By [Mark Taliano](#), September 07, 2023

The evidence is in. The COVID jabs kill. Autopsies prove it. CDC VAERS records more deaths from COVID jabs than the total of all previous vaccines combined (though the mRNA jabs are not vaccines), and only a very small percentage of adverse events are reported to VAERS.

[Children in Police Watch Houses: A Nasty Queensland Experiment](#)

By [Dr. Binoy Kampmark](#), September 08, 2023

In Australia, jurisdictions have persistently refused to raise the age of criminal responsibility. Down under, troubled children are treated as threatening ogres, monsters to cage rather than educate. Legislatures and lawmakers have taken fiendish pleasure in using more stick than carrot in the penal process, the result being that errant ten-year-olds find themselves in facilities of supervised squalor.

[Vaccines and “Fabricated Propaganda”: The Character Assassination Directed Against Robert Kennedy Jr.](#)

By [Richard Gale](#) and [Dr. Gary Null](#), September 07, 2023

Today, the largest purveyor of misinformation and fabricated propaganda is the US government, think tanks, compromised NGOs, social media and the mainstream corporate media. Behind this web and its false narratives is a network of powerful special interest groups who fund script writers and journalists, traitors to their profession, in order

to promulgate their message.

[Oil and Gas and Climate Change Fakery](#)

By [Prof. Anthony J. Hall](#), September 07, 2023

Once again, the treatment of the Alberta Oil Patch is at the core of a dispute testing the viability of Canada's increasingly dysfunctional governing structures. By [Kim Petersen](#), September 07, 2023

Imagine if you and others in your group are paid a flat rate, and the members of a different group are paid the same flat rate. The employer proclaims it is equal pay. But wait a minute! Your group works a 5-hour shift while the other group works a 3-hour shift for the same pay. Your group would be working 40% more for the same pay as the other group.

Once denounced by Zelensky as a “criminal,” gun runner Serhiy Pashinsky has become the top private supplier of arms to Ukraine. Eyewitness testimony has fingered Pashinsky as the architect of a bloody false flag operation which propelled the 2014 Maidan coup and plunged the country into civil war.

Myositis refers to a group of conditions that share common features of muscle inflammation, resulting in muscle weakness and damage. WHO VigiAccess reports 1729 cases of myositis after COVID-19 vaccination, however this is probably a significant under-reporting, as many cases are mis-diagnosed and very few cases are biopsied.
