We have made some progress in our campaign to meet our running costs and put an end to our monthly deficit, but we still need your help. As grateful as we are to those who have given so far, the total number of donations and membership subscriptions we have received over the past year still only amounts to a very small fraction of the tens of thousands of people who read our website on a daily basis. [Leaked Memo Shows the U.S. Still Does Not Understand Turkey's Syria Operation](#)

By [Paul Antonopoulos](#), November 21, 2019

An 'internal memo' that was intentionally leaked has blasted U.S. **President Donald Trump's** decision for the U.S. military to withdraw from Syria, or more accurately, relocate from northern Syria to the oilfields in the east, as well as his complacency as Turkey commits "war crimes and ethnic cleansing" against the Kurdish minority.

[Trump's New Policy on Israeli Settlements Is Illegal and Self-Serving](#)

By [Prof. Marjorie Cohn](#), November 21, 2019

Thumbing his nose at the Geneva Convention, the Rome Statute, the UN Security Council, the UN General Assembly and the International Court of Justice, **Donald Trump** decided

that Israel's unlawful construction of Jewish settlements in occupied Palestinian territory is lawful. This policy change is part of Trump's pattern of seeking to legalize illegal Israeli practices. It panders to Israel at the expense of the Palestinians while aiming to burnish Trump's bona fides with his Christian Zionist base. Christian Broadcasting Network [quoted Jack Graham](#), pastor of the megachurch Prestonwood Baptist Church in Plano, Texas, as saying that the Trump administration "once again has demonstrated why evangelical Christians have been unwavering in their support."

[**The Schiff Committee Finds No Impeachable Offense against Donald Trump**](#)

By [Renee Parsons](#), November 21, 2019

After several days of unremarkable [testimony](#) by assorted State Department functionaries the Democrats [continue to struggle](#) with ferreting out a legally defensible impeachable offense to warrant the three ring circus currently being conducted by **Rep. Adam Schiff**, Chair of the House Intel Committee.

On a railroad through the Intel Committee, the impeachment inquiry into President Donald Trump's alleged attempt at a Quid Pro Quo (QPQ), Dems are no closer to a sure-fire 'we got him now' piece of evidence than when the inquiry began as they shift gears to [widen the probe](#) into "[bribery](#)' and/or '[extortion](#),' whichever shoe fits.

[**China-Bolivia - A Lithium Deal, No More?**](#)

By [Peter Koenig](#), November 21, 2019

China has by far the largest lithium market. China produces already today the most electric cars, about 1 million in 2018, and will at least triplicate their production by 2025 - and in the following decade or two, demand is expected to increase exponentially.

Bolivia has the world's largest - by far - known lithium reserves. A long-term win-win contract between China and Bolivia was under preparation since early 2019 and being negotiated as a 51% Bolivia - 49% China share-arrangement, with manufacturing of batteries and other lithium-related products foreseen in Bolivia - added value, job creation in Bolivia - with an initial investment of US\$ 2.3 billion - was about to be signed, when the US-instigated Bolivian military coup occurred. It was immediately followed with the usual US-style intimidating, violent and murderous oppression, particularly directed at protests by indigenous people.

[**Chicago Teachers Union Ratifies Contract in the Aftermath of 11 Day Strike**](#)

By [Abayomi Azikiwe](#), November 21, 2019

The strike also was joined by members of the Service Employees International Union (SEIU) which reached a tentative agreement prior to the teachers. A division of SEIU represents thousands of security guards and teachers' assistants in Chicago Public Schools system.

An October 30 tentative agreement between the CTU and the city administration was agreed upon by the executive board ending the strike paving the way for a return to classes for 350,000 students on November 1. The deal created the conditions for schools to open fully staffed since the SEIU said it would not return to work until the city administration reached an agreement with the CTU.

[Impeach the Government: Rogue Agencies Have Been Abusing Their Powers for Decades](#)

By [John W. Whitehead](#), November 20, 2019

To allow the President or any rogue government agency or individual to disregard the rule of law whenever, wherever and however it chooses and operate "above the law" is exactly how a nation of sheep gives rise to a government of wolves.

To be clear: this is not about **Donald Trump**. Or at least it shouldn't be *just* about Trump.

[Video: The Madness of Putting 53,000 5G Satellites in Space](#)

By [Claire Edwards](#), November 20, 2019

Elon Musk has now applied to the Federal Communications Commission for permission to launch a further 30,000 satellites into Earth orbit, bringing the current total to 53,000 (October 2019). With the issues of space debris and weaponization being the two major issues of concern at the UN year after year, this is a mad enterprise, especially when NATO intends to declare space a domain of warfare in December 2019.

We stand at the brink of extinction if we do not stop the madness.
