

Selected Articles: Virus Pandemics

By [Global Research News](#)

Global Research, January 27, 2020

Lying is a money making activity and lies are commodities. There is a profitable global market for media and public figures committed to spreading disinformation.

Needless to say, "Telling the Truth", on the other hand, Is Not a Money-Making Proposition. The monthly deficit we have been faced with over the past year is proof of this concept.

With this in mind, can you spare a dollar a day to keep disinformation away? Your support could make the difference and ensure that GlobalResearch.ca is here for a long time to come!

[Genetically Modified Seeds: Bayer Builds Latin America's Largest Seed Factory in Chile](#)

By [GMWatch](#), January 27, 2020

Following is an English translation of an article from the German newspaper Deutsche Welle (DW), translated by from the Spanish [version](#) circulated by Network for a Latin America Free of Transgenics (RALLT).

"Bayer-Monsanto: Get Out of Chile", was the slogan on banners in Santiago on May 19 during the "March against Monsanto" protest, which took place in 30 cities around the world for an agriculture without pesticides and against the use of genetically modified seeds.

[Auschwitz: IG Farben and the History of the "Business with Disease"](#)

By [Dr. Rath Health Foundation](#), January 27, 2020

The most powerful German economic corporate emporium in the first half of this century was the Interessengemeinschaft Farben or IG Farben, for short. Interessengemeinschaft stands for “Association of Common Interests” and was nothing more than a powerful cartel of BASF, Bayer, Hoechst, and other German chemical and pharmaceutical companies. IG Farben was the single largest donor to the election campaign of Adolph Hitler. One year before Hitler seized power, IG Farben donated 400,000 marks to Hitler and his Nazi party. Accordingly, after Hitler’s seizure of power, IG Farben was the single largest profiteer of the German conquest of the world, the Second World War.

[Only One Lab in China Can Safely Handle the New Coronavirus](#)

By [Nicoletta Lanese](#), January 26, 2020

The lab happens to sit in the center of Wuhan, the city where the newly identified coronavirus first appeared, according to the [Hindustan Times](#), an Indian news outlet. The facility, known as the Wuhan National Biosafety Laboratory, is housed within the Chinese Academy of Sciences and was specifically designed to help Chinese scientists “prepare for and respond to future infectious disease outbreaks,” according to a [2019 report](#) published by the U.S. Centers for Disease Control and Prevention (CDC).

[Remember the 2009 H1N1 Swine Flu Pandemic: Manipulating the Data to Justify a Worldwide Public Health Emergency](#)

By [Prof Michel Chossudovsky](#), January 25, 2020

A Worldwide public health emergency is unfolding on an unprecedented scale. 4.9 billion doses of H1N1 swine flu vaccine are envisaged by the World Health Organization (WHO).

A report by President Obama’s Council of Advisors on Science and Technology “considers the H1N1 pandemic ‘a serious health threat; to the U.S. — not as serious as the 1918 Spanish flu pandemic but worse than the swine flu outbreak of 1976.’”

[China’s New Coronavirus: An Examination of the Facts](#)

By [Larry Romanoff](#), January 25, 2020

The Western mass media have discussed the new corona virus that began in the city of Wuhan in Central China but, apart from repetitive small details and the inevitable China-bashing, not much light has been shed on the circumstances. My initial commentary here is composed from a medley of nearly 100 Western news reports, primarily ABC, CBS, CNN, AFP, and from some Chinese media. Officially called the novel coronavirus (2019-nCoV), the contagion is a respiratory illness, a new type of viral pneumonia, in the same family of

infections as SARS and MERS.

[Bush Grandpa's Ties to Nazis Clearer on 75th Auschwitz Memorial](#)

By [Ralph Lopez](#), January 25, 2020

The ties between Hitler's Nazis and American businessmen such as [Henry Ford](#), [Averell Harriman](#), and [Senator Prescott Bush](#), the father of George H. W Bush, have long been cited in lawsuits filed by Holocaust survivors seeking compensation for their suffering. The late Senator Prescott Bush's German assets were seized in 1942 by President Franklin Delano Roosevelt under the Trading with the Enemy Act, which also carried prison penalties which Bush escaped. Historical scholarship over the last decade shows that Bush was deeply enmeshed in business which was vital to the rise of Nazi Germany, and almost certainly knew that his profits were driven by slave labor.
