COLUMBIA, S.C. (WIS) - Fort Jackson says there is no apparent signs of foul play in the death of 34-year-old Staff Sergeant Allen Burtram. The US Army's Criminal Investigation Division has taken over the case after Burtram was found dead on post last Friday.

"People need to remember that he was an amazing man, an awesome nephew, (and) the greatest son a mother and father could have," Staff Sgt. Burtram's Aunt Peggy Davis said.

After graduating high school in 2009, Burtram spent 12 years in the Army, with the last 18 months as a drill sergeant on Fort Jackson. In his career, he was deployed to Kuwait for eight months and served in Korea for 12 months.

"(He was) the best husband that he could be, and the best father to his children that any child could ever want." Davis said.

Davis says Burtram was recently promoted to drill sergeant at Fort Jackson roughly six months ago. She recalls when he lived with her for a short time and says he touched the lives of many.

"He loved being around people, loved to make people smile; the highlight of the party is what you could say he was," Davis said, "He brightened people's lives all the time; he put a smile on your face even when you didn't want him to."

Nov. 16, 2023 - Montrose, MI - 36 year old US Army Veteran and Medic Melissa Portillo died suddenly. She was an Iraq War Veteran.

# Melissa Portillo

ADDISON, Melissa I. (Portillo) – of Saginaw, formerly of Montrose, age 36, died unexpectedly on Thursday, November 16, 2023. Funeral services will be held at 2PM Monday, November 27, 2023, at the O’Guinn Family Funeral Home in Montrose. The family will receive visitors at the funeral home on Monday from 11AM until the time of service at 2PM. Private burial will be held in Montrose Township Cemetery. Memorial contributions may be made to the family for future designation.

Melissa was born October 12, 1987, in Flint, Michigan, to Conception Portillo and Norma Leach. She graduated from Hill-McCloy High School in Montrose with the class of 2005. Answering a call to serve her country, Melissa joined the U.S. Army, serving as a dedicated medic for four years with a tour in Iraq before continuing her service in the U.S. Army Reserves for another four. She selflessly provided care and compassion to those in need, embodying the true essence of heroism. Melissa found solace spending time outdoors and taking walks through nature. She was passionate, strong willed, and loving. Above all, Melissa cherished time spent with her children and gave them all the love and strength her heart possessed. She is loved beyond measure and missed beyond words.

FORT LEAVENWORTH, Kan. (WIBW) - A soldier in the U.S. Army has been pronounced deceased after he was found passed out on the side of a Fort Leavenworth running trail.

Officials with the U.S. Army announced that on Monday, Nov. 13, Lt. Col. Bryan Herzog was found unresponsive on a running path near Sherman Army Airfield. Emergency services were called and Herzog was taken to St. John's Hospital where medical professionals pronounced him deceased.

“Those who come to train here become part of our family,” said Lt. Gen. Milford H. Beagle, Jr., Commander of Fort Leavenworth. “They are among the Army’s best and brightest, and Lt. Col Herzog’s passing is a great loss to the Army as a whole. As a community, we grieve his passing and will keep his loved ones in our prayers.”

According to authorities, Lt. Col. Herzog was discovered on a running path near Sherman Army Airfield.

Lt. Col. Herzog, a member of the Joint Staff, was attending the Battalion Tactical Commander’s Development Course as part of the Army University’s School for Command Preparation.

Rest in peace, Dr. Jayson Tappan. Time stood still for a moment this morning when I heard of your tragic, sudden passing. He was a fixture at Spotsylvania Regional Medical Center. Working there for 11 years as an RN, my colleagues and I would joke that when Tappan was on duty in the ER the admissions would roll in. He served as director of the ER for as long as I can remember. Now, as a cardiology nurse practitioner who would get calls from him with consults, I realize he was overly cautious and would admit patients because he cared and wanted the best for them. Today is the day my hubs & daughter get the COVID-19 vaccine !! People keep asking about my thoughts/opinions and I'm all for it!! Vaccines have ended/slowed global pandemics in the past. I'm proud of Peyton for getting the vaccine voluntarily given the press surrounding it. I do understand everyone's opinions about getting it. For our business and clientele (and the hospital patients) it's the right decision. I also feel fortunate they are among the first to receive it in the area. It's our responsibility to protect our family and clients. Heres to praying for a MIRACLE and leading by example!

There will be a lot of posts soon with people sharing how much they achieved in 2020, in the midst of a global pandemic, etc. But in case someone needs to hear this, I'm here to tell you that just making it to Dec 2020 is an achievement. That alone will be something to celebrate.

In Loving Memory of Dr. Jayson Tappan June 7, 1970 – November 9, 2023. It is with heavy hearts that we announce the passing of Dr. Jayson Tappan, a devoted husband, loving father, Navy Veteran, entrepreneur, and esteemed member of our community. An Ohio native, Dr. Tappan held his roots close to his heart, always fondly recalling his upbringing and high school days in Mansfield, Ohio. His Ohio upbringing instilled a love for community and work ethic that he carried throughout his life, making him the exceptional person he was. (Dr. Tappan)

his twenty-year tenure he served in many roles at numerous duty stations including combat support tours in both the Iraq and Afghan Wars. Upon retirement from the Navy at the rank of Commander he assumed leadership roles as the Chief of Medical Staff, and Medical Director Emergency Department at Spotsylvania Regional Medical Center. In his leadership roles he worked tirelessly to ensure the well-being of those in need, and he never stopped learning so he could continue providing the best standard of care to his patients. This dedication extended to his position as the Medical Director of Fire and Rescue in the city of Fredericksburg, where he selflessly committed his time to training and guiding others to save lives.

On November 4th, 2023, the MacEwen family suddenly and tragically lost their beloved 14-year-old son, Knox. He was a revered member of his local community - a JROTC student, a volunteer with the kids ministry at his home church; and he was a beloved brother, son, grandson, nephew and friend. The purpose of this fundraiser to help with funeral expenses, and to allow Knox's parents, Kevin and Julie, to take some time off of work to grieve.

This family has been through the unimaginable, as this has happened as Knox's mom, Julie, is still physically and financially recovering from a hard fought battle with cancer this last year. Any gifts will go directly to the MacEwen family, and are deeply appreciated.

A Queensland father and primary school teacher is being remembered for his 'vibrant spirit' after he died suddenly and unexpectedly on Monday.

Mario Collavino, 60, was described as one of the 'most beloved teachers' at St Rita's Catholic Primary School in Victoria Point, between Brisbane and the Gold Coast.

Mr Collavino, a former police officer who once served in the Australian Army, leaves behind his wife of 15 years, Shanine, and his four children, Danielle, Antonio, Luca and Arianna.

He previously worked as a sports teacher at Rivermount College.

Family friend James Greig created a GoFundMe to help cover Mr Collavino's funeral.

'On October 30, we unexpectedly lost a beloved father, husband, teacher and friend,' Mr Greig wrote.

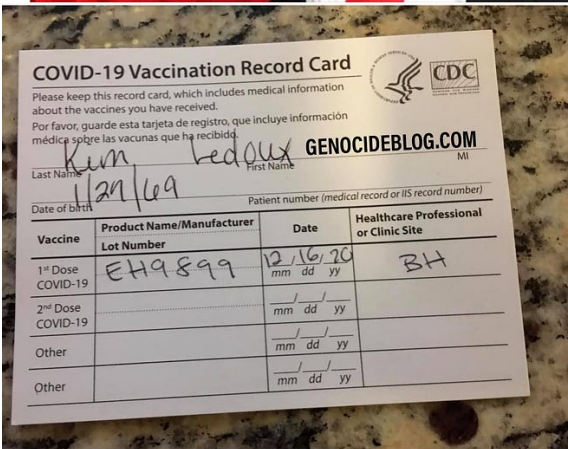

'Mario's vibrant spirit and love for his family and all the children he taught were evident to everyone who had the pleasure of knowing him.'

'He leaves behind his loving wife, Shanine, and his four beautiful children, Danielle, Antonio, Luca and Arianna.'

4/8/1961 - 10/25/2023

Richard Ledoux of Brockton, MA, passed away unexpectedly on Wednesday, October 25th, 2023.

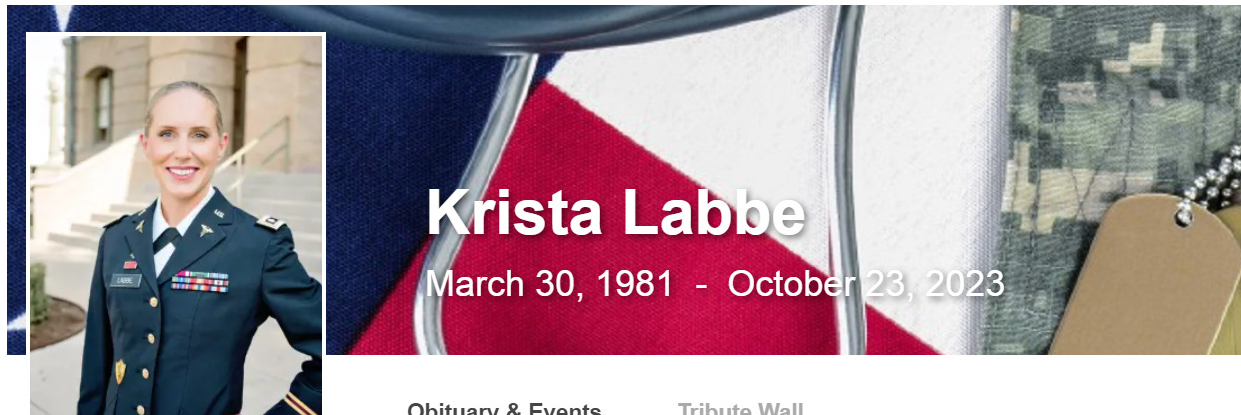

Rich was born in Framingham, MA and grew up in Northborough, MA. Shortly after graduating from Algonquin Regional High School in 1979, he enlisted in the US Navy, where he proudly served for 8 years, working as an electronic warfare technician.

During his time in the Navy, he met the love of his life. They married in 1987 and decided to start a family soon after.

Rich became an electrical engineer at Russelectric-Siemens, where he built an impressive career, working there for over 36 years. He was a respected mentor to his co-workers, and built many life-long friendships during his time there.

Oct. 23, 2023 - US ARMY NURSE DEAD - Liberty Hill, TX - 42 year old Krista Labbe, Lieutenant Colonel US Army Nurse Corps died suddenly on Oct. 23, 2023.

Krista L. (Pazdernik) Labbe, 42, of Liberty Hill, Texas, [passed away unexpectedly on 23 October 2023](#).

Krista was born in Alexandria, MN, in 1981 to Tonya and Irvan Pazdernik. She has two brothers, Michael and Jamie. As a child, some might have called her a tomboy because of the way she kept up with her brothers. When not with her brothers, she could be found at the local dance studio or playing soccer.

She was hyperproductive, willing to work three jobs to pay for her exceptional wardrobe. She was brilliant, earning an ROTC scholarship. And she was wildly athletic, earning a second scholarship after walking on her university's soccer team.

Krista married Jamahl E. Labbe on December 28, 2010, in Ashville, North Carolina. Despite challenging Army assignments, they built a loving and supportive family.

After earning a nursing degree from Viterbo University, Krista joined the US Army Nurse Corps. Serving for twenty years, including a deployment to Afghanistan, she earned the rank of Lieutenant Colonel. Early in her career, she was assigned to Labor and Delivery and fell in love with the field. She pursued her passion and attended the University of Utah's Midwifery Doctorate of Nursing Specialty Program. Upon graduation, she served as a Women's Health Nurse Practitioner, aka a Midwife.

Krista's three children, Paul, Harper, and Adison, meant the world to her. She loved nothing more than spending time together and creating memories.

Krista had a life-long and ever-deepening relationship with God.

Oct. 10, 2023 - CANADIAN ARMY MAJOR DEAD - Ottawa, ON - 37 year old Nicholas Fysh hated "Freedom Convoy", loved COVID-19 Vaccines, mandates & passports "so important for encouraging holdouts to get vaccinated" Died Oct. 10, 2023 from "unexplained medical event."

<  **Nicholas Fysh**  
Jan 29, 2022 · 🌐

Now that the "Freedom Convoy" has descended on Ottawa demanding an end to vaccine passports and mandates in the name of \*checks notes\* Freedom, it is worth pointing out how effective vaccines have been and why vaccine passports/mandates are so important for encouraging holdouts to get vaccinated.

GENOCIDEBLOG.COM

Vaccines are drastically reducing the number of people who are getting severely ill, which in turn is reducing the number of people admitted to hospital and to ICU. With how easily omicron spreads compared to previous variants, the number of people getting infected is significantly higher. A small percentage of a very large number is still a large number, so even though most people are less likely to get sick from omicron, more people are in fact getting sick. Because the vaccine offers protection against illness the unvaccinated are disproportionately getting sick and being hospitalized.

In Alberta, 78% of the COVID-19 ICU patients are unvaccinated and an unvaccinated person is 41 times more likely to be admitted to ICU. Given that the unvaccinated make up ~10% of the population, you can reasonably assume that if everyone in Alberta were vaccinated this would reduce ICU submissions by between 2/3 and 3/4 which is significant. Further, most of the vaccinated who find themselves in ICU have pre-existing conditions that are aggravating factors while the unvaxxed generally do not.

At the age of 12 , Nick joined the 51 Air Cadet Squadron based in the Canada Air and Space Museum. At 17, he joined the Governor Generals Foot Guard. He stayed with the GGFG through his university education. At 20, he was commissioned as an officer in the GGFG and was eventually promoted to Lieutenant. Upon completion of his degree in International Relations, he transferred to the Regular Force as a Lieutenant in the 3rd Battalion of the Royal Canadian Regiment in Petawawa. Upon promotion to Captain, he was posted to Halifax during which he did a six month tour in Afghanistan. He then returned to the regiment in Petawawa. Upon promotion to Major he was posted to Ottawa and worked as a staff officer at CANOFCOM HQ. In 2020, Nick made the decision to leave the Regular Force to become a public servant in the Department of National Defence. At the same time, he transferred back to the GGFG as a reservist. He quickly became a popular and dedicated company commander. He was an avid amateur military historian and collector of military history books. On Remembrance Day, Nick made it a practice to go to the local Legion branch and visit with veterans.

I have started and restarted this post several times now, trying to think of the right words for this. First and foremost, this is Scott's son, [Corey Straub](#).

On Wednesday, August 23rd, my father had a stroke, and was rushed to the hospital by his girlfriend. CT scans showed he had two masses in his brain, and the next day further scans and general symptoms signaled that my father had a condition known as [glioblastoma](#), an incredibly aggressive form of cancer that is only ever discovered in stage four and can develop in months. It is an incredibly lethal cancer, with life expectancy topping out between six months to a year.

On Monday, August 28th, a neurosurgeon attempted to remove as much of the tumors as they can, but discovered one tumor was too deep in his brain to be touched without affecting my father's motor, cognitive, and speech functions.

He was admitted into hospice on August 31st. Due to the size of the tumor, its location, and its aggressiveness, the prognosis is dire; he has been given two weeks to a month to live.

My father is comfortable, but struggling to speak and move; he is not in any pain thanks to the staff at his hospice house. He is surrounded by his friends and family, and showered with love and care.

I am terribly, terribly sorry to have to share this news. Please keep him in your hearts. Thank you.

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global*

*coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
