[Your Man in the Public Gallery: the Assange Hearing Day 6](#)

By [Craig Murray](#), September 08 2020

If you asked me to sum up today in a word, that word would undoubtedly be “railroaded”. It was all about pushing through the hearing as quickly as possible and with as little public exposure as possible to what is happening.

[Gates Foundation is Also Destabilizing Africa’s Food Economy. The Restructuring of Global Food Production](#)

By [F. William Engdahl](#), September 08 2020

The same Gates Foundation which is behind every aspect of the COVID-19 pandemic from financing much of the WHO budget, to investing in favored vaccine-makers like Moderna, is engaged in a major project in Africa which is destroying traditional small farmer production of essential food crops in favor of monoculture crops and introduction of expensive chemical fertilizers and GMO seeds that are bankrupting small farmers.

[The Palestinian National Project: No Rallying Plan In Sight...Yet](#)

By [Rima Najjar](#), September 08 2020

How and in which direction to go remains an open question, but the great achievement of Masarat’s ninth annual conference is that it has signaled, loudly and clearly, that change in Palestine is inevitable and that it is Palestinians themselves who will shape it.

[COVID19 PCR Tests Are Scientifically Meaningless](#)

By [Torsten Engelbrecht](#) and [Konstantin Demeter](#), September 07 2020

Lockdowns and hygienic measures around the world are based on numbers of cases and mortality rates created by the so-called SARS-CoV-2 RT-PCR tests used to identify “positive” patients, whereby “positive” is usually equated with “infected.” But looking closely at the facts, the conclusion is that these PCR tests are meaningless as a diagnostic tool to determine an alleged infection by a supposedly new virus called SARS-CoV-2.

[The US Must Grow Up and Respect Iranian Independence](#)

By [Kevin Zeese](#) and [Margaret Flowers](#), March 10 2019

One of the lessons from our recent visit to Iran as a Peace Delegation is that Iran is a mature country. It is 2,500 years old, ten times as old as the United States and one of the world’s oldest continuous major civilizations with settlements dating back to 7,000 BC. It was an empire that controlled almost half the Earth for over 1,000 years. It is hard not to see the US-Iran relationship as one between an adolescent bully and a mature nation.
