[Trump's "No-Peace/Peace Plan" for Palestine. Netanyahu/Gantz Invited to White House to Discuss "Deal of the Century"](#)

By [Stephen Lendman](#), January 24, 2020

Leaked information shows Trump's so-called deal of the century is a one-sided scam, favoring Israel at the expense of fundamental Palestinian rights.

The so-called peace process is the greatest hoax in modern times, along with the US war OF terror worldwide, not on it.

[European Jewish Congress \(EJC\) Launches Campaign Against 'Antisemitism' \(Aka Support for Palestinian Rights\)](#)

By [Alison Weir](#), January 24, 2020

The EJC [considers](#) anti-Zionism to be a form of anti-Semitism and [employs](#) a newly created [definition](#) of antisemitism in which certain [types](#) of statements about Israel are supposedly "antisemitic." As a result, EJC's opposition to "antisemitism" often consists of censoring information that exposes Israeli [violations](#) of Palestinian human rights.

Its new campaign, called "Stop This Story," particularly focuses on Instagram, although it will also use YouTube and other platforms. According to the EJC, the campaign will be the "first global initiative of its kind that will leverage Instagram's AR (Augmented Reality) effects to drive a global movement." It claims to have recruited "some of the world's leading AR effects' creators."

[Fake News and "The Naked Government": Jessica Lynch and the US Invasion of Iraq](#)

By [Larry Romanoff](#), January 24, 2020

Jessica Lynch was a 19-year-old US Army clerk who served in Iraq during the 2003 US

invasion. Her military vehicle was hit by a grenade, and crashed. Lynch was seriously injured, with a broken leg and hip, and some of her comrades were killed. But Jessica, being a typical American hero, crawled out of her vehicle while fighting the intense pain from her broken bones and, with one automatic weapon in each hand, she stood erect with both guns blazing, mowing down enemy soldier after enemy soldier, until all her ammunition was exhausted and she surrendered to unconsciousness from the pain. Jessica was shot multiple times, captured and repeatedly stabbed, then was taken prisoner and carried off with all her broken bones and bullet holes to a dirty Iraqi hospital where she was chained to a bed and held for eight days by vicious Iraqi guards who slapped and abused her and raped her.

[State Secrecy: UK Government Now Routinely Refusing Freedom of Information Requests](#)

By [True Publica](#), [Peter Geoghegan](#), and [Jenna Corderoy](#), January 24, 2020

Access to information is a right in British law. Want to know who Boris Johnson has been meeting and what they've talked about? All you have to do is put in a request, wait a few weeks and the information will be pinged straight to your inbox. But there's a snag. A big one.

The government routinely ignores and undermines the law governing our access to information. According to the Institute for Government, its departments refuse to comply in full with [more than half of the Freedom of Information requests](#) that they receive.

["One World Digital Dictatorship" A Digital Nightmare](#)

By [Gideon Polya](#), January 24, 2020

Danish writer Soren Korsgaard (editor of Crime & Power) has written a very long and detailed account entitled "One World Digital Dictatorship" that describes the accelerating movement by both Western-style democracies and one-party states (notably China) towards world-wide Digital Dictatorship (Digital Imprisonment) involving mass data collection on everyone, mass surveillance, facial recognition-based tracking, cryptocurrency-based cashless societies, and social credit-based disempowerment.

[An Epic Act of Resistance and Trial of Our Times. "The Venezuela Embassy Protectors Collective"](#)

By [Lauren Smith](#), January 23, 2020

On February 11th, four American peace activists, known as the [Embassy Protectors Collective](#), will be tried before the U.S. empire for "interfering with certain protective functions" of its Federal government for their occupation of the Venezuelan embassy in Washington, D.C. to prevent it from being handed over to coup leaders sponsored by the

Trump administration. Their occupation ended on May 16, 2019, when federal agents broke into the sealed embassy, against international law, and arrested them in a [swat style raid](#). The government's accusation against them is merely a pretext used for their arrest and prosecution, since they haven't broken any laws. Matter of fact, their true crime in the minds of the Trump administration is just the opposite - it's their brilliant defense of international law, and Venezuela's sovereign right to self-determination against Yankee imperialism.

[The New Mind Control. "Subliminal Stimulation", Controlling People without Their Knowledge](#)

By [Robert Epstein](#), January 22, 2020

Over the past century, more than a few great writers have expressed concern about humanity's future. In *The Iron Heel* (1908), the American writer Jack London pictured a world in which a handful of wealthy corporate titans - the 'oligarchs' - kept the masses at bay with a brutal combination of rewards and punishments. Much of humanity lived in virtual slavery, while the fortunate ones were bought off with decent wages that allowed them to live comfortably - but without any real control over their lives.

Can you [help us](#) keep up the work we do? Namely, bring you the important news overlooked or censored by the mainstream media and fight the corporate and government propaganda, the purpose of which is, more than ever, to "fabricate consent" and advocate war for profit.

We thank all the readers who have contributed to our work by making [donations](#) or becoming members.

If you have the means to make a small or substantial [donation](#) to contribute to our fight for truth, peace and justice around the world, your gesture would be much appreciated.
