Independence Day Hypocrisy, Not Democracy

By Stephen Lendman, July 04 2016

On July 4, 1776, America gained independence from Britain. Everything changed but stayed the same under new management – the way the framers planned it. Today we'd call them a Wall Street crowd – a deplorable bunch, including bankers, merchants, planters, ship owners, lawyers, politicians, judges, slave owners and traders, speculators, smugglers, privateers, and other type wheeler-dealers.

100 years ago, General Douglas Haig, commander-in-chief of the British Army fighting on the continent during World War I, launched a major offensive in a part of northern France that is known as the Département de la Somme.

Karl Marx on Financial Bubbles: Much Keener Insights than Contemporary Economists

By Prof. Ismael Hossein-Zadeh, July 02 2016

While paying homage to Marx for his profound understanding of "the laws of motion of the capitalist mode of production," most contemporary economists argue that, nonetheless, his economic analysis cannot be of much service when it comes to the study of modern banking and big finance, since these are relatively recent, post-Marx developments.
