[The Soft Coup Collapses - CIA Bluffing, Russia Did Not Hack, Blackmail Revealed - What Next?](#)

By [Robert David Steele](#), January 09 2017

CIA was bluffing, produced no evidence – Russians did not “hack” the election. Is this the beginning of the end of the Deep State in the USA? Can Trump clean house & wage peace?

[Russian ‘Cyberattacking’ - When the Most Flagrant Lie Becomes the Truth](#)

By [Peter Koenig](#), January 10 2017

Russian ‘Hacking’ and tilting the American elections in favor of Donald Trump’s is one of the most flagrant lies the White House has thrown around the world. Yet, Mr. Obama is desperate to make the American people and the world believe it did actually happen. As Goebbels, Hitler’s Propaganda Minister, said some 70 years ago, and many before and after him, “If you repeat a lie often enough, it becomes the truth”.

[Here’s How Goldman Sachs Became the Overlord of the Trump Administration](#)

By [Pam Martens](#) and [Russ Martens](#), January 10 2017

How did a candidate who repeatedly demonized Goldman Sachs as the poster child for a corrupt establishment that owned Washington end up with Goldman Sachs’ progeny filling every post that even tangentially has the odor of money or global finance? One answer is family ties; another may be something darker.

[Billionaires to Key Cabinet Positions: Is Donald Trump the “Back Door Man” for Henry A. Kissinger & Co?](#)

By [F. William Engdahl](#), January 10 2017

The term Back Door Man has several connotations. In the original blues song written by Willie Dixon, it refers to a man having an affair with a married woman, using the back door to flee before the husband comes home. During the Gerald Ford Presidency, Back Door Man was applied to Dick Cheney as Ford’s White House Chief of Staff and his “skills” at getting what he wanted through opaque means. More and more as Cabinet choices are named, it looks like the entire Trump Presidency project is emerging as Henry A. Kissinger’s “Back Door Man,” in the Cheney meaning of the term.

[The End of Ideology in Cuba?](#)

By [Arnold August](#), January 10 2017

In Cuba, in the last year or so, there has been a steady increase in the End of Ideology code words and buzz phrases emitted by some marginal Cuban bloggers and intellectuals. They were timid at first but became increasingly bold. To mention just a few: complaining of what they see as a “sterile dichotomy between socialism and capitalism”; advising Cuban revolutionaries to be “balanced and more profound in offering their criticism” of U.S. imperialism; opposing what they consider the extremist “Fidelista” and “anti-Castro” positions, placing both on the same footing; labelling those who are Marxist-Leninist or Fidelista as “extremists” or “fanatics”; writing about “two major fallacies of what it means to be a revolutionary in Cuba, from the left and right,” both being based on “exclusive dogma”; and, finally, asserting that “life is much more profound than even ideology.”
