### [Inside the Invisible Government: War, Propaganda, Clinton and Trump](#)

By [John Pilger](#), October 27 2016

Propaganda is most effective when our consent is engineered by those with a fine education – Oxford, Cambridge, Harvard, Columbia — and with careers on the BBC, the *Guardian*, the *New York Times*, the *Washington Post*. These organisations are known as the liberal media. They present themselves as enlightened, progressive tribunes of the moral zeitgeist. They are anti-racist, pro-feminist and pro-LGBT. And they love war.

### [Who Was Behind the 2008 Financial Crash? US Aristocracy's Immunity From Prosecution. Proposal to Hold Top Level Wall Street "Crooks" Accountable](#)

By [Eric Zuesse](#), October 27 2016

For the very first time, on October 25th, a high federal official, the "SIGTARP" or Special Inspector General for the TARP program that bailed out the largest financial institutions and their top investors after the 2008 economic crash, is now making a specific proposal to hold the top-level crooks accountable for the incentive-systems they had put into place motivating their employees to pump-and-dump 'investments' during the growth-phase of the 'free market' Ponzi game that existed since 2000 when the end of the FDR-era Glass-Steagall Act and the start of totally unregulated financial marketeering went wild after 2005 and came crashing down in 2008.

surrounding sections of the agrochemicals industry and the regulation of glyphosate (as found in Monsanto's herbicide Roundup).

### [The Illusion of Meritocracy: “Rock Star Economist” Thomas Piketty in Australia](#)

By [Dr. Binoy Kampmark](#), October 28 2016

No one likes being lectured, and when it comes in the form of Gallic smugness delivered from literally the left of centre, it can grate. The equally smug social engineers and commentators who see their society as an exemplar to emulate find that hardest to stomach. Thomas Piketty, repeatedly introduced as a “rock star” economist by those short of words, is certainly full of advice for the places he visits.

### [The True Flag - Theodore Roosevelt, Mark Twain, and the Birth of the American Empire](#)

By [Jim Miles](#), October 28 2016

The American empire is usually not spoken of as such within today's current mainstream media discussions, but is generally recognized as such during infrequent candid moments, and within discussions in much of the alternate media. The discussion is not new, and the factors within the discussion, while changing somewhat with the times, tend to have remained the same. Stephen Kinzer's illustrative new history, *The True Flag*, takes the reader back to the turn of the Twentieth Century when the first acts of overseas empire were argued and acted on.
