Investigative reporter **Eva Bartlett** - one of many outstanding speakers at the event — lived in Palestine for about three years, where she was active in peaceful resistance movements against Israel's criminal oppression of native Palestinians. Her testimony resonates with evidence-based truth, in stark contrast to monochromatic mainstream media messaging, which is wrapped around permanent state, largely unspoken, imperial policies.

The Kennedy name attracts the mainstream media only when they can sensationalize

something “scandalous” – preferably sexual or drug related – whether false or true, or something innocuous that can lend credence to the myth that the Kennedys are lightweight, wealthy celebrities descended from Irish mobsters. This has been going on since the 1960s with the lies and cover-ups about the assassinations of President Kennedy and his brother Robert, propaganda that continues to the present day, always under the aegis of the CIA-created phrase “conspiracy theory.” A thinking person might just get the idea that the media are in league with the CIA to bury the Kennedys.

This scientific projection is holding true: it is estimated that, to date, some 150,000 to 400,000 people world-wide have perished each year due to direct and indirect effects of global warming¹. Although these events have been documented in detail, the silence in most of the mainstream media regarding the connection between global warming on the one hand and the rising spate of hurricanes, storms and fires on the other, is deafening.

By [Eva Bartlett](#), June 11, 2018

When I visited eastern Ghouta and the Horjilleh center for displaced people just south of Damascus—people mostly from Ghouta now—I asked about their lives under the rule of Jaysh al-Islam and others, including why they had been starving in the first place. The reply was, as I and others [heard](#) in [eastern Aleppo](#), [Madaya](#), and [al-Waer](#), the terrorists stole aid and controlled all food, only selling food at extortionist prices which ordinary people could not afford.

G7 vs. G6+1 - The War of Words

By [Peter Koenig](#) and [Press TV](#), June 11, 2018

Trump pulling out from the final G7 statement is just show; the usual Trump show. He signed it, then he pulled out. We have seen it with the Iran Nuclear Deal, with the North Korea meeting, on and off, with the tariffs - first - about two months ago - the tariffs were on for Europe, Mexico and Canada, as well as China - then they were off for all of them - and now they are on again...
