Dear Readers,

More than ever, Global Research needs your support. Our task as an independent media is to "Battle the Lie".

"Lying" in mainstream journalism has become the "new normal": mainstream journalists are pressured to comply. Some journalists refuse.

Lies, distortions and omissions are part of a multibillion dollar propaganda operation which sustains the "war narrative".

While "Truth" is a powerful instrument, "the Lie" is generously funded by the lobby groups and corporate charities. And that is why we need the support of our readers.

What Netanyahu didn't achieve with President Obama seems more than likely under the Trump presidency, to drag the United States of America into another major war for the sake of Israel. S., the European states, and the IAEA should demand the inspection of Israel's substantial atomic weapons stockpile and its massive stock of biochemical weapons. The world should no longer accept to be jerked around by Netanyahu.
