The year 2013 witnessed over 20,000 severe violations against the occupied State of Palestine and its people, who have suffered a number of violent attacks and incursions at the hands of Israel, the occupying power. These violations include attacks by both Israeli authorities and settlers, along with home demolitions, arbitrary arrests and the ongoing construction of illegal settlements.

Since the resumption of negotiations at the end of July 2013, Israel has announced almost 6200 new settlement units, throughout the occupied State of Palestine.

Please find below a Media Brief prepared by the NSU summarizing Israel's violations of International Law during 2013, with a particular focus on violations committed since the beginning of negotiations, a process which is supposed to lead to a just and lasting peace.
