By [Colin Todhunter](#), May 04, 2021

In his report, Tengra offers scientific evidence that strongly indicates asymptomatic transmission is not significant. He asserts that as these cases comprise most of India's case numbers, we should be questioning the data as well as the PCR tests and the cycles being used to detect the virus instead of accepting the figures at face value.

[From Mind Control to Viruses: How the US Government Keeps Experimenting on Its Citizens](#)

By [John W. Whitehead](#) and [Nisha Whitehead](#), May 04, 2021

Fifty years from now, we may well find out the whole sordid truth behind this COVID-19 pandemic. However, this isn't intended to be a debate over whether COVID-19 is a legitimate health crisis or a manufactured threat. It is merely to acknowledge that such crises can—and are—manipulated by governments in order to expand their powers.

[US' New "Foreign Malign Influence" Center Is Just Official Cover for American Intelligence Interference in Domestic Politics](#)

By [Scott Ritter](#), May 03, 2021

[Just How Much COVID-19 Vaccine Money \(And How Many Doses Per Person\) Is on](#)

[the Table?](#)

By [Dr. Meryl Nass](#), May 03, 2021

It is hard for me to fathom what is going on. The article quoted below indicates that the Pharma industry does not think Covid will be going away; instead it will switch **from pandemic to endemic, with outbreaks here and there-apparently justifying lots of vaccine boosters.**

By [Ethan Huff](#), May 03, 2021

The ongoing trials include more than 10,000 children aging in range from five to 11 in one of the groups, and another 10,000 children as young as six months old in the other. These trials have been taking place since mid-March with the soon expectation that the jab will be “authorized” for use in children and babies.

[CDC Officially Recommends COVID Jab for Pregnant Women](#)

By [Dr. Joseph Mercola](#), May 03, 2021

Giving pregnant women unlicensed COVID-19 gene therapies is reprehensibly irresponsible experimental medicine, and to suggest that safety data are “piling up” is pure propaganda. Everything is still in the experimental stage and all data are preliminary. It’ll take years to get a clearer picture of how these injections are affecting young women and their babies.

More than half of the eye disorders (10, 667) were also reported to the U.K.'s Yellow Card adverse event reporting system. These would have followed injection primarily of AstraZeneca's and Pfizer's COVID-19 vaccines but included eight reports of eye disorders among the 228 reports concerning Moderna's vaccine, of which only 100,000 first doses had been administered by April 21.

[Kent State, April 4, 1970: Was It about Civil Rights or Murdering Student Protesters?](#)

By [Laurel Krause](#) and [Prof. Mickey Huff](#), May 03, 2021

In 2010, compelling forensic evidence emerged showing that the Federal Bureau of Investigation (FBI) and the Counter Intelligence Program (COINTELPRO) were the lead agencies in managing Kent State government operations, including the cover-up. At Kent State, lawful protest was pushed into the realm of massacre as the US federal government, the state of Ohio, and the Ohio National Guard (ONG) executed their plans to silence antiwar protest in America.
