[Too Little Too Late? Pfizer, Moderna to Study Long-Term Risk of Myocarditis After COVID Vaccines](#)

By [Dr. Suzanne Burdick](#), November 21, 2022

Pfizer and Moderna are launching clinical trials to track long-term health issues following a diagnosis of vaccine-associated myocarditis and pericarditis in teens and young adults, but some experts said the risks are already clear.

[They Will Lock You Down Again](#)

By [Jeffrey A. Tucker](#), November 21, 2022

The lords of lockdown barely escaped their worst possible fate, namely that the topic would become the national and international source of scandal that it should be. And let's add the vaccine mandates here too: even if such had been morally justified, which they were not, there is absolutely no practical reason for them at all.

[CBDC: How COVID Became the Path to Global Financial Surveillance](#)

By [Joshua Stylman](#), November 21, 2022

It's seemed evident for a while that the current fiat monetary system is, at best, unstable. At worst, it's a Ponzi scheme whose time has expired. If that's the case, I suspect the central bankers and 0.1% know this and might be prepared to usher in the new system before the old one collapses on itself – even as they loot it on the way down with the most significant wealth transfer in human history.

Were the 9/11 Aircraft Electronically Hijacked and Remotely Controlled?

By [Dan Hanley](#), November 20, 2022

According to the global grassroots organization 9/11 Pilot Whistleblowers website (<https://911pilots.org/>), there were no Muslim hijackers at the controls of the 9/11 aircraft but that these aircraft were electronically hijacked and remotely controlled through employment of a system called the [uninterruptible autopilot](#) that enables a remote source to take complete control of the aircraft autopilot and flight management computer and remotely guide it to its target destination.

“Veritocracy”: Casting a Mould for “Enlightened Governance”?

By [Julian Rose](#), November 20, 2022

Appealing to the baser instincts of the masses while growing rich and powerful by taxing their hard labour has been the bottom line formula for the maintenance of top-down pyramid power for at least the past thousand years in the Western World.

It Took 64 Years for the U.S. Government to Admit to Its 1953 Coup that Grabbed Iran

By [Eric Zuesse](#), November 20, 2022

World War III is America’s war to capture Russia, and the way to do it is to position its missiles so close to Moscow that it can then declare “Checkmate!” and the missiles would take just 5 minutes to annihilate The Kremlin. Only Ukraine is that close to Moscow — close enough so that from missile-launch to annihilating Moscow would be so fast that Russia’s central command would be dead before they’d be able to confirm the launch and then launch their retaliatory missiles.

Thuggish Ways: Mike Pompeo, Punishing Leakers and Getting Assange

By [Dr. Binoy Kampmark](#), November 20, 2022

Poor, silly, protuberant Mike Pompeo. The stocky, irritated former CIA director and former Secretary of State is rather upset that those who worked under him dared wag their tongues about Julian Assange. The wagging so happened to relate to contemplated plans of abduction and assassination, something the US executive formally disallows though permits via various devious mechanisms.

[Video: Ukraine's Undeclared War Against NATO](#)

By [South Front](#), November 20, 2022

During the 9 months of the Russian military operations in Ukraine, NATO member countries have repeatedly become victims of the ongoing hostilities. As soon as Brussels was ready to apply Article 5 on NATO's collective defense and declare war on Russia, it turned out that Ukraine was causing damage to the Alliance members.

Among the dead were Arzu Ozsoy and her 15-year-old daughter Yagmur Ucar, a nine-year-old girl and her father, and a married couple. All were Turkish citizens.

[Deadly Games: The Labour Casualties of Qatar's FIFA World Cup](#)

By [Dr. Binoy Kampmark](#), November 20, 2022

A sordid enterprise, nasty, crude and needless. But the World Cup 2022 will be, should anyone bother watching it, stained by one of the highest casualty rates amongst workers in its history, marked by corruption and stained by a pharisee quality. The sportswashers, cleaning agent at the ready, will be out in force, and the hypocrites dressed to the nines.
