A Jefferson County high school basketball standout died Thursday afternoon.

Pinson Valley High School senior Caleb White suffered a medical emergency at school. Life-saving efforts were started at the school, and White was transported to the hospital where he was pronounced dead.

The incident happened in the late morning.

Principal Michael Turner announced the student's death in a note sent to parents which was later shared with the media.

Turner said counseling would be available to students and staff in the coming days.

White's grandfather, George Varnadoe Jr., posted on Facebook that his 17-year-old grandson collapsed while working out with the team.

A Texas teen has died unexpectedly after being found unresponsive at cheer camp, and her parents are hoping the tragedy inspires other parents to pursue heart health checks for their children.

Callie Marie Mitchell, who hailed from Katy, was at Texas A&M University when she was discovered unresponsive by a coach last month, according to local media outlet [KHOU](#).

The coach performed CPR on Callie, 16, and she was airlifted to Texas Children's Hospital in Houston, but she died a week later on Aug. 1, the outlet reported.

Callie's mother, Michelle Donahue, told KHOU that her daughter had left for cheer camp on Jul. 24 and was "super excited" about going. But once there, a coach called Michelle and Callie's father, Scott Donahue, and asked them a question about their daughter before she was discovered unresponsive.

"She said, 'Hey, does Callie have a problem waking up in the morning?' And I said, 'No never,'" Michelle — who is an assistant principal at Morton Ranch High School, where Callie would have started as a junior this year — recalled to the outlet.

Following the phone call, the parents drove to the university's location at College Station, where they learned that the same coach had performed CPR on their daughter.

"If it wasn't for [Coach] Eberly, we would have never had the chance to say goodbye," Michelle said of her daughter, adding that Callie, who started cheering when she was 2, "was like sunshine."

Scott told KHOU that Callie's suspected cause of death is likely "a cardiac arrest that was caused by Long QT syndrome."

July 30, 2023 - Olathe, KS - 19 year old Myzelle Law, a defensive lineman at MidAmerica Nazarene University in Olathe, was at practice July 22 when he collided with another defensive lineman and went to locker room where he had "seizure like symptoms". He died a week later.

ROWAN COUNTY, N.C. (WBTV) - Dalton Gay was known as a football player for the Carson High Cougars, for his Army JROTC involvement and for a warm personality, but those who knew the 17-year-old best say that his faith was the defining characteristic of his life.

"Hebrews 11:38, which says 'the world was not worthy of him.' I think that's a really apt way to put it. Like Dalton's life, he ministered to people, he lived a life that was contagious, he had a very big personality, but none of that was about him. He wanted to live for the Lord," Grant Ketron, high school pastor at Charity Baptist Church in Kannapolis, said.

Gay died Saturday morning from what is described as an undiagnosed medical condition. An autopsy will be performed to determine the cause of death.

Updated: Jul. 27, 2023, 6:54 p.m. | Published: Jul. 27, 2023, 12:30 p.m.

Syracuse, N.Y. — Dy'Jierre Jackson had just submitted paperwork for college when he wanted to catch some sleep before going to work Tuesday afternoon.

His dad went to wake him up around 2:30 p.m. but couldn't wake him, said his mother, Jennifer Reed.

An ambulance crew worked on him before he was taken to a hospital. He had stopped breathing and there was no brain activity, Reed said. At 3:20 p.m. doctors pronounced him dead.

"He passed away in his sleep. There was no struggle," Reed said. "He wasn't complaining of any pain."

Reed said a medical examiner told the family an infection in his kidneys led to his death.

On Wednesday, Syracuse Academy of Science students, coaches and faculty gathered to remember Dy'Jierre, who graduated from the charter school on June 21.

Annie, my sweet little sister.

I was woken up by a phone call early Thursday July 20, 2023. My heart dropped when my mom told me they had found our Annie unconscious at her Youth Conservation Camp (YCC). I spent the next few minutes reassuring our older sister Katie that she would be fine, this couldn't happen to us, but it did. I got the call from my mom that she had passed away and I didn't believe her, it wasn't possible.

(ABC 6 News) – Reports from the Marathon County Sheriff's Office indicate that former Rochester runner Lance Pfrimmer died at a house party in Brighton, Wisconsin.

A family friend originally told ABC 6 News Pfrimmer's drowning occurred in Menominee.

However, according to the sheriff's office, deputies responded to the 212,000 block of Mystic Avenue, Brighton, at about 6:17 p.m. July 8, after a party-goer reported that Pfrimmer's body had been pulled from the pond on the property.

About 70 people were attending the party at the residence, according to law enforcement.

Witnesses at the pond described a group of University of Wisconsin-Stout students going down a homemade slide into the pond, after which a woman found Pfrimmer at the bottom of the pond, near the slide.

My Take...

Very few teenagers are still taking COVID-19 mRNA vaccines but high level teenage athletes still continue to die suddenly at unprecedented levels!

Here are 15 deaths of athletes ages 16 to 19 in the past month that made the news (imagine how many didn't make the news!)

Parents must finally wake up and work together to put an end to COVID-19 mRNA vaccination in children.

Send this to your loved ones. Give it to your teachers and principals.

Give it to your doctors. Give it to your lawyers.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
