[The Massive Covid-19 Hoax](#)

The numbers of infections versus deaths in Iceland where testing has been the most widespread shows a death rate of about 0.5%, though only 5% of the population has been tested. 50% of those tested showed no symptoms at all meaning that many, many more Icelanders likely had the virus, overcame it with ease, and never visited a doctor or hospital to avail themselves for testing or to make into national Covid-19 statistics.

In 2009, hundreds of thousands of pigs were executed Worldwide, despite the fact that the WHO had confirmed that there was no danger of transmission from pigs to humans.

And then what happened, an authoritative study by the John Hopkins School of Public Health was released saying that humans could infect the pigs. [Putting Meat on the Table Industrial Farm Animal Production in Americas](#), see also [Washington Post, May 9 2009](#)).

[A Universal Basic Income Is Essential and Will Work](#)

The mandated shutdown from the coronavirus has exacerbated the debt crisis, but the economy was suffering from an unprecedented buildup of debt well before that. A UBI would address the gap between consumer debt and the money available to repay it; but there are equivalent gaps for business debt, federal debt, and state and municipal debt, leaving room for quite a bit of helicopter money before debt deflation would turn into inflation.

Some years ago, the then vice-president of Monsanto Robert T Fraley asked, “Why do people doubt science”. He posed the question partly because he had difficulty in believing that some people had valid concerns about the use of genetically modified organisms (GMOs) in agriculture.

Critics were questioning the science behind GM technology and the impacts of GMOs because they could see how science is used, corrupted and manipulated by powerful corporations to serve their own ends. And it was also because they regard these conglomerates as largely unaccountable and unregulated.

[Lock Step, This Is No Futuristic Scenario: Panic and the Post-Pandemic Future?](#)

By [F. William Engdahl](#), April 19, 2020

Every day world mainstream news reports more people in more countries diagnosed

“positive” for the coronavirus illness, now called COVID-19. As the reported numbers grow, so does widespread nervousness, often in the form of panic shopping for masks, disinfections, toilet paper, canned goods. We are told to accept the testing results as science-based. While it is next to impossible to get a full picture of what is taking place in China, the center of the novel virus storm, there is a process, being fed by mainstream media accounts and genuine panic in populations unclear what the real dangers are, that has alarming implications for the post-pandemic future.

For over twenty years Bill Gates and his Foundation, the Bill and Melinda Gates Foundation (BMGF) have been vaccinating foremost children by the millions in remote areas of poor countries, mostly Africa and Asia. Most of their vaccination program had disastrous results, causing the very illness ([polio](#), for example in India) and sterilizing young women ([Kenya, with modified tetanus vaccines](#)). Many of the children died. Many of the programs were carried out with the backing of the WHO and - yes - the UN Agency responsible for the Protection of Children, UNICEF.

[Why Are They Inflating the Numbers? New York City Adding 3,800 Unconfirmed Cases to COVID-19 Death Toll](#)

By [Timothy Alexander Guzman](#), April 17, 2020

Mayor De Blasio said that there was an increase in “*unexplained at-home deaths*” and that he “*suspected many of them were caused by Covid-19*” and he also said that “*there’s no question in my mind and the doctors can speak to this, the driver of this huge uptick in deaths at home is Covid-19 and some people are dying directly of it and some people are dying indirectly of it, but it is the tragic X factor here.*” There is something terribly wrong with this picture. Why are they adding unconfirmed cases to the death toll?
