Please help stop the NATO bombing in Libya: email campaign

[Human Rights Investigations](#) supports the email campaign to stop the NATO bombing in Libya, to prevent [massacres such as we have already seen in Zlitan](#) and [NATO supported ethnic cleansing in places such as Tawergha](#) and to protect the people of Sabha, Zlitan and the south of Libya from further death and destruction.

On September 19th there will be a review by the UN Security Council of UN Resolution 1973 which has been abused by NATO to provide justification for the bombing. We are asking you to send the suggested email below to the non-belligerent members of that body.

PLEASE PUT A STOP TO NATO WAR IN LIBYA - APPEAL TO NON-BELLIGERENT UNSC MEMBERS

Body text:

"PLEASE PUT A STOP TO THE NATO WAR ON LIBYA!"

WE APPEAL TO NON-BELLIGERENT MEMBERS OF THE U.N. SECURITY COUNCIL

- to put an end to the misuse of U.N. Security Council Resolution 1973 to influence the internal affairs of Libya through warfare, by revoking it, and
- to press for a peaceful resolution of the conflict in Libya, backing the African Union's central role in this context.

We thank those countries that have tried, and are still trying, to work towards peace.

Our appeal is based on the following:

- the military intervention in Libya undertaken by some NATO members has now gone far beyond the provisions of Security Council Resolution 1973, and is based on hyped-up accounts of defenseless citizens being massacred by their government, while the truth is that, in Libya, there is an on-going and intense internal armed conflict;
- we are aware of the economic and geo-strategic interests that lie behind the war in Libya and, in particular, behind NATO support of one of the two armed factions;
- NATO military intervention in Libya has killed (and is continuing to kill) countless civilians, as well as harming and endangering the civilian population, including migrants and refugees, in various other ways;
- the belief, at this stage, that only non-belligerent countries - and particularly those with U.N. Security Council voting rights - can successfully bring a peaceful end to the conflict through negotiations and by implementing the opening paragraph of UNSC Resolution 1973, which calls for an immediate ceasefire.

Respectfully yours,
