

Stop the Disinformation War Machine: Support Independent Media

By [Global Research](#) and [Global Research](#)

Global Research, September 09, 2014

Our website at www.globalresearch.ca was established 13 years ago on the 9th of September 2001, two days before the tragic events of September 11. Barely a few days later, Global Research had become a major news source on the New World Order and Washington's "[War on Terrorism](#)". Since September 2001, we have established an extensive archive of news articles, in-depth reports and analysis on issues which are barely covered by the mainstream media.

In 2012, with the help of our readers' donations and memberships we launched a newly updated version of the Global Research website to allow faster, easier access to all the information about what is going in the world around us.

For example, during the war on Iraq, Global Research published, on a daily basis, [independent reports from the Middle East](#), which provided an alternative to the news emanating from the "embedded" journalists reporting from the war theatre. Several Global Research authors have received awards for their writings. More recently, Global Research brought on-the-ground coverage during [NATO attacks on Libya](#), and our journalists showed tremendous courage and commitment to exposing the truth that mainstream media was attempting to hide.

What is ahead for the world? [War with Russia](#)? Is Syria the [next target of the imperial war machine](#)? Rest assured, Global Research will continue to deliver the same truthful, incisive analysis and research that so many have come to count on.

Numerous universities, libraries and research institutions have established a link to www.globalresearch.ca on their respective web sites. Global Research has also become a source of specialized information for journalists.

We have been able to develop our activities thanks to contributions from our readers. To maintain our independence, we do not seek donor support from private or public foundations.

Our commitment is to make Global Research articles available to the broadest possible readership, on a non-commercial basis, without the need for a login for paid subscribers.

With a view to achieving the above objectives, while improving the form and content of our website, we have a [membership program](#) for regular Global Research readers, which includes FREE book offers.

Please help us in these endeavours, with a [monthly or annual contribution](#).

Becoming a member essentially constitutes an endorsement of the Global Research website.
