**Dear Readers,**

*More than ever, Global Research needs your support. Our task as an independent media is to "Battle the Lie".*

*"Lying" in mainstream journalism has become the "new normal": mainstream journalists are pressured to comply. Some journalists refuse.*

*Lies, distortions and omissions are part of a multibillion dollar propaganda operation which sustains the "war narrative".*

*While "Truth" is a powerful instrument, "the Lie" is generously funded by the lobby groups and corporate charities. And that is why we need the support of our readers.*

The Fifth Secretary-General report does not provide any valid evidence of Iran’s violation of international law, or violation of Resolution 2231. However, the report’s presentation so starkly resembles crude propaganda, that it is surprising, indeed, that the UN Secretary-General would permit his imprimatur to be used in connection with this report. It appears to have been written by the US and its allies, and merely rubber-stamped by the Secretary-General.

Is it not a tad unseemly, not to say unsettling, for the representative of a respected human rights organization to coach Israel how to stay within the letter of the law—before resorting to bullets, you must first try “tear gas, skunk water, and rubber-coated steel pellets”—while it’s herding two million people, half of them children, in an unlivable space in which they are slowly being poisoned?

According to the World Bank’s lending report, based on data compiled up to 2015, India was easily the largest recipient of its loans in the history of the institution. Unsurprisingly, therefore, the World Bank exerts a certain hold over India. In the 1990s, the IMF and World

Bank wanted India to shift hundreds of millions out of agriculture. In return for up to £90 billion in loans, India was directed to dismantle its state-owned seed supply system, reduce subsidies, run down public agriculture institutions and offer incentives for the growing of cash crops to earn foreign exchange.
