NATO terrorists have murdered about 10,000[1] civilians in Damascus, in addition to the 40 + civilians that they murdered in SE Damascus on March 20, 2018. Meanwhile, the SAA and allies have lost about 545 soldiers in the last ten weeks trying to liberate East Ghouta, the area from which the terrorists fire missiles at students, men, women, children. And Canadians think Assad is the bad guy.[2]

None of the allegations against Assad and the Syrian government withstand the scrutiny of independent investigations. None.[3]

NATO imperialists create atrocity stories to demonize target leaders and to target prey countries with a view to fabricating consent to commit the Supreme International Crime of war of aggression. They have been fabricating consent and committing war crimes for the past seven years in Syria. We are accomplices in these crimes when we do not denounce our criminal governments.

Syrians have names and faces. Terrorists supported by Saudi Arabia, NATO, and most of Western media, murdered the people pictured below.

Missile from Saudi-NATO backed terrorists in East Ghouta kills 35+ civilians (the number is rising) in Dwelaa/Jaramana, Damascus.

The Syrian soldiers and their allies, who are fighting international terrorism on behalf of all of us, also have names. These are the names of those who were martyred in the fight to Liberate [#EastGhouta](#) from the outset of the campaign in January:

Taliano talks and listens to the people of Syria. He reveals the courage and resilience of a Nation and its people in their day to day lives, after more than six years of US-NATO sponsored terrorism and three years of US "peacemaking" airstrikes.

Mark Taliano combines years of research with on-the-ground observations to present an informed and well-documented analysis that refutes the mainstream media narratives on Syria.
