Mississauga, ON - 37 year old bakery owner Steve Viola died of a stroke on Apr. 6, 2023 ([click here](#))

2 days ago • [Funerals & Memorials](#)

With deep sadness and heavy hearts, we announce the sudden and unexpected passing of Steve Viola on Thursday, April 6th, 2023.

On Tuesday, April 4th, Steve suffered a serious stroke and was rushed to the Mississauga Trillium Hospital. He had surgery to remove a blood clot in his basal artery. The surgery was successful however too much time had passed depriving his brain of oxygen and Steve sadly passed away.

In the spirit of kindness and generosity, we're raising money to support the future education of Steve's daughter Frankie.

Steve is the oldest of 3 brothers who originated La Casa Dolce bakery in Mississauga with his two other brothers David & Andrew. Steve was

Loveland, CO - 31 year old electrician and plumber Dalton Broes died from a stroke on Mar. 27, 2023

BNS Berthoud Weekly Surveyor · Follow
5d · 🌐

OBITUARY
Dalton R. Broes
Feb. 1, 1992 – March 27, 2023

Dalton passed away in Sarasota, Fla. **at the age of 31, caused by a stroke.** He was born in Bend, Ore.

After Dalton graduated from Berthoud High School in 2010, he worked in the electrical and plumbing trades and spent a great deal of time working at Shambala-Drala Mountain Center in Red Feather Lakes and with his father at Broes Electrical Services.

Dalton had a great love of the outdoors and spent most of his free time hiking, mountain biking, golfing, boating, reading, listening to music and going to concerts as well as traveling with Rhiannon.

He is survived by his long-time girlfriend: Rhiannon Stockley; mother: Deanna (DeeDee Brannen) Broes; father: Darren Broes; brother: Dakota Broes and his girlfriend Mia Ervin; grandmother: Sally Broes; grandmother/grandfather: Emilie and Don Ortega, numerous aunts, uncles and cousins.

Dalton was predeceased by his grandmother/grandfather: Merial Ann (Benjamin-Overpeck) and Earl Brannen; grandfather: Robert (Bob) Broes.

A memorial service will be held at Ellis Ranch, 2331 Ellis Ranch Lane, Loveland, CO 80538 on May 7 from 1 – 5 p.m. Friends and family are invited to attend. Please RSVP to daltonbroesmemorial@gmail.com.

Pulaski, WI - 46 year old nurse Jennifer Jaeger died unexpectedly from a stroke on Mar. 9, 2023

Marnocha Funeral Home · Follow

March 11 · 🌐

Jennifer "Jen" Jaeger, 46, Pulaski, [passed away unexpectedly after suffering a stroke](#) on Thursday, March 9, 2023, at St. Vincent Hospital in Green Bay.

The daughter of Tom and Mary (Balmes) Zorza was born November 28, 1976, in Marquette, Michigan. Jen was a 1994 graduate of Marquette High School and attended Northern Michigan University. She moved to Pulaski in 1998 and earned her Nursing degree from NWTC in Green Bay. On December 28, 2012, Jen married Eric Jaeger on the 4th anniversary of their first date. In her younger years, Jen worked at Frosty Treats in Marquette and at Younkers while in high school. She found her passion working as a nurse at St. Vincent Hospital. Her most important job was being a mother and taking care of her six girls. Her wisdom, humor, and kindness will live on within all of her children. Jen enjoyed doing 

Birmingham, AL - 25 year old Hairstylist David Hill had multiple strokes starting Mar.3, 2023 and died Mar. 24, 2023 ([click here](#))

David Hill

March 25 at 6:36 PM · 🌐

A message from David's family:

Firstly, we want to thank you all for the love and support. We truly cannot express how thankful we are. We love seeing all the people David has touched and how many people love and care about him.

We went into the hospital with him **March 3rd, 2023 after he suffered a stroke**. He was so strong and was so determined to come home, he was progressing everyday. Almost a week ago today he suffered a second stroke from brain swelling which landed him in the ICU, but he was still David. On Thursday, March 23rd he suffered a seizure followed by a stroke which made him unresponsive. He passed peacefully this afternoon surrounded by his family. He always said he wanted to donate his organs, so even though we lost him, he will be blessing and saving other people's lives. He will continue to shine through those people. We will miss him everyday, but he's our angel above.

Odessa, NY - 16 year old Odessa-Montour High School soccer player Keyonna Garrison suffered a stroke on Jan. 6, 2023 ([click here](#))

Saint Paul, MN - 16 year old hockey player Cormick Scanlan died after suffering multiple strokes on Dec. 25, 2022 ([click here](#))

Green River, WY - 13 year old Joseph Allred of Lincoln Middle School in Green River, had a major stroke in Nov. 2022 ([click here](#))

Joe recalled how he had to ask a teacher for help opening his locker because he **physically couldn't get this hand turn the lock**. But Joe shrugged it off and went about his day. **Then he started having problems walking during recess** later that day. Joe said he would try to walk, but **his leg wouldn't move**. ([click here](#))

Philadelphia, PA - 18 year old lacrosse player Sophie Borrelli suffered a stroke on July 15, 2022 ([click here](#))

Sophie was on vacation when she began to feel ill. ([click here](#))

Boston, MA - 17 year old High School Student D'Andre Hicks suffered a stroke in May 2022 ([click here](#))

Cambridge, ON - American Model Hailey Bieber suffered a stroke on March 10, 2022 ([click here](#))

Strokes in young people are skyrocketing...

Even mainstream media are now admitting the painfully obvious elephant in the room:

“Risk of stroke is growing among women under 50 and women of color” ([click here](#))

“Sharp rise in stroke cases among the young” ([click here](#))

“Why are Millennials having so many strokes?” ([click here](#))

“National Stroke Awareness Day: Why more young people are having strokes”
([click here](#))

“Doctors see rise in strokes for younger adults” ([click here](#))

The stream of propaganda trying to explain it all away is nauseating.

WHO VigiAccess database lists the following Adverse Events for COVID-19 vaccines: ([click here](#))

- Seizures: 21,275 (for comparison)
- Cerebrovascular accident: 17,561
- Transient ischemic attack: 5,903
- Ischaemic stroke: 5,145
- Cerebral infarction: 4,693
- Cerebral haemorrhage: 3,797
- Cerebral venous sinus thrombosis: 2,516

These are not small numbers. That’s almost 40,000 reports.

My Take...

I’ve looked over the literature. Once again, I am amazed at the concerted effort to bury all safety signals regarding strokes and COVID-19 mRNA vaccines.

Some papers say: yes, there are strokes post COVID-19 vaccination but they’re rare, and the

“benefits” of vaccination outweigh the risks of stroke. Of course, we now know that these “benefits” were nothing more than a well-crafted fraud.

Interestingly, a Canadian/US study accepted for publication in Nov.2021 found safety signals for stroke with both Pfizer and Moderna COVID-19 mRNA vaccines, that were completely ignored:

Table 1 Reported odds ratios and 95% confidence intervals of neurological adverse events with the Influenza, AstraZeneca, Moderna, and Pfizer-BioNTech vaccines

Adverse event	Influenza	AstraZeneca	Moderna	Pfizer-BioNTech
Cerebral venous sinus thrombosis	^a 1/263,796 ^b (0.06, 0.01–0.46)	351/393,877 (15.43, 13.73–17.34)	23/149,016 (2.67, 1.77–4.03)	91/357,991 (4.40, 3.56–5.44)
Guillain–Barre syndrome	3618/263,796 (53.96, 51.80–56.21)	428/393,877 (2.74, 2.49–3.02)	103/149,016 (1.74, 1.43–2.12)	217/357,991 (1.53, 1.34–1.75)
Hemorrhagic stroke	10/263,796 (0.14, 0.07–0.25)	58/393,877 (0.53, 0.41–0.69)	30/149,016 (0.72, 0.50–1.04)	82/357,991 (0.82, 0.66–1.02)
Ischemic stroke	27/263,796 (0.24, 0.16–0.35)	358/393,877 (2.13, 1.92–2.37)	99/149,016 (1.56, 1.28–1.90)	417/357,991 (2.73, 2.48–3.01)
Transient ischemic attack	80/263,796 (0.30, 0.24–0.37)	552/393,877 (1.38, 1.27–1.50)	150/149,016 (0.99, 0.84–1.16)	452/357,991 (1.24, 1.13–1.36)

Bold values indicate significant signals

^aReported number of the ocular events for that vaccine/number of total reported events for that vaccine

^bOdds ratio, 95% confidence interval

According to the authors ([click here](#)): **“We also found signals for cerebral venous sinus thrombosis (CVST) with the two mRNA vaccines, Pfizer-BioNTech and Moderna.**

The signal for ischemic stroke was also increased for all COVID-19 vaccines but not with the influenza vaccine, with the highest risk being with the Pfizer-BioNTech vaccine.”

Of course, these safety signals were ignored by our Public Health Officials and politicians. There was simply too much money to be made.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
