[In Times of Crisis, How to Prevent an Economic Meltdown and Avoid Privatizing Profits and Socializing Losses](#)

By [Prof Rodrigue Tremblay](#), March 23, 2020

The crisis and public measures to fight it (drastic travel restrictions, social distancing, worker quarantines, etc.) have provoked a major [global economic meltdown](#) and perturbed supply chains domestically and around the world. Moreover, they have profoundly shaken financial markets already vulnerable, after years of easy money policies and round after round of so-called ‘[Quantitative Easing](#)’ (QE) by central banks, which have encouraged unsustainable debt levels by pushing interest rates down at historically low levels, irresponsible large fiscal deficits by governments during prosperous times, which have enriched the very rich, and runaway unregulated financial speculation that have had the same result.

[While Dumping Their Stocks, US Senators Misled the Public on Coronavirus Crisis](#)

By [Jacob Crosse](#), March 23, 2020

According to reports published by the *New York Times*, the *Daily Beast*, the *Washington Post*, National Public Radio (NPR) and ProPublica, and confirmed on the US Senate database for financial disclosures, at least four sitting senators, including the chairman of the Senate Intelligence Committee, Republican Richard Burr, and the ranking member of the Senate Judiciary Committee, Democrat Dianne Feinstein, in a textbook example of “insider trading” dumped millions of dollars worth of stock after a receiving a classified briefing on January 24. During the briefing, all members of the US Senate were informed of the “emerging public threat” regarding the novel coronavirus.

By [Prof Michel Chossudovsky](#), March 20, 2020

Millions of Americans have lost their jobs, thousands of small enterprises across the land have been spearheaded into bankruptcy. Millions of families have lost their lifelong savings as a result of the collapse of stock markets. Precipitated into a debt trap, they may lose their homes.

And that scenario will not “recover” in two weeks. It’s a long term depression. What we are dealing with is the destabilization of the US economy and an engineered **transfer of billions of dollars of money wealth.**

[Iran’s IMF Request Shows Just How Desperate Tehran has Become](#)

By [Andrew Korybko](#), March 20, 2020

Requesting an IMF loan usually doesn’t mean that a country is on the brink of collapse, but the situation is altogether different in Iran’s case after the Islamic Republic [asked for \\$5 billion worth of emergency assistance](#) to help it deal with a series of interconnected and increasingly cascading crises that threaten to totally upend everything that it’s achieved since 1979. The combination of crippling American sanctions, the compliance with the aforesaid by the US’ “[comprehensive global strategic partner](#)” India (formerly one of Tehran’s top energy partners) out of fear of so-called “secondary sanctions”, the uncontrollable outbreak of COVID-19 in the Islamic Republic, and the authorities’ mismanaged response to all of this has putting the country on the path to regime change, as the author warned in his earlier analysis titled “[Iran: Regime Change By Coronavirus?](#)”, with the global pandemic serving as the catalyst for possibly bringing this dark scenario into fruition.

[The Coronavirus, Fear, and Elitist Driven Market Insanity](#)

By [William J Murray](#), March 20, 2020

The headlines about seven dead in Seattle the first week of March emptied out stores and brought commerce to a standstill in that city. Shops and restaurants emptied out. With no guidance from federal, state or local officials the panic buying spread throughout the United States endangering the lives of millions of people as they coughed, sneezed and fought each other over toilet paper in Costco stores nationwide.

Coronavirus, Vaccines and the Gates Foundation

By [F. William Engdahl](#), March 20, 2020

By 2019 Bill Gates and the foundation were going full-tilt boogie with their pandemic scenarios. He made a Netflix video which made an eerie imaginary scenario. The video, part of the “Explained” series, imagined a wet market in China where live and dead animals are stacked and a highly deadly virus erupts that spreads globally. Gates appears as an expert in the video to warn, “If you think of anything that could come along that would kill millions of people, a pandemic is our greatest risk.” He said if nothing was done to better prepare for pandemics, the time would come when the world would look back and wish it had invested more into potential vaccines. That was weeks before the world heard about bats and a live wet market in Wuhan [China](#).
