*Today, the dangers of military escalation are beyond description.*

*What is now happening in Ukraine has serious geopolitical implications. **It could lead us into a World War III scenario.***

*It is important that a peace process be initiated with a view to preventing escalation.*

*Global Research condemns Russia’s invasion of Ukraine.*

*A Bilateral Peace Agreement is required.*

---

*This war must be immediately terminated before it expands and sucks in the European NATO States and the United States. Towards that end, President Biden must publicly announce that NATO Expansion is over for good and that Ukraine, Georgia and Moldova will not be joining NATO as member States.*

President Biden must also call for an international peace conference for the conclusion of a treaty that will establish the permanent neutrality of Ukraine which will be guaranteed by the United Nations Security Council under Chapter 7 of the U.N. Charter. Then negotiations can take place between the United States and Russia over the de-nuclearization of Europe including the removal of U.S. tactical nuclear weapons from NATO States that are there in violation of the Nuclear Non-Proliferation Treaty and a restoration of the Intermediate Nuclear Forces Treaty that was so foolishly and recklessly terminated by the Trump administration.

Then a new round of the Conventional Forces in Europe Treaty Negotiations should be conducted in order to substantially lessen the tensions on land, sea and air between Russia and the U.S./NATO States including over the emplacement of alleged U.S. ABM sites in Europe that threaten Russia.

Make no mistake about it: The Origins of both the First World War and the Second World War hover like twin Swords of Damocles over the heads of all humanity!

## Reviews

"This book is a 'must' resource – a richly documented and systematic diagnosis of the supremely pathological geo-strategic planning of US wars since '9-11' against non-nuclear countries to seize their oil fields and resources under cover of 'freedom and democracy'."

**-John McMurtry**, Professor of Philosophy, Guelph University

“In a world where engineered, pre-emptive, or more fashionably “humanitarian” wars of aggression have become the norm, this challenging book may be our final wake-up call.”

**-Denis Halliday**, *Former Assistant Secretary General of the United Nations*

Michel Chossudovsky exposes the insanity of our privatized war machine. Iran is being targeted with nuclear weapons as part of a war agenda built on distortions and lies for the purpose of private profit. The real aims are oil, financial hegemony and global control. The price could be nuclear holocaust. When weapons become the hottest export of the world’s only superpower, and diplomats work as salesmen for the defense industry, the whole world is recklessly endangered. If we must have a military, it belongs entirely in the public sector. No one should profit from mass death and destruction.
