[**The Cliff of Nuclear Annihilation: Humanity is on the Brink of Extinction! Thirty Seconds to Midnight**](#)

By [Regis Tremblay](#), [Helen Caldicott](#), [Ray McGovern](#), [David Vine](#), [Chris Hedges](#), and [Colonel Ann Wright](#), February 20 2017

Filmmaker Regis Tremblay states what few others dare to say. Humanity is on the brink of extinction! Nuclear power is not safe. 48 of America’s nuclear power plants are leaking and there is no way to get rid of nuclear waste. America’s reckless provocations of both Russia and China, two nuclear-armed countries, risk a nuclear holocaust from which no one survives. Climate change and global warming, if not mitigated immediately, will end the human experiment on earth sooner rather than later.

[**The “Counter-terrorism” Campaign in Syria is Fake. “Dark State” Manipulations Serve as Barriers to Peace**](#)

By [Mark Taliano](#), February 19 2017

The recently-disclosed story about the U.S using depleted uranium ordnances in Syria is suspect – not because there is reasonable doubt that the U.S used them – but because the story is being conflated with the notion that the weapons were used against ISIS.

[**The Deep State Goes Shallow. “Reality-TV Coup d’etat in Prime Time”**](#)

By [Edward Curtin](#), February 21 2017

It would not be hyperbolic to say that overthrowing democratic governments is as American as apple pie. It’s our “democratic” tradition – like waging war. What is less well known is that elements within the U.S. ruling power elites have also overthrown democratically

elected governments in the United States.

[A Tale of Two Realities: Donald Trump and Israel](#)

By [Dr. Binoy Kampmark](#), February 20 2017

It was supremely wicked, and rapidly meandered into horse muddied waters. US President Donald J. Trump had openly expressed what many a US politician has felt but avoided for the sake of false decency: the two-state solution regarding Israel and Palestine was “a bad idea”. There was only one supremo in this fight, and it certainly did not entail the downtrodden in Gaza or the West Bank.

[Analyzing the Emerging World Order: The Future of Globalism](#)

By [Levaughn Duran](#), February 19 2017

The global community today is clearly in a state of flux. This is not an aberration – we are in the midst of a normal and periodic global reordering. We shall briefly take a “big picture” look at this phenomenon and attempt to glean an understanding as to the direction that we are heading as citizens of a global society. It is my hope that these observations can foster a more in depth discussion between reasonable people; leading to the development of ideas which can then be implemented to improve the human condition.

[The US Space Program and the Cold War, Historic Role of African American Women](#)

By [Abayomi Azikiwe](#), February 22 2017

Review: Hidden Figures – This feature film provides a glimpse into the role of African American women in the development of the United States space program during the early 1960s. These events coincided with the escalating struggle for civil rights and self-determination, a movement which dated back to the pre-Civil War era when even freed Africans were subjected to inhuman treatment despite their existence in a nation that professed equality for all men and later women.
