[Del Bigtree](#) is the host of [The Highwire](#) which airs online Thursdays from 2-4 PM ET. He won an [Emmy Award as one of the producers of The Doctors TV show](#). Bigtree was the producer of the 2016 film [Vaxxed: From Coverup To Catastrophe](#) which went viral. The [documentary](#) alleges that the CDC — the government agency charged with protecting the health of American citizens — destroyed data on their 2004 study that allegedly showed a link between the MMR vaccine and autism.

The film was directed by [British MD Andrew Wakefield](#) who was among the first to make a possible connection between the MMR shot and autism after many mothers consulted him about problems their kids had after getting the shot. Like Robert F. Kennedy Jr., Wakefield was drawn into the vaccine controversy by mothers looking for solutions for kids whom they believe had been injured by vaccines.

[Vaxxed](#) shows that [Dr. William Thompson](#) was a CDC whistleblower who came forward with documents and data that strongly indicate the CDC illegally manipulated data in the MMR study. Dr. Thompson alleged that during the study, highly significant increases in the risk of autism were found in several populations and the CDC did everything from kicking children off the study to throwing data out to cover it up.

Del created the [Informed Consent Action Network](#) (ICAN) which works closely with attorney Aaron Siri, Managing Partner at [Siri & Glimstad](#). Siri has been celebrated in the corporate media for his growing victories for ICAN over the last few years. [Newly filed tax records show that ICAN, one of the country’s best-funded anti-vaccine organizations, saw a 60 percent jump in revenue in 2020](#). The Washington Post reported in 2021 about ICAN: [Resistance to vaccine mandates is building. A powerful network is helping](#).

Del created The Highwire to report on the work ICAN is doing and other issues. His show began in a small studio with a few viewers. However, The Highwire now has a very

sophisticated set and an audience of about 6 million in over 30 countries. Since the show is funded by viewers and Del accepts no corporate funding, he is free to cover whatever topics he chooses in whatever way he wants. Every Monday, Del sends people who subscribe to the show for free all the data on which that week's show was based so they can come to their own conclusions.

Plan To Stop "Vaccine Hesitancy"

On July 6, Del's team pointed out in his email to subscribers:

It's an unprecedented time in the Vaccine Risk Awareness movement. The public is searching for facts about vaccines like never before. Advocates old and new are looking for resources to use in the fight to get the truth out to the masses. Earmark today's episode, because it is one you will want to share.

Del Bigtree has been traveling the U.S. and the world since 2016, speaking to audiences about massive and devastating holes in vaccine safety science, holes that public health agency 'watch dogs' have continually refused to address publicly. Holes that millions of people are only just becoming aware of after massive overreaches that occurred during the COVID Pandemic.

Del recently gave a talk exposing the real pandemic, a pandemic of lies around vaccine safety and policy in the U.S. COVID may have opened your eyes, but this talk, given in California and now being re-aired for you, will help you understand why COVID was just the tip of the vaccine safety iceberg. Bring a pad and paper, class is in session!

In the July 6 show below, Del explained one of the main reasons for the forced rollout of the COVID shots. It's a shocking exposé of the failure of vaccines whose safety and efficacy the government and corporate media ridicule anyone for questioning.

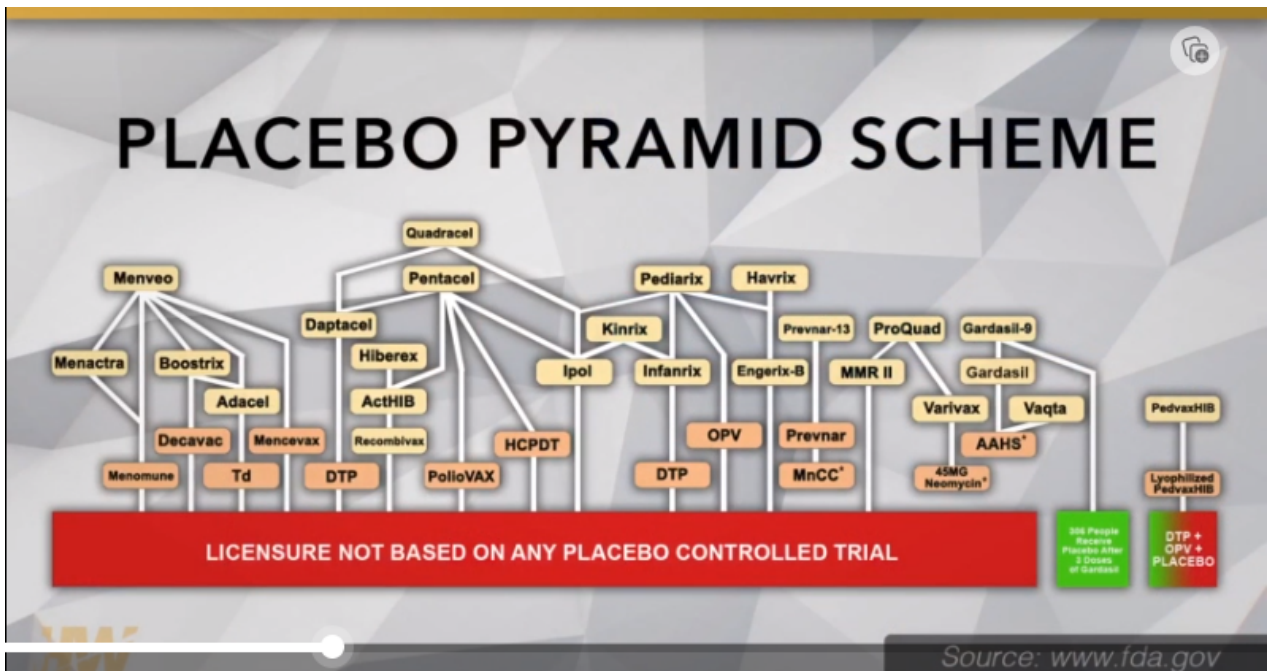

[Episode 327 "Pandemic of Lies"](#)

Del recently gave a presentation exposing the real pandemic, a pandemic of lies surrounding vaccine safety and policy in the U.S. which The HighWire and ICAN have been investigating since its founding. COVID may have opened your eyes, but this talk, given in California at a fundraiser for the group PERK, and now being presented to you, will help you learn why COVID was just the tip of the vaccine safety iceberg.

[Click here to view the video](#)

Del pointed out that no vaccine on the [Childhood Vaccine Schedule](#) has ever been tested against a placebo to ensure that it is safe or effective!

Del explained that the WHO called a meeting in Switzerland on December 23, 2019 to discuss how to stop “vaccine hesitancy.” He pointed out that Episode 145 [The Highwire “Who Is Lying To You?”](#) which aired on 1/9/20 covered that meeting.

[Click here to view the video](#)

Unique Position In Human History

Del explained that [Heidi Larson, MA PhD](#), Director of [The Vaccine Confidence Project](#) who is the lead psychologist for the WHO, admitted at that meeting that Big Pharma admitted its mistakes.

She said,

We are in a unique position in human history where we've shifted the human population to dependency on vaccine-induced immunity. That was on the great assumption that populations would cooperate... We're in a very fragile state now. We have developed a world that is dependent on vaccinations. We don't have a choice but to make that effort.

Disney Measles Outbreak

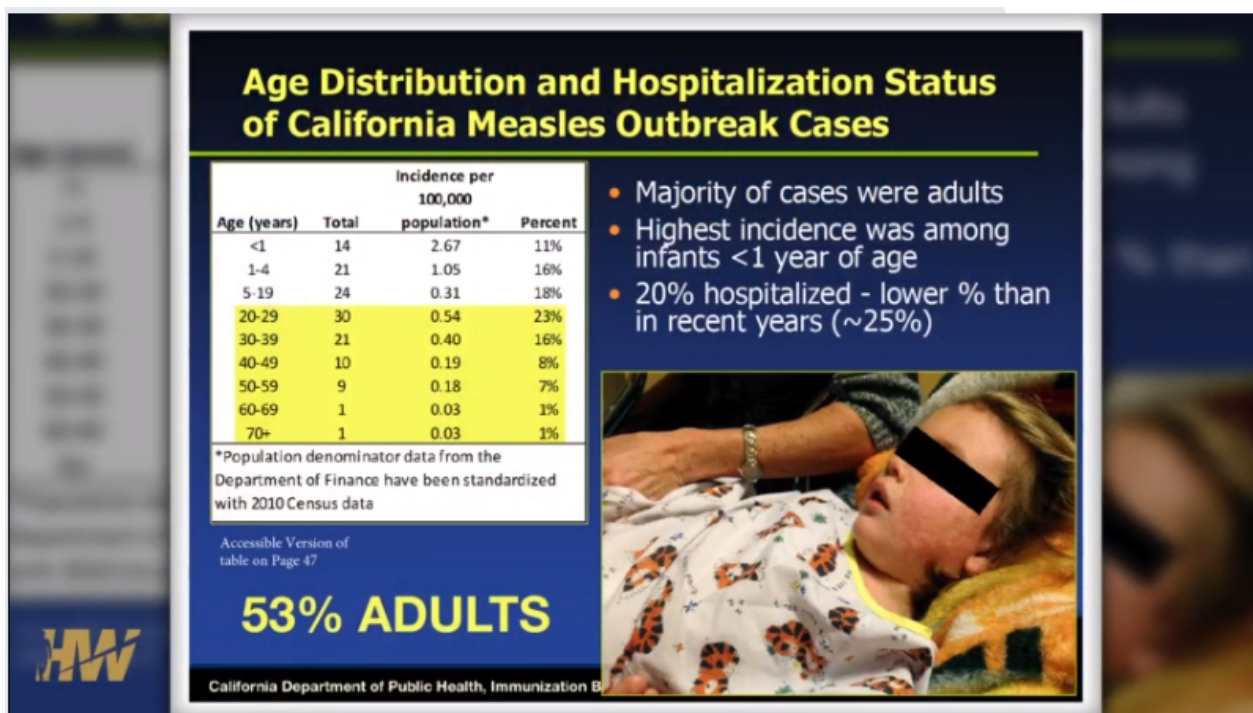

Del pointed out that measles is a trivial childhood illness that kills one in 500,000 and confers life-long immunity to any child who gets it. Del said measles is one of the most infectious viruses the world has ever seen. The problem with requiring kids to get a measles vaccine is that if it doesn't irradiate the disease, it could ultimately make it more virulent and more dangerous. If so, we are going to have a serious problem on our hands.

Del explained:

Never once have they made a vaccine that does what your God-given immune system does every time you caught a virus. So, here's what she's saying. You Baby Boomers in the room are the last hope for herd immunity. You are the only ones who are still immune to measles (because they got the infection rather than the shot). Every adult, their vaccines have worn off.

The big Disneyland outbreak here in California, 50% of them were adults who had been

previously vaccinated – 30% caught vaccine-strain measles! You were told it was about unvaccinated. It wasn't! It was about waning immunity – something we hear a lot about now with COVID. All the immunity from our childhood vaccines has worn off. They never achieved what they wanted which was herd immunity – natural immunity. So, the issue is no adults (other than Baby Boomers) are immune.

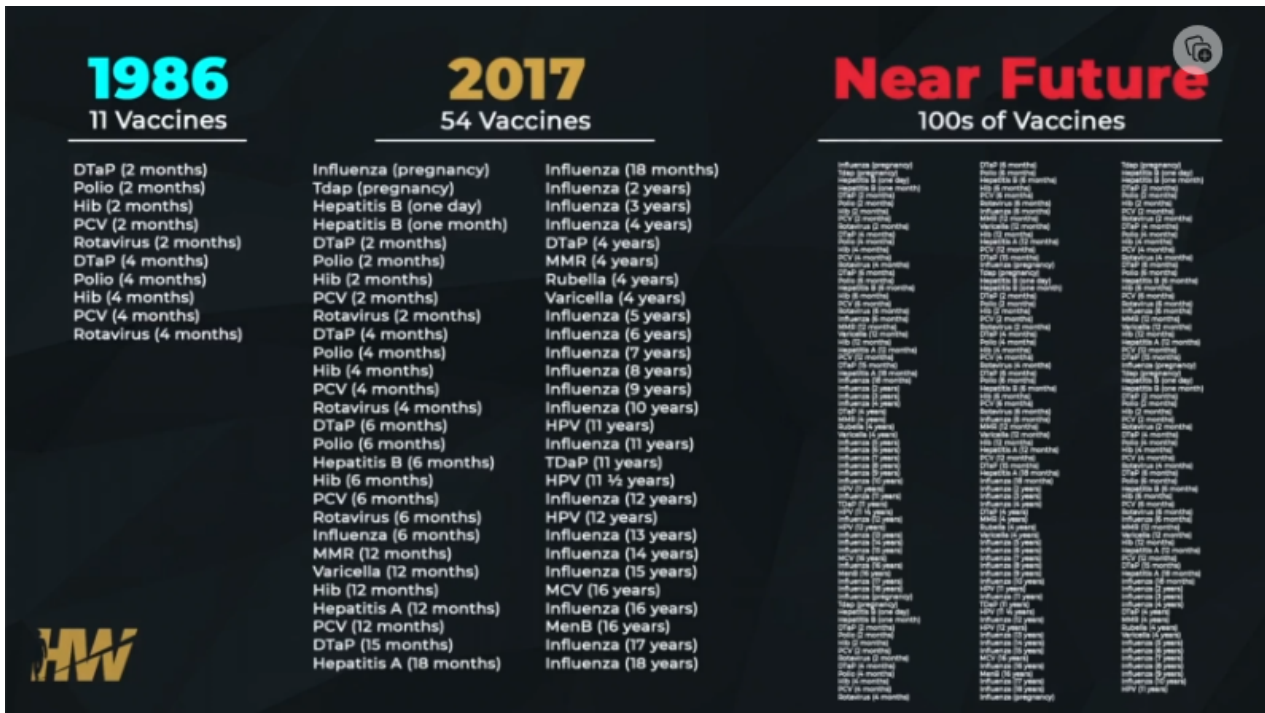

Del added:

Polio is coming back now. They have vaccine-strain polio sweeping all over the Middle East and now it's in New York – and guess what. They're thinking of going back to the oral polio vaccine which also can cause polio! Get ready, folks, because this about to get really stupid because these idiots have really messed up! All of their greatest fears are upon them.

Del showed the chart below which lists the 11 vaccines kids were required to get before 1986, the 54 vaccines required by 2017, and the 100s of vaccines for adults planned for the near future. He said,

You are all about to become human pin cushions for companies that are making billions. It will be trillions of dollars within years if we let them get away with this.

Del said the chart below shows the CDC schedule of mandatory vaccines for adults.

Table 1 COVID-19 vaccination recommendations at www.cdc.gov/covidschedule
Recommended Adult Immunization Schedule for Older, United States, 2023

Vaccine	19–26 years	27–49 years	50–64 years	≥65 years
COVID-19	2- or 3- dose primary series and booster (See Notes)			
Influenza inactivated (IIV4) or Influenza recombinant (RIV4)	1 dose annually			
Influenza live, attenuated (LAIV4)	1 dose annually			
Tetanus, diphtheria, pertussis (Tdap or Td)	1 dose Tdap each pregnancy; 1 dose Td/Tdap for wound management (see notes)			
Measles, mumps, rubella (MMR)	1 dose Tdap, then Td or Tdap booster every 10 years			
Measles, mumps, rubella (MMR)	1 or 2 doses depending on indication (if born in 1957 or later)			For healthcare personnel, see notes
Varicella (VAR)	2 doses (if born in 1980 or later)		2 doses	
Zoster recombinant (RZV)	2 doses for immunocompromising conditions (see notes)		2 doses	
Human papillomavirus (HPV)	2 or 3 doses depending on age at initial vaccination or condition	27 through 45 years		
Pneumococcal (PCV15, PCV20, PPSV23)	1 dose PCV15 followed by PPSV23 OR 1 dose PCV20 (see notes)			See Notes
Hepatitis A (HepA)	2, 3, or 4 doses depending on vaccine			
Hepatitis B (HepB)	2, 3, or 4 doses depending on vaccine or condition			
Meningococcal A, C, W, Y (MenACWY)	1 or 2 doses depending on indication, see notes for booster recommendations			
Meningococcal B (MenB)	19 through 23 years	2 or 3 doses depending on vaccine and indication, see notes for booster recommendations		
Haemophilus influenzae type b (Hib)	1 or 3 doses depending on indication			

Legend:
 - Yellow: Recommended vaccination for adults who meet age requirement, lack documentation of vaccination, or lack evidence of past infection.
 - Purple: Recommended vaccination for adults with an additional risk factor or another indication.
 - Blue: Recommended vaccination based on shared clinical decision-making.
 - Grey: No recommendation/Not applicable.

Del explains that vaccines did not eradicate disease.

The only thing they eradicated was herd immunity itself! When we lose this last generation of Baby Boomers, it's over! There's no herd immunity on this planet. We're vulnerable to every virus that's out there.

COVID Policies: Crime Against Humanity

Del pointed out that the childhood vaccine schedule introduced after 1986 erased humanity's natural herd immunity. So, in December 2019, health officials convened to figure out how to introduce a mandatory adult vaccine schedule to force adults to get shots to protect against infectious diseases. He pointed out that adult vaccines are the cash cow now. Del told the audience, *"You are the future of the pharmaceutical take-over of the world!"*

The goal of the meeting was to figure out how to scare the entire planet into vaccine submission and avoid the dreaded *"vaccine hesitancy"*. Del said, *"Then suddenly, we had the world's deadliest cold - all of a sudden, out of nowhere!"* Del pointed out that we were told the ONLY solution for COVID was a *"warp-speed vaccine"* although several inexpensive treatments were known in early 2020.

Del showed that the [Emergency Use Authorizations](#) (EUAs) for the COVID shots were illegal because EUAs can be issued ONLY if there NO available treatments. Yet, it was well known in early 2020 that HCQ/zinc and ivermectin were effective inexpensive early treatments. Del pointed out that President Trump wanted to get HCQ released to the public, but Tony Fauci opposed the use of HCQ for COVID. Del explained that HCQ could have saved half of the 1,130,662 Americans who died from COVID!

Del said that the same war was waged against [ivermectin](#) for the same reason. He described this as a crime against humanity. Del explained that we were all part of a [Tuskegee Experiment](#) during COVID. So, the health agencies believe that the solution to the problem caused by forcing people to follow the childhood vaccine schedule is to force people to follow a new adult vaccine schedule now!

The problem Big Pharma caused puts humanity at risk, but is a huge and permanent cash cow for the drug companies! The US health agencies allowed this to happen - with the collusion of the corporate media and Big Tech who silenced doctors and scientists who opposed this insanity.

["Cause Unknown": The Epidemic of Sudden Deaths in 2021 and 2022](#)

Del discussed the explosion of heart attacks and sudden deaths among young athletes.

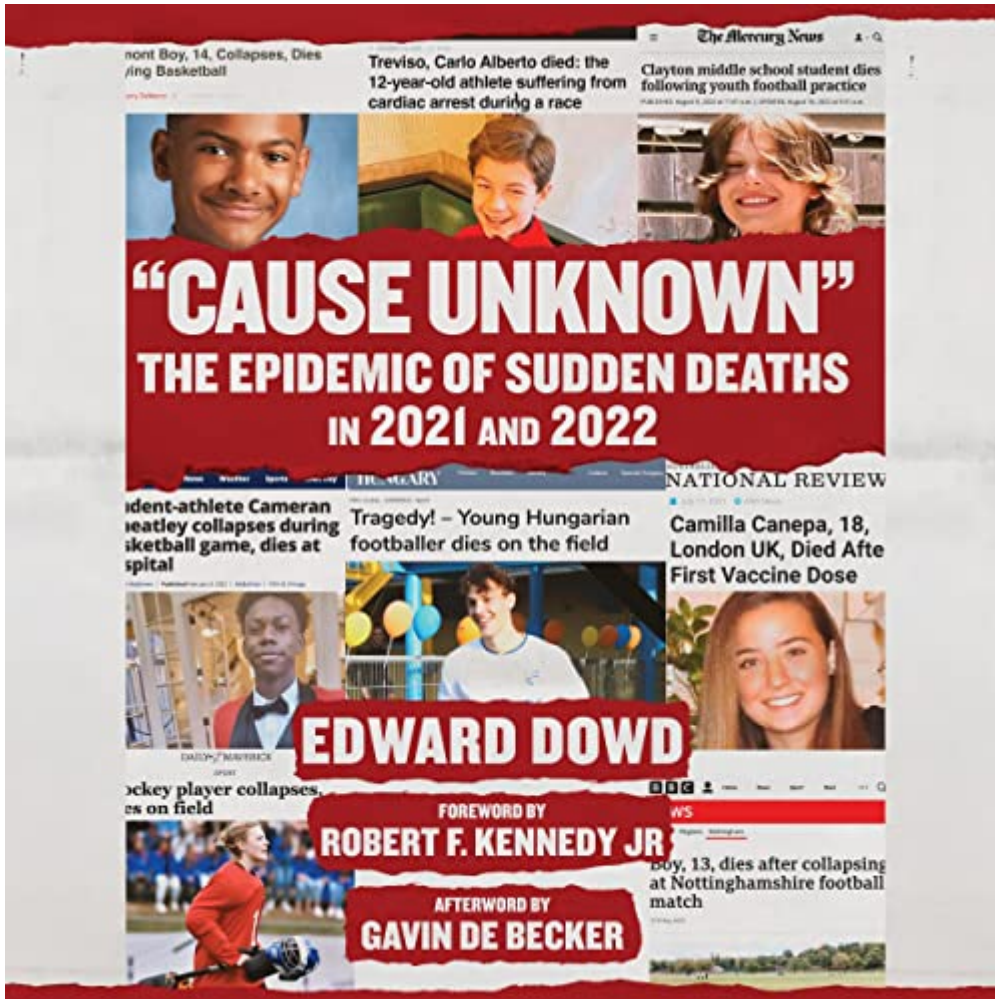

[Ed Dowd: COVID Shots Are Causing Youth Democide](#) explains that when former BlackRock Portfolio Manager Edward Dowd appeared on Stephen Bannon's War Room - Pandemic, he explained that his insurance industry expert dug into the CDC data and found shocking information related to excess mortality. *"The millennial age group 25 to 44 experienced an 84% increase in excess mortality into the fall. It's the worst ever excess mortality, I think, in history,"* Dowd stated.

Dowd noted how chart four depicts an increased acceleration of excess mortality into the Fall, around the time when mandates and boosters took effect. Putting the CDC's data into perspective, Dowd said *"starting in the summer and into the Fall, with the mandates and the boosters, there were 61,000 excess millennial deaths."*

"Basically, millennials experienced a Vietnam War in the second half of 2021." 58,000 U.S. troops died in the Vietnam War according to Dowd ([National Archives](#) stated 58,220 U.S.

military fatal casualties of the Vietnam War). *“This generation just experienced a Vietnam War.”*

Dowd explains how he thinks this data is the smoking gun which shows the COVID-19 injections are causing excess mortality in all age groups. With this shocking data, Dowd labeled this “democide.” The definition of democide, per [Wikipedia](#): *“Democide is the murder of any person or people by their government, including genocide, politicide, and mass murder”.* *“So the government, through the mandates, has killed people,”* he stated.

Amazon Description

What is killing healthy young Americans? 2020 saw a spike in deaths in America, smaller than you might imagine during a pandemic, some of which could be attributed to COVID and to initial treatment strategies that were not effective. But then, in 2021, the stats people expected went off the rails.

The CEO of the OneAmerica insurance company publicly disclosed that during the third and fourth quarters of 2021, death in people of working age (18–64) was 40 percent higher than it was before the pandemic. Significantly, the majority of the deaths were not attributed to COVID. A 40 percent increase in deaths is literally earth-shaking. Even a 10 percent increase in excess deaths would have been a 1-in-200-year event. But this was 40 percent.

And therein lies a story — a story that starts with obvious questions:

- What has caused this historic spike in deaths among younger people?
- What has caused the shift from old people, who are expected to die, to younger people, who are expected to keep living?

It isn't COVID, of course, because we know that COVID is not a significant cause of death in young people. Various stakeholders opine about what could be causing this epidemic of unexpected sudden deaths, but "CAUSE UNKNOWN" doesn't opine or speculate. The facts just are, and the math just is. The book begins with a close look at the actual human reality behind the statistics, and when you see the people who are represented by the dry term Excess Mortality, it's difficult to accept so many unexpected sudden deaths of young athletes, known to be the healthiest among us.

Similarly, when lots of healthy teenagers and young adults die in their sleep without obvious reason, collapse and die on a family outing, or fall down dead while playing sports, that all by itself raises an immediate public health concern. Or at least it used to. Ask yourself if you recall seeing these kinds of things occurring during your own life—in junior high? In high school? In college?

How many times in your life did you hear of a performer dropping dead on stage in mid-performance? Your own life experience and intuition will tell you that what you're about to see is not normal.

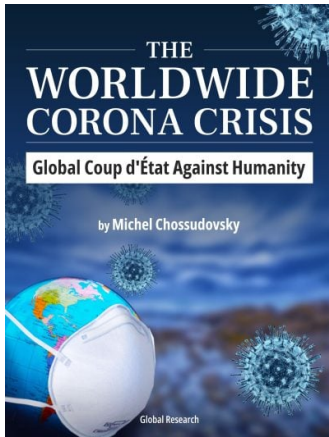

Or at least it wasn't normal before 2021.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
