Dear Readers,

More than ever, Global Research needs your support. Our task as an independent media is to "Battle the Lie".

"Lying" in mainstream journalism has become the "new normal": mainstream journalists are pressured to comply. Some journalists refuse.

Lies, distortions and omissions are part of a multibillion dollar propaganda operation which sustains the "war narrative".

While "Truth" is a powerful instrument, "the Lie" is generously funded by the lobby groups and corporate charities. And that is why we need the support of our readers.

[Nicaragua: Next in Line for Regime Change?](#)

By [Tortilla Con Sal](#), April 24, 2018

Events in Nicaragua over the past week are clearly modeled on the kind of U.S.-led, NATO-driven regime change that succeeded in Libya, Ivory Coast and Ukraine, but has so far failed in Thailand, Syria and Venezuela. At a national level, the protests have been led by the private sector business classes defending their rate of profit against socialist policies in defense of low-income workers and people on pensions.

[What Will Weapons Inspectors Find in Syria... and Does It Matter?](#)

By [Rep. Ron Paul](#), April 24, 2018

Proponents of the US and UK position that Assad used gas in Douma have argued that the Syrian and Russian governments are preventing the OPCW inspectors from doing their work. That, they claim, is all the evidence needed to demonstrate that Assad and Putin have something to hide. But it seems strange that if Syria and Russia wanted to prevent an OPCW inspection of the alleged sites they would have been the ones to request the inspection in the first place.
