutions, peace process and political agreements, and most importantly human morality. **It totally negates the existence of Palestinians;** the rightful owners of the land. **It cancels the right of Palestinian refugees to return to their own homes and towns as guaranteed by international laws. It negates their history, their language, their culture, their religion and their humanity.**

[What Should “We” Do About Julian Assange?](#)

By [Kim Petersen](#), July 24, 2018

Ecuador's president **Lenín Moreno** is [reportedly](#) close to reneging on asylum granted to WikiLeaks publisher **Julian Assange** by Ecuador. Assange, who holds Ecuadorian citizenship and is entitled to protection as such by his country of citizenship, is expected to be turned over to the UK very soon.

[BRICS and the Fiction of “De-Dollarization”](#)

By [Prof Michel Chossudovsky](#), July 24, 2018

Three out of the five BRICS member states are full members of the Shanghai Cooperation Organization (SCO) including China, Russia and India.

Brazil and South Africa are heavily dollarized economies, with governments broadly committed to the tenets of neoliberalism. Both Brazil and South Africa are experiencing deep-seated political crises which in large part are attributable to US imperial policies.

[Son of Frankenstein? UK Body Backs Human Embryo Gene Editing](#)

By [F. William Engdahl](#), July 24, 2018

Though the announcement is couched in terms that make it seem humanitarian, as potentially a huge advance in science, an agency tied to the British government is encouraging efforts in gene-editing of the DNA of human embryos. It belongs in the category of eugenics. Not surprisingly, the footprints of Bill Gates and the Rockefeller eugenics circles, and major pharma groups as well as GMO seed companies are found here.

[The Expansion of U.S. Military Installations in Argentina and Their Implications for Argentine Sovereignty](#)

By [Dr. Birsan Filip](#), July 24, 2018

Argentina is currently among the countries considered likely destinations for new American military installations in the foreseeable future, despite the fact that such arrangements have been rejected by both the population and former leadership of the country in recent years. In fact, all military exercises between Argentina and the U.S. were suspended from 2007 to 2015, as the successive governments of Nestor and Cristina Fernández de Kirchner sought to reorient Argentine foreign policy away from the U.S. in an attempt to combat imperialism and strengthen regional integration.
