”By [Manlio Dinucci](#), May 24, 2020

The Rockefeller Foundation has presented the **“National Covid-19 Testing Action Plan”**, indicating the “pragmatic steps to reopen our workplaces and our communities”. However, it is not simply a matter of health measures. The Plan prefigures a real hierarchical and militarized social model. At the top, the “Pandemic Testing Board (PTB), akin to the War Production Board that the United States created in World War II”. The Pandemic Testing Board would “consist of leaders from business, government and academia”.

By [Prof Michel Chossudovsky](#), May 23, 2020

“The only tool we have right now for fighting the coronavirus is social distancing” says Dr. Fauci. And of course confinement, “stay at home”. Neither of these “recommendations” are medical solutions, i.e. drugs which can be used to prevent and inhibit the infection. Fauci is opposed to the treatment of COVID-19 using chloroquine. What he wants is for all of us to be vaccinated.

[Two Fictions of Mainstream Economics. 45 Million US Workers Unemployed](#)

By [Dr. Jack Rasmus](#), May 25, 2020

One of the favorite myths they perpetrate is that ‘wages are sticky downwards’. That means that in conditions of recession or worse, because workers won’t accept lower wages the recession tends to continue. If only workers would allow wage reductions it would mean business would have more disposable income (from wage cost savings) on hand. Business would then reinvest the extra income. Investment would rise. Workers would be rehired. Wage income would then recover and the economy would grow from more investment and consumption.

Economic activity across the country has collapsed, GDP is shrinking at the fastest pace on record, and the economic data is worse than anytime in history. Every sector of the economy is contracting and every economic indicator is pointing down. According to economist Nouriel Roubini, the country is headed towards a decade of “depression and debt”, and that is probably an understatement.

The Open Skies Treaty is the third important military pact that Trump has withdrawn from since coming to office in January 2017. By [Shane Quinn](#), May 25, 2020

Examining the introduction of communism to Cuba over 60 years ago, and the revolution’s survival despite large-scale American attacks, one can conclude these occurrences would likely not have been possible without the involvement of **Fidel Castro**, the country’s former head of state. The Cuban revolutionary performed a central role in firstly overthrowing the

US-backed dictator **Fulgencio Batista** in 1959 through guerrilla warfare, and he then held sway over Cuba for half a century, making him one of the world's longest serving government leaders.

The economic scenario unfolding in the United States, indicates that unemployment will hit 30 percent soon, one that is broader when compared to that of the Great Depression of the 1930s. One in three will be without a means to life and needing to be saved. Retrenchments and layoffs by the thousands have been announced. Airlines are suffering almost without exception and all will benefit from the US 2.2 trillion dollars rescue package but the workers have been neglected. The economic disruption is of at a global level.

Their appeal backs a similar call put out by the Federation of Canadian Municipalities in mid-April, urgently asking the federal government for \$10 billion in emergency aid.
