Oct. 27, 2023 – 41 year old Louisiana Music star Damon Troy suffered a stroke on the night of Oct. 27, 2023 right after a live concert performance. “still suffering from weakness on entire right side of his body.”

The Louisiana music community was taken aback by the **news of local Cajun music sensation Damon Troy**, real name **Damon Dugas**, suffering a stroke on the night of October 27th, 2023, right after a live concert performance.

An update from the official Damon Troy Facebook account written by Angel Chauvin stated, "Damon had a stroke Friday night after a show. He is still suffering from numbness, tingling, and weakness on the entire right side of his body, but he is recovering well." The post further mentioned that although he is experiencing some challenges with word retrieval, the speech therapist is optimistic about his full recovery. While fans hope for his discharge from the hospital soon, the road to complete recovery will require weeks to months of dedicated physical and speech therapy.

MISSOULA — Former Montana basketball star Anthony Johnson passed away Wednesday in Tacoma, Washington. He was 37.

Johnson had been in critical condition since suffering a massive stroke during his daughter's birthday party on Oct. 21. Johnson and his wife, former Lady Griz basketball player Shaunte (Nance) Johnson, have three children together and another on the way.

Shaunte Johnson wrote on Facebook Thursday, "We celebrated our last anniversary and his last breaths cuddled in his bed, blasting our favorite love songs. I am one of the luckiest women to have experience (sic) love at this level, for soooo long! Thank you all for your prayers! I know that our God is still good but I still feel so lost without my best friend, lover and teammate of 18 years!"

Johnson played for the Grizzlies during the 2008-09 and 2009-10 seasons, leading the team in points and assists per game and earning first-team all-Big Sky Conference recognition both seasons. He was the Big Sky Conference newcomer of the year in 2008-09 when he averaged 17.6 points per game. In 2009-10, he upped his average to 19.2 points per game and was named an All-American by CollegeInsider.com.

In 2010, Johnson was the Big Sky tournament MVP and UM's top male athlete.

Johnson's 42-point game against Weber State in the 2010 Big Sky championship is the stuff of legend. With the Grizzlies trailing the Wildcats 40-20, Johnson scored 34 second-half points — including Montana's final 21 points — to help the Griz rally for a 66-65 win and

Ok to all my Facebook friends and family, prayer works, prayer is powerful and I truly believe God is in control! Right now lift prayers up for Tammy Lancaster as she is in Grady hospital fighting for her life. She had a blood clot that caused a stroke, brain bleed and swelling. Surgery late last night to remove a piece of skull to release some space but as of now she is still having swelling. The physicians are not giving positive reports and have told the family to prepare for the worse. God knows what is best for Tammy. Please lift her husband Marshall and her sisters and family up to him for peace and comfort. Thank you

Five months after suffering a stroke, premiership-winning prop Zane Tetevano is hoping his return to rugby league will open the door for him to have one last crack in the NRL.

The former Newcastle, Penrith and Sydney Roosters forward will feature for the Cook Islands in Sunday's Pacific Bowl clash with Papua New Guinea in

The prospect of Tetevano stepping foot on a field again was no sure bet when he was taken from a training session to hospital earlier this year.

The 32-year-old, who last played a game with Super League club Leeds in May, was fortunate quick-thinking club staff immediately recognised the symptoms.

"I was trying to communicate in the warm-up and I started slurring my words," Tetevano told AAP.

"My strength and conditioning coach Rich Hunwicks asked 'have you been on the piss?'

"Then I started kicking my feet and (assistant coach) Chev Walker realised I was having a stroke

Last week [Kimberly Geddie](#), my college "roommate" and long-time friend, suddenly passed away. This unexpected medical episode was a true gut-punch to all of us who loved Kim. Our little crew from Stout Hall at Oklahoma State have stayed together, loved each other, and cheered each other on in all of life's successes and tragedies. None of us expected this particular tragedy and I think we're all still coming to terms with the understanding that Kim isn't here any longer to give us advice (solicited or unsolicited), to share some ridiculous dark humor with, or to reminisce on how far we've all come since those days as 19-21 year olds, just trying to figure out life. Kim was a master of "chosen family" and was considered an actual sister/daughter in more than one blood family. What a gift she was to all of us.

A fund has been set up to honor Kim, and all proceeds that exceed the designated amount will be contributed to charities she was passionate about. If we were all a little more like Kim, the world would be a better (more sarcastic) place. I love you, sweet friend.

Hi everyone.

Tuesday afternoon, i brought myself to the emergency room because i was experiencing double & blurred vision. Upon many tests, the doctors discovered that i have Cerebral Venous Sinus Thrombosis. CVST is a rare form of a stroke that causes blood clots in my brain. I was admitted to the hospital Tuesday evening, and will be here until further notice. They have no idea what caused this, but are running many blood test to try & find the cause.

I need all the prayers & well wishes i can get. It is hard for me to do much of anything, so it may take me awhile to respond if you reach out.

I appreciate you all 🙏

A grief-stricken family has opened up about their heartache over the sudden death of a 'beautiful' mum-of-three. Zoe Wilson had been feeling 'perfectly fine' until the early hours of Monday last week.

The 42-year-old, from Fenton in Staffordshire, got up during the night on September 18 but on her return to bed she rolled out and was unresponsive. She was taken to the Royal Stoke University Hospital where medics established she had suffered a stroke.

In the days that followed, Zoe had an operation to remove a blood clot, then another to tackle a bleed on the brain. But she suffered another severe stroke on Friday and her life support was turned off three days later on Monday (September 25), [StokeonTrentLive reports](#).

Hi everyone. I'm so sorry to say this, but I have some news- early Friday morning, mom suffered a massive stroke. We had no warning signs, no idea that something was wrong. She'd been nothing but vibrant and healthy and active. She has been through surgery and the ICU, but the damage to her brain is just too extensive. All we can do now is hold her close until she passes.

She was the most brilliant, kind-hearted, compassionate, funny and creative person I've ever known. To know my mother was to love her. She brought her own brand of sunshine everywhere she went, and always went the extra mile to make sure everyone felt included. She was a mother hen to many, and she leaves behind the legacy and memory of her purely golden heart.

We are all beyond heartbroken and there are no words strong enough to accurately describe the shock, hurt, devastation felt by everyone who loved her. Please keep her in your thoughts and prayers, and give your loved ones as much love as you can right now. You just never know how suddenly they will be taken from you forever. ❤️ **Cambridge, Ontario**

Sep. 13, 2023 - Willowick, OH - 27 year old Police Officer Maddie Orton suffered a stroke 2 days before she was to get married. It was during a shopping trip on Sep. 13, 2023 "they are still not quite sure what caused the stroke."

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a*

*relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.*  
—Peter Koenig

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy.* –David Skripac

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place.* –Edward Curtin
