*While "Truth" is a powerful instrument, "the Lie" is generously funded by the lobby groups and corporate charities. And that is why we need the support of our readers.*

Today, more than ever before, war depends on deception. To oppose war without seeing through the deceptions currently being practiced by governments of the West is to act in vain. I have visited many websites that attempt to offer alternatives to the mainstream media, but I have been disappointed repeatedly by their inability or refusal to challenge these myths and deceptions.

Global Research bravely takes on this task, and that is why it is a vital resource for us all. This is why I have made its website my homepage and why I have taken out a membership. I hope you will do the same. – Prof. [Graeme MacQueen](#) (for list of articles, [click here](#)), Co-editor, Journal of 9/11 Studies

### [History of the Third Reich: Hitler's Armaments Minister Albert Speer's Complicity in the Nazi Genocide](#)

By [Shane Quinn](#), October 12, 2018

In reality, Speer had knowledge at least months before the Hanke meeting that killings on a vast scale were being committed in Upper Silesia, and in other Nazi-occupied regions. Historians such as veteran author **Martin Kitchen** have asserted that Speer, and his team, were involved in concentration camp construction alongside the SS, and therefore had a role in implementing the "Final Solution".

### [The Electric Revolution: Move Aside Lithium, Vanadium Is the New Super-Metal for Bigger Batteries](#)

By [James Burgess](#), October 12, 2018

The lithium ride was a great one. Cobalt, too. All they needed was their Elon Musk moment, which came in the form of the Nevada battery gigafactory. The next Elon Musk moment won't be about lithium at all—or even cobalt. It will be for an element that takes everything electric to its revolutionary finish line: **Vanadium**.

### [\*\*The Two Brett Kavanaugh Stories\*\*](#)

By [Philip Giraldi](#), October 11, 2018

The failure of Congress to carry out its duty to review Kavanaugh's ability or lack thereof to interpret the constitution impartially was the more important story line in the confirmation process but it was ignored by the media.

### [\*\*Russian 'Collusion' Is a Red Herring, Emergence of the Far Right, New Wave of Fascism\*\*](#)

By [Max Parry](#), October 11, 2018

As the 2018 U.S. midterm elections approach, there is still no evidence of 'collusion' between the campaign of **President Donald J. Trump** and the Russian government after nearly two years of inquiry. Thus far in the Department of Justice's investigation led by

**Special Counsel Robert S. Mueller III**, only a trail of corruption involving Trump associates has been discovered. None of their wrongdoings connect to the Russian nationals also indicted in the probe, including the illicit lobbying by former campaign chairman **Paul Manafort** in Ukraine which actually went against Russia's interests on behalf of the EU.
