The Hague, the seat of the ruling class in the Netherlands, has declared a state of emergency to prevent farmers from driving their tractors into the city to protest the government's mandatory fertilizer reduction targets. Farmers say that their rights and freedom are being trampled on by a totalitarian system of rule we all know as "democracy."

Democracy worldwide is, even if run perfectly, nothing more than mob rule and nothing less than slavery. All freedom is an illusion as long as governments exist, people will be deluded into being their slaves.

The organizers of Thursday's protest are the Farmers Defence Force. They said the state of emergency was a way to squash their democratic rights and freedom of assembly. Of course, their government, like all governments, sees them only as slaves meant to obey, so they don't care about rights or freedom. The rulers think they own their slaves. It would be like believing your cow has a right to vote to keep it from being eaten. The notion of government gets more absurd by the day and yet, slaves still hold the system that's oppressing them up.
