By [William Boardman](#), December 03, 2017

The most dangerous thing about the North Korean missile launch is the reaction of the unprincipled, under-informed, [white identity extremist](#) sitting in the Oval Office. If there's a nuclear war coming out of this manufactured "crisis," the buck will have stopped with him. Not that President Trump doesn't have other fools egging him on to risk global chaos and destruction in response to an imaginary, inflated threat from an impoverished nation of 25 million people. Sadly, this is not a surprising development after more than sixty years of aggressive US behavior toward North Korea.
