We report, however, that chloroquine has strong antiviral effects on SARS-CoV infection of primate cells. These inhibitory effects are observed when the cells are treated with the drug either before or after exposure to the virus, suggesting both prophylactic and therapeutic advantage.

[The ‘Great Reset’: A Technocratic Agenda that Waited Years for a Global Crisis to Exploit](#)

By [Tim Hinchliffe](#), May 27, 2021

In the face of a global pandemic, an un-elected body of global bureaucrats based in Davos, Switzerland has asked the world to trust its vision of a technocratic “great reset,” knowing full well the public would never go for such a request had it not been for the golden opportunity they’d all been waiting for.

[China: Towards Capitalist Restoration. Michel Chossudovsky](#)

By [Prof Michel Chossudovsky](#), May 26, 2021

I started reviewing Chinese economic history including the structures of the factory system prior to 1949, the development of the treaty ports established in the wake of the Opium wars (1842) and came to the realization that what was being reinstated in terms of the special economic zones, the open door policy had been influenced by the history of the treaty ports, which granted extraterritorial rights to Britain, France, Germany, the US, Russia and Japan.
