### [Dictatorship of the “Free” Market](#)

By [Mark Taliano](#), August 05, 2018

North America is subsisting beneath the bars of a publicly bailed-out “free-market” dictatorship that is killing us all.

The system requires lies to survive, since it only (temporarily) benefits a tiny, parasitical oligarch class, to the detriment of global Life itself.

## [Secret Meeting on the Privatization of Nuclear War Held on Hiroshima Day 2003](#)

By [Prof Michel Chossudovsky](#), August 05, 2018

What seems to have escaped the numerous media reports on the 2018 NPR is that the development of **“more usable nuclear weapons”** had already been put forth in George W. Bush’s 2001 Nuclear Posture Review, which was adopted by the US Senate in late 2002. In this regard, Senator Edward Kennedy had accused the Bush Administration for having developed “a generation of more useable nuclear weapons.” namely tactical nuclear weapons (B61-11 mini-nukes) with an explosive capacity between one third and 6 times times a Hiroshima bomb.

## [Why West Fears ‘Made in China: 2025’](#)

By [F. William Engdahl](#), August 05, 2018

The Trump administration has made the Chinese industrial transformation strategy, “Made in China: 2025,” or simply China 2025 the explicit target of its current trade war offensive against the Peoples’ Republic. Western industrial leading countries, including Germany, are understandably alarmed. Only they are ten years late, and until now have foolishly refused to collaborate with China in key developments, including of the new economic Silk Road or Belt Road Initiative.

## **[The Rise and Continued Influence of the Neocons. The Project for the New American Century \(PNAC\)](#)**

By [Michael Welch](#), [Robbie Martin](#), [Scott Price](#), and [Mark Robinowitz](#), August 04, 2018

Politically, the neocons favour a world in which the United States adopts a much more aggressive military posture, and utilizes its military might to not only contain terrorist and related threats to its security, but force regime change in regions like the Middle East. They further take on the task of 'nation-building' all in the name of creating a safer world for 'democracy.' It was the neocons who promoted the stratagem of pre-emptive military action.
