

Selected Articles: What Will Happen with a Rushed COVID-19 Vaccine?

By [Global Research News](#)

Global Research, April 27, 2020

We have made some progress in our campaign to meet our running costs and put an end to our monthly deficit, but we still need your help. As grateful as we are to those who have given so far, the total number of donations and membership subscriptions we have received over the past year still only amounts to a very small fraction of the tens of thousands of people who read our website on a daily basis. If you can make a contribution to help secure the future of GlobalResearch.ca, please click below.

[The Unbearable Lightness of China](#)

By [Pepe Escobar](#), April 27, 2020

As Mahbubani carefully explains, “while Chinese leaders want to rejuvenate Chinese civilization, they have no missionary impulse to take over the world and make everyone Chinese.” And still, “America convinced itself that China has become an existential threat.”

The best and the brightest across Asia, Mahbubani included, never cease to be amazed at the American system’s total inability to “make strategic adjustments to this new phase in history.” Mahbubani dedicates a whole chapter – “Can America make U-turns?” – to the quandary.

[The Dengvaxia Disaster Was Twenty Years in the Making—What Will Happen with a Rushed](#)

[COVID-19 Vaccine?](#)

By [Children's Health Defense](#), April 27, 2020

For several weeks, Dr. Anthony Fauci and Bill Gates have been beating the drum about a COVID-19 vaccine, seeking to keep the world's coronavirus optics focused on a medical intervention that Gates acknowledges to be risky enough to require [indemnification against lawsuits](#). The two are casting a COVID-19 vaccine—which they speculate could be ready in as little as 18 months—as the passport for a return to “normalcy.” The two opinion leaders' gambit seems to be backfiring among people savvy enough to understand that [Fauci's](#) and [Gates'](#) organizations, pocketbooks and agendas are driving the rush for an indemnified vaccine. Other Americans may be too distracted by the historically unprecedented lockdown, however, to think through the safety issues raised by a potential COVID-19 vaccine.

[Saudi Arabia: What Happens When the Oil Stops](#)

By [David Hearst](#), April 27, 2020

Saudi Arabia's Crown Prince Mohammed bin Salman (MBS) can no longer plead youth or inexperience. That time has passed. What you see is what you get. The misrule, blunders and war associated with him as crown prince will only continue with him as king. The full repertoire of the crown prince's statecraft was on display in [a stormy telephone call](#) he made to Russian President Vladimir Putin on the eve of an Opec meeting last month which ended in a calamitous price war between Saudi Arabia and Russia.

[As Food Banks Struggle to Cope with Demand, Desperate Farmers Dump Unsellable Produce](#)

By [Alan MacLeod](#), April 27, 2020

In San Antonio, over 10,000 people lined up overnight in their vehicles in the hope of receiving a box of basic foods. “Needs have skyrocketed not just here but around the country,” one Washington, D.C. organizer [told MintPress](#) last week. Meanwhile, a veteran Louisiana food bank employee [said](#) the current situation is graver than it was after Hurricane Katrina. Food banks are going millions of dollars [over budget](#) trying to keep up with surging demand; one estimate [suggests](#) that one in three people seeking groceries at pantries last month had never done so before. Those who manage the facilities are worried that they will soon be completely drained of food.

[The Digital Revolution: Unlimited Ability to Spy and Control Populations. The Creation of a Police State Dystopia](#)

By [Dr. Paul Craig Roberts](#), April 26, 2020

The digital revolution provides government and corporations with unlimited and unaccountable ability to spy and control populations. Every word, deed, and movement of people can be tracked and a “social credit” dossier built for them. China already has such a control system in place. Those whose profiles are outside acceptable parameters are unable to function in normal society, being blocked from passports, driving licenses, employment, and activities reserved to those with acceptable social credit scores.

[The Gates Foundation and the “War on Cash”: ‘Financial Inclusion’ in an Age of Neoliberalism](#)

By [Colin Todhunter](#), April 26, 2020

When we look beyond the mainstream narrative to gain an understanding of the current crisis, it doesn’t take long before the name of Bill Gates and his foundation appears. And this is no coincidence seeing that he has placed himself firmly in the limelight on prime time TV shows offering his opinion on COVID-19 and what he thinks should be done. He has mentioned the need for maintaining some form of lockdown until a vaccine is discovered.

[Predictions: What Will Happen Next in the Corona Crisis?](#)

By [James Corbett](#), April 26, 2020

There is a second wave of Covid-19 coming in the next few months. We don’t have to speculate about this. Not only have we heard this from all manner of politicians and health “authorities” over the past few months, but it was an integral part of MIT Technology Review’s now-infamous “[We’re not going back to normal](#)” article, which [revealed](#) how the waves of lockdown and release were going to restructure our lives and condition us into the [Corona World Order](#). And, lest there be any doubt that this is an important part of the pandemic narrative, Bill Gates just reaffirmed it in his latest “[GatesNotes](#)” on “[The first modern pandemic](#).”
