

5G Cell Phone Radiation: How the Telecom Companies Are Losing the Battle to Impose 5G Against the Will of the People

By [Claire Edwards](#)

Global Research, December 30, 2019

Theme: [Environment](#), [Intelligence](#)

This was originally published in October 2019.

Some updates were added: December 5, December 17.

The telecommunications companies and the mainstream media would have you believe that the race to roll out 5G is unstoppable. That you are nothing and no one in the face of a lethal multi-trillion-dollar agenda imposed by some of the most powerful entities on the planet.

They thought that if they called their new, alleged “communications technology”, adapted from the military [Active Denial Technology](#), “5G” or fifth generation, the public would just assume that it was more of the same as 4G, 3G or 2G. And if they could characterise the rollout as a race, the public would not have enough time to find out what a killer technology 5G is. How wrong they were! Not only has the public found out, but now they know how lethal previous generations of wireless technology – to be used concurrently with 5G – are as well.

Below is the evidence from a number of different countries that the pushback is huge and growing. The telcos have lost the propaganda war, despite their control of the mainstream media, from which not a whisper of the dangers of 5G is heard, and of social media and Youtube, who have been desperately deleting millions of accounts to silence the naysayers.

As this article went to press, support arrived from an unexpected source. In an impassioned speech before the [United Nations General Assembly on 24 September 2019, UK Prime Minister Boris Johnson](#) stated that digital authoritarianism is not the stuff of dystopian fantasy but of an emerging reality. [He described the Internet of Things, “smart” cities and AI as a giant, dark thundercloud lowering ever more oppressively over the human race](#), a gathering force reshaping the future of humanity over which the human race has no control and from which, in future, there may be nowhere to hide.

He asked if algorithms could be trusted with our lives and hopes and whether machines should be allowed to doom us to a cold and heartless future in an Orwellian world designed for censorship, repression and control. He recalled the [Universal Declaration of Human Rights](#) and endorsed its ideals of upholding freedom of opinion and expression, the privacy of home and correspondence, and the right to seek and impart information and ideas

He exhorted the academic committees, company boards and industry standards groups who are writing the rulebooks of the future, making ethical judgements, and choosing what will

or will not be rendered possible to find the right balance between freedom and control, between innovation and regulation, between private enterprise and government oversight. He insisted that the ethical judgements inherent in the design of new technology must be made transparent to all and that joint efforts must be made to agree a common set of global principles to shape the norms and standards that will guide the development of emerging technology.

What follows is a citizen journalist's list of the actions taken to halt 5G and reports and complaints that have discredited this Machiavellian attempt to foist a disastrous technology on the world in 2019. It is not an exhaustive list and I extend my apologies to all those whose efforts I may have overlooked here and much gratitude to all who have contributed to making this pushback so successful.

However, we cannot afford to be complacent and, in particular, we must work to stop the use of the Earth orbits and the stratosphere to beam 5G down to Earth, for this puts the ionosphere and the entire planet at risk. We must also work to ensure that the use of street lights with blue light for this anti-life agenda is rapidly reversed.

The effort to stop 5G is still gathering momentum and we must continue to work together and tirelessly to protect all life on Earth and the planet itself until this demented plan is relegated to the history books as the most Mephistophelian scheme in the history of humankind.

- 1 International 2018 [International Telecommunication Union urges harmonisation of exposure limits](#). International RF-EMF exposure guidelines refer to the guidelines of the International Commission on Non-Ionizing Radiation Protection (ICNIRP) [b-ICNIRP 1998], or of the Institute of Electrical and Electronics Engineers (IEEE) [b-IEEE C95.1]. These limits are currently under review [b-ICNIRP]. A small group of countries, regions or even cities within the same country, especially in Europe (e.g., Poland, Russia, Italy, Switzerland, Paris city and regions in Belgium), use limits that are ten to a hundred times lower. China [[25 times lower than the EMF recommendations of the Council of Europe \(1999/519\)](#)] and India, amongst others, also adopted limits below ICNIRP guidelines. [International exposure limits for radio-frequency fields](#).
- 2 USA 2018 [Exposure to Cell Phone and Wireless WiFi Radiation Can Reduce Impulse Control and Cause Violence](#). A pilot study on six California fire fighters working and sleeping in stations with towers showed symptoms including slowed reaction time, lack of focus, lack of impulse control, severe headaches, anesthesia-like sleep, sleep deprivation, depression, and tremors. [Exposure can also increase acts of violence and homicide](#). [Scientist Says 1 in 2 children born in 2025 will be autistic – something is clearly causing this health crisis of historic proportions](#). “If you take the data that the CDC has provided since 1975 and plot it, you can see that it’s an exponential growth curve. You can extend the line. ... My feeling is that things are worse than the line. So I think that 1 in 2 in 2025 is not an unreasonable prediction.”
- 3 USA 2018

- 4 USA
24 June 18 Author [Naomi Wolf reports](#) EMF reactions, cloud anomalies and their correlation with irritable and stressed behaviour in New York.
- 5 Taiwan
28 Dec 18 [Taiwan's five wireless carriers say that they will not rush to roll out 5G services](#) in the absence of a profitable business model to sell the revolutionary technology, in spite of all the use cases that have been suggested.
- 6 Switzerland
2018 [The government appoints a group of experts to probe the risks involved with introducing 5G](#), whose findings should be published by the end of 2019. The Swiss Federation of Doctors also urges caution, maintaining that "as long as there is no scientific proof that raising the radiation limits will not impact health, one must refrain from raising them."
- 7 Austria
4 January 19 [After 5G is officially switched on in Vienna in November 2018](#), former UN staff member reports Vienna's first EMF injuries.
- 8 Austria
11 January [Court of Auditors slams corrupt "smart" meter contract award for defrauding electricity and gas customers](#). Concerns about data protection and about power disruption were ignored, energy savings were exaggerated and customers were assured that they would have no extra costs, but [left to pick up a 1 billion euro bill for the installation](#).
- 9 Europe
13 January Journalist group [Investigate Europe](#) publishes "The ICNIRP Cartel: Who's Who in the EMF Research World, an interactive graphic", exposing [conflicts of interest among ICNIRP members](#).
- 10 USA
14 January [Congresswomen Eshoo and Speier introduce BillHR530](#) to block FCC cell tower pre-emption and preserve local government control and invalidate the Federal Communications Commission's (FCC) 26 September 2018 ruling to accelerate the deployment of 5G small cells throughout the US.
- 11 USA
14 January *Russia Today (RT) America* airs the first of 7 reports on the dangers of 5G: [5G Wireless: A Dangerous 'Experiment on Humanity'](#). "Is there a catch?", asks the presenter. "Just a small one", comes the reply, "It just might kill you". The segment is viewed 1.8 million times.
- 12 European Commission
14 January The [Scientific Committee on Health, Environmental and Emerging Risks \(SCHEER\)](#) rates the potential effects on wildlife of increases in electromagnetic radiation from 5G a maximum 3 in terms of scale, urgency and interactions with other ecosystems and species, stating that "The lack of clear evidence to inform the development of exposure guidelines to 5G technology leaves open the possibility of unintended biological consequences".
- 13 Italy
16 January The Lazio regional administrative court decrees that the ministries of environment, health and education have six months to [launch information campaigns on the risks associated with the use of mobile phones](#).

- 14 USA
25 January The Illinois Supreme Court rules that a woman can [sue Six Flags Great America for fingerprinting her child](#) without telling her how the data would be used in violation of the state's biometric law. "This is no mere 'technicality,'" Chief Justice Lloyd Karmeier writes in the opinion. "The injury is real and significant."
- 15 Italy
30 January An [Italian Court in the city of Monza](#) rules the acoustic neuroma brain tumour of an airport employee to be an occupational disease caused by exposure to the radiation from a cell phone he used for over 10 years for his work.
- 16 USA
6 February [US Senator Blumenthal definitively establishes that no safety studies have been done on 5G.](#)
- 17 USA
February [At least 21 US cities/regions pass ordinances restricting "small cell" installation](#), and many are charging "recertification fees" to make it unprofitable for the wireless industry.
- 18 USA
9 February [Sierra Club California Conservation Committee adopts resolution to ask the National Sierra Club to take an oppose position to the deployment of 5G](#) and small cell technology without local input and environmental review. The Sierra Club was founded in 1892 and is the oldest and largest grassroots environmental organization in the US.
- 19 Switzerland
18 February [Study: Radiation From Smartphones May Impair Memory In Teens.](#) A research team at the Swiss Tropical and Public Health Institute says that radio frequency electromagnetic fields (RF-EMF) may negatively affect an adolescent's brain from cellphone exposure, causing potentially harmful effects on his or her memory performance. The authors say having the device close to one's head lead to the greatest amount of radiation exposure.
- 20 UN
22 February The Planetary Association for Clean Energy (PACE) submits a statement to the UN revealing that allowable international ["radiation limits will have to be increased by 30 to 40%" in order to make 5G deployment technologically feasible](#) and calls 5G "an experiment on humanity that constitutes cruel, inhuman and degrading treatment" in violation of more than 15 international treaties and agreements.
- 21 ICNIRP
3 March [Eric Van Rongen](#), Chair of ICNIRP [self-proclaimed international commission on non-ionizing radiation protection, but actually just a German NGO], the organisation whose non-transparent pronouncements on the international limits at which phones can emit radiofrequency are strangely adopted by UN bodies, calls 5G "[a public health experiment](#)", stating that "It will be necessary to gain more information about the exposure and any health problems that might come from an effect of that exposure".
- 22 UK
3 March [The Daily Telegraph asks, Do smartphones cause cancer?](#) World Health Organisation to assess brain tumour link.

- 23 USA
7 March [A class action lawsuit is filed against the FCC](#) by 62 entities and municipalities across the USA. aimed at first slowing down and then vacating the FCC “order and declaratory ruling purporting to streamline the deployment of wireless facilities by pre-empting local government authority”.
- 24 Netherlands
9 March [Utrecht City Council decides unanimously to postpone decision-making on 4G and 5G](#) infrastructure on new lamp posts until the risks to health and privacy are better understood.
- 25 France
10 March Popular French astrophysicist and philosopher [Aurélien Barrau causes a storm In France when he announces on Twitter “5G kills ... We have already killed 70% of the living \(with almost no global warming\). Do we want to choose life or the speed of the telephone network?”](#)
- 26 Guernsey
11 March [Call to halt 5G technology in Guernsey due to health fears](#), ITV News.
- 27 UK
17 March [Insurers announce premature death trend](#). British insurer Legal & General CEO says: “There’s been a long discussion about whether this is a blip or a trend, and sadly it’s looking like a trend.”
- 28 Germany
20 March Without invoking the precautionary principle, the [Federal Office for Radiation Protection \(BfS\) admits that the effects of the higher frequencies of 5G are not yet well researched](#) and advises that 5G should be developed cautiously. It states that consideration needs to be given to whether people will be exposed to much higher radiation.
- 29 UK
23 March Sacha Stone publishes documentary [5G Apocalypse: The Extinction Event](#). (565,354 views as at 3 October 2019).
- 30 USA
24 March [Portland, Oregon city officials state clear opposition](#) to the installation of 5G networks around the city, supported by the mayor and two commissioners.
- 31 Italy
28 March [Florence applies the precautionary principle](#), refusing permissions for 5G and referring to “the ambiguity and the uncertainty of supranational bodies and private bodies (like ICNIRP)”, which “have very different positions from each other, despite the huge evidence of published studies”.
- 32 Italy
28 March [One Roman district votes against 5G trials](#), with others expected to follow. Other motions to Stop 5G are expected in the four regional councils, one provincial council and other municipal councils of Italy.
- 33 Russia
28 March The [Russian Ministry of Defence refuses to transfer frequencies for 5G](#), which effectively delays any 5G rollout there for several years.
- 34 USA
28 March New Jersey Congressman Andy Kim sends a letter, noting that, “Current [regulations governing radiofrequency \(RF\) safety were put in place in 1996](#) and have not yet been reassessed for newer generation technologies.”

- 35 Belgium 31 March [Belgian Environment Minister announces that Brussels is halting the 5G rollout](#), saying, “The people of Brussels are not guinea pigs whose health I can sell at a profit.” It turns out that there is now no methodology to effectively measure the radiation of MIMO antennas, which have the characteristic of varying field in time, space and intensity, unlike antennas used for 2G, 3G and 4G, which emit radiation of constant intensity and space. Celine Fremault therefore asserted that, as this technical obstacle was not resolved, she would not go further in the legislative process.
- 36 USA April The Blue Cross Blue Shield health insurance association reports that millennials – the first generation to grow up using cell phones – are [experiencing an unprecedented decline in their health when they reach their late 20s](#).
- 37 EU April An [EU report admits](#) that 5G is a massive experiment, lamenting that “it is not possible to accurately simulate or measure 5G emissions in the real world” and stating that “complex interference effects ... may result, especially in dense urban areas.”
- 38 International 2 April [Avid traveller, 33, dies on a Los Angeles to Melbourne flight she had flown many times before](#) – as friends say they’re at a ‘complete loss’ as to what killed the ‘happy and healthy’ tech executive. [Aviation health & safety in the digital age – radio-frequency \(RF\) exposure from mobile devices and in flight WiFi : A new human factor?](#)
- 39 Germany 4 April [54,600 Germans sign a petition to force the German Bundestag to debate 5G](#).
- 40 Netherlands 4 April [Members of Parliament in the Netherlands insist that radiation research must be carried out before any approval of the 5G network](#).
- 41 USA 4 April The [California Supreme Court](#) publishes an [opinion](#) supporting municipal authority to make regulations on so-called ‘small cell’ PROW (public right of way) towers and uses of the public’s right-of-way. This opinion affirms the 2016 appellate [court ruling](#).
- 42 USA 5 April The [California Supreme Court Justices unanimously uphold a 2011 San Francisco ordinance](#) requiring telecommunications companies to get permits before placing antennas on city infrastructure.
- 43 Switzerland 9 April The [Canton of Vaud adopts a resolution calling for a moratorium on 5G](#) antennas until the publication of a report on 5G by the Swiss Federal Office for the Environment.
- 44 Switzerland 10 April [Geneva adopts a motion for a moratorium on 5G](#), calling on the Council of State to request WHO to monitor independent scientific studies to determine the harmful effects of 5G.
- 45 France 11 April French lawmaker Jean-Paul Lecoq [raises the wide range of risks posed by the 5G deployment](#) in the National Assembly.

- 46 USA
15 April Oregon Representative Peter A. DeFazio, House Transportation and Infrastructure Committee Chairman, writes a letter to FCC Chairman Ajit Pai and acting FDA Commissioner Sharpless [regarding the status of the government's research into the potential health effects of RF radiation](#) and its relation to the FCC's guidelines for safe human RF exposure levels.
- 47 USA
16 April New York Congressman Thomas Suozzi [sends a letter to the FCC seeking answers about the technology](#). "Small cell towers are being installed in residential neighborhoods in close proximity to houses throughout my district. ,, My constituents are worried that should this technology be proven hazardous in the future, the health of their families and value of their properties would be at serious risk."
- 48 Switzerland
17 April The Federal Office for the Environment (FOEN) sends a [7-page information letter](#) to all cantonal governments for the purpose of "calming the situation". It claims that the new 5G adaptive (directional) antennas would mean much lower exposures for the population: "The beam cone is now aligned directly to the user and in all other radiation directions the radiation is lower [sic]."
- 49 Switzerland
17 April [The Swiss government announces the introduction of a monitoring system to assuage concerns about the potential health impact of fifth-generation \(5G\) mobile frequency emissions](#) and smooth the cutting-edge technology's rollout. The move comes as some Swiss cantons balk at authorizing new antennas needed to support 5G services after a spectrum auction in February that raised 380 million Swiss francs (\$377 million).
- 50 US
22 April [Energy sector says 5G network could exponentially increase energy consumption](#). Two recent studies (by [UTC](#) and the [Electric Power Research Institute](#)) unearth possible problems with 5G technologies, including but not limited to, cyberthreats to the electric grid, lack of infrastructure to accommodate the network of small cells and sensors needed to expand 5G access, lack of private networks, and potential health concerns since 5G microwave bands are 10 times the frequency of previous mobile devices. 5G portends more devices, which increases power demand, which increases the need for more spectrum among utilities.
- 51 International
April 2019 The World Health Organization's International Agency for Research on Cancer (IARC) announces that [reassessment of the classification of non-ionising radiation \(radiofrequency\) in the list of agents carcinogenic to humanity is to be given a high priority](#).
- 52 USA
26 April The US National Oceanic and Atmospheric Administration (NOAA) and NASA clash with the Federal Communications Commission (FCC), which oversees US wireless networks, saying that [next-generation mobile technology could interfere with crucial satellite-based Earth observations](#).

- 53 France
26 April [French farmers sue the state over mystery cow deaths they blame on electromagnetic fields](#). A group of French cattle farmers is suing the state over the mysterious death of hundreds of cows, which they believe are the victims of harmful electromagnetic fields. Several studies have shown that livestock, particularly cattle, are affected by even low-level electromagnetic fields
- 54 Swiss Re
May Insurance company Swiss Re's report on [New Emerging Risk Insights](#) states that "Existing concerns regarding potential negative health effects from electromagnetic fields (EMF) are only likely to increase. An uptick in liability claims could be a potential long-term consequence. ... interruption and subversion of the 5G platform could trigger catastrophic, cumulative damage."
- 55 Denmark
4 May [A legal opinion by a Danish law firm](#) states that rolling out 5G is illegal under EU and international law: *It is the conclusion of this legal opinion that establishing and activating a 5G-network, as it is currently described, would be in contravention of current human and environmental laws enshrined in the European Convention on Human Rights, the UN Convention on the Rights of the Child, EU regulations, and the Bern- and Bonn-conventions. ... This also applies when the radiation remains within the limits recommended by ICNIRP and currently used in Denmark as well as broadly within the EU.*
- 56 Denmark
4 May [Danish group Landsindsamlingen mod5G announces it is suing the Danish state](#) for having planned the implementation of the new 5G mobile network throughout Denmark by the year 2020 without conducting any kind of health test in relation to the long-term exposure of people or consideration of the harmful effects on the unborn, children and nature.
- 57 International
4 May [Meteorologists warn that the introduction of 5G mobile phone networks could seriously affect weather forecasters' ability to predict major storms](#) by disrupting the delicate satellite instruments they use to monitor changes in the atmosphere. The result will be impaired forecasts, poorer warnings about major storms, and loss of life, they say.
- 58 Germany
9 May [Minister for the Environment believes continued digitalisation will fuel future environmental problems](#). "Information technology's impact on the environment and nature has been underestimated. It will further increase consumption of energy and raw materials and lead to greater consumption and increased traffic".
- 59 France
15 May French health authority ANSES warns in a 400-page report that [LED lights in your house can cause irreversible damage to the eyes](#) and lead to a vision-robbing condition.

- 60 USA
22 May The US National Oceanic and Atmospheric Administration (NOAA) and US National Aeronautics and Space Administration (NASA) [criticize FCC plans for opening a 24 GHz spectrum band](#) to 5G telecommunications providers, stating that US weather forecasting capabilities would be set back decades. The matter is on the [agenda](#) for international [treaty](#) negotiations at the International Telecommunication Union's [World Radio Conference](#) (WRC) in the fall of 2019, but with respect to 24 GHz, the Department of State has already [submitted](#) the FCC's out-of-band emission limits as [the US position during preliminary negotiations](#).
[Apple is selling your iTunes listening data despite its privacy claims, a lawsuit alleges](#). Apple Inc. was sued by customers who claim the company is unlawfully disclosing and selling information about people's iTunes purchases as well as their personal data, contrary to the company's promise in advertising that "What happens on your iPhone stays on your iPhone."
- 61 USA
25 May
- 62 USA
29 May The US state of [Louisiana unanimously votes to stop 5G](#), calling for study of effects on health and environment before 5G is launched ([Resolution 145](#)).
- 63 France
31 May An [LED lamp post is destroyed in France](#).
- 64 International
31 May 2019 [Global Disinformation Index shows success of Stop 5G pushback](#): total number of followers of 123 Facebook pages and 74 groups swelled from 7,005 to 59,094 by third week of May 2019.
[Ongoing lawsuits against the US Federal Communications Commission](#) (FCC) over the [constitutional overreach](#) in the rollout of 5G:
- National League of Cities (19,000 cities & towns)
 - US Conference of Mayors (1,192 cities)
 - National Association of Counties (3,069 counties)
 - National Association of Regional Councils (500 councils and metropolitan & regional planning organizations)
 - National Association of Towns and Townships (10,000 towns)
 - National Association of Telecommunications Officers & Advisers (local government officials)
 - Colorado Communications Utility Alliance
 - League of Arizona Cities and Towns
 - League of California Cities
 - League of Oregon Cities
 - Michigan Coalition to Protect Public Rights of Way
 - Michigan Municipal League
 - Michigan Townships Association
 - Texas Coalition of Cities for Utility Issues
 - 7 Counties
 - 45 Cities
- 65 USA
June 2019

- 66 Europe
June EMFOff publishes an exposé of corruption at the World Health Organization: *The WHO Cover-Up That is Costing Us the Earth*. [Video](#) and [PDF document](#).
- 67 Canada
June In Toronto, the Canadian Civil Liberties Association files a [court application to stop \(Alphabet/Google subsidiary\) Sidewalk Labs' "smart city" project as "unconstitutional"](#) because it would allow "historically unprecedented, non-consensual, inappropriate mass-capture surveillance and commoditization of personal data."
- 68 Australia
June [Step-by-Step Action Plan: We say No to 5G in Australia](#): devised by barrister Raymond Broomhall, who has stopped 25K antenna projects across Australia.
- 69 Switzerland
4 June The Canton of Fribourg introduces [a licensing requirement for 5G antennas](#) in order to give those affected a chance to object.
- 70 Russia
6 June A man living in the Tver region [saws down a cell tower](#) because he believes the radiation from it is destroying the vegetable, berry and fruit crops growing on his land located nearby.
- 71 Switzerland
10 June A [telephone antenna is destroyed by an explosion](#) in Vaud, Switzerland.
[Glastonbury Town Council](#) opposes the introduction of 5G technology in Glastonbury until further information has been obtained on the health effects on residents, adopting the following motion: *"This council has a social responsibility to protect the public and environment from exposure to harm, albeit unpredictable in the current state of scientific knowledge, and therefore opposes the roll-out of 5G in the Parish of Glastonbury - based on the precautionary principle - until further information is revealed from a newly convened 5G advisory committee (working group)."*
- 72 UK
11 June Shadow Minister (Environment, Food and Rural Affairs) David Drew asks the Secretary of State for Digital, Culture, Media and Sport, what discussions he has had with the [providers of 5G on whether they have made any provision for personal liability on health and safety grounds](#) and whether any [provision has been made for white zones](#). He also asks the Secretary of State for Health and Social Care, [what investigations the Government has commissioned on the health and safety implications of the 5G rollout](#).
- 73 UK
11 June [5G installer discusses the consequences of 5G](#). Current radiofrequency emitted by cell towers uses relatively low power (1.5-2.8 MHz), which at short range superheats the water molecules in your brain, eyes and testicles. It dissipates over distance as it has a long wave trough. 5G will be up close, in offices, outside homes, everywhere, including in the back of self-driving cars. It broadcasts in GHz not MHz — 30 GHz is 15,000 times more powerful than current previous levels.
- 74 USA
12 June
- 75 Ireland
18 June A motion calling on [Clare County Council](#) to oppose the rollout of 5G on health grounds is backed by the elected representatives.

- 76 USA
18 June Pennsylvania lawmakers [cancel a vote on proposed legislation](#) to facilitate infrastructure next-generation 5G wireless services. It is the third defeat for the Verizon- and AT&T-backed legislation.
- 77 US
20 June The Centers for Disease Control and Prevention report that [US suicide rates are at the highest level since World War II](#). Life expectancy, perhaps the broadest measure of a nation's health, has fallen for three straight years, the first three-year drop since 1915 to 1918.
- 78 UK
25 June [UK parliamentary committee](#) discusses concerns about the health effects of electromagnetic fields and 5G, especially with regard to electrohypersensitivity. Tonia Antoniazzi, MP, asks why the inaccurate and discredited 2012 report of AGNIR is still on the Public Health England website. [Transcript](#). [Video](#) (from 16. 35).
- 79 France
25 June "Bees are producing nothing!" [French beekeepers announce a catastrophic year for French honey](#).
- 80 USA
27 June The state of New Hampshire asks [a series of questions](#) about 5G in Bill [HB 522](#).
- 81 USA
27 June US [Senator Dianne Feinstein](#) introduces [SB 2012](#), "Restoring Local Control Over Public Infrastructure Act of 2019", to repeal FCC rules that limit state and local government control over telecom infrastructure. The bill is supported by the US Conference of Mayors, National Association of Telecommunications Officers and Advisors, American Public Power Association, Communications Workers of America, National Association of Counties, League of California Cities and American Public Works Association.
- 82 France
27 June After victories for "electrohypersensitive" (EHS) people in Toulouse (March) and Bordeaux (May), the [Tribunal de grande instance of FOIX](#) issues a decision protecting EHS people who cannot tolerate dirty electricity diffused by "smart" meters.
- 83 Glastonbury,
UK
29 June [Glastonbury festival-goers are used as guinea pigs](#) in a 5G trial and [document multiple injuries online](#).
- 84 Europe
29 June The [European Stop 5G Alliance](#) comprising representatives from 19 European countries is officially founded at an international conference in Mendrisio, Switzerland.
- 85 France
July French baby-clothing firm Petit Bateau decides not to wait for the "conclusive" data and [launches clothing line to protect babies from electromagnetic radiation](#).
- 86 USA
1 July The Ninth Circuit Court of Appeals [affirms the City of Berkeley's right](#) to require cell phone retailers in the city to notify prospective customers about cell phone manufacturers' safety guidelines to ensure consumer safety, adopted in May 2015.
- 87 Russia
1 July In the Urals, police detain a woman who tried to [burn down a communications tower because of concerns about health](#). The woman believed that her malaise and insomnia related to the fact that this tower was located directly near her home.

- 88 USA
3 July Prof. Em. Martin L. Pall states that [5G effects will take months, not years](#), and he expects a breakdown in mental function, sterility, damaged heart function and societal collapse.
- 60 regions, autonomous provinces and municipalities question 5G, [a moratorium is established in Italy and 14 municipalities approve Stop 5G city council resolutions or motions](#). The Mayor of Marsaglia issues Italy's first Stop 5G ordinance: *It "has been shown in four studies (Rea 1991, Havas 2006, 2010, McCarty et al. 2011) that it is possible to identify people with electromagnetic hypersensitivity and demonstrate that they can be tested using objective, measurable responses, demonstrating that these subjects truly are hypersensitive when compared with normal controls; that other studies show that there are true and proper physiological changes in subjects with electrosensitivity and that two studies (De Luca, Raskovic, Pacifico, Thai, Korkina 2011 and Irigaray, Caccamo, Belpomme 2018) demonstrated that electrosensitive people have high levels of oxidative stress and a prevalence of certain genetic polymorphisms, which may suggest a genetic predisposition; that the European Parliament in its 2009 Resolution and the Assembly of the Council of Europe with Resolution No. 1815 of 2011 called on member states to recognize electrosensitivity as a disability, in order to give equal opportunities to those affected"*. The Mayor of San Gregorio Matese bans the installation of 5G antennas on the municipal territory.
- 89 Italy
4 July
- 90 Switzerland
2 July Renowned [Swiss law firm provides legal opinion](#) stating that the [Swiss Federal government's modification of its ordinance](#) to privilege directional antennas is not legally admissible because it would undermine health protection.
- 91 Switzerland
July As a result of the above legal opinion, the [Swiss Canton of Zug suspends](#) ongoing licensing procedures.
- 92 USA
8 July [California Assembly Bill 272](#) asks all school districts, county offices of education, and charter schools to come up with smartphone policies to limit or prohibit student use at school.
- 93 Australia
8 July 2019 [Australian telcos brace for a possible public backlash against the rollout of 5G](#) mobile networks. Some local councils have received expressions of concern about 5G even before the network has been rolled out in their areas.
- 94 Russia
9 July President Putin emphasizes the [environmental risks of new technologies](#), saying "Hopes that the new technologies themselves will save the planet from the growing anthropogenic influence turned out to be illusions. Nature and climate degradation continues."
- 95 EU
14 July Galileo, the EU global navigation satellite system, is [non-operational for at least four days as of 11 July](#) following a mysterious outage. [The Galileo satellite system](#) was launched in 2016 and was funded by the EU as an alternative to the US Air Force's Global Positioning System (GPS) and the Russian global navigation satellite system GLONASS.

- 96 International 16 July The telcos belatedly realise that the public has found out about the dangers of 5G and launches a propaganda war of fake news, starting with [The New York Times](#). It blames all the bad news on 5G on the Russians, and this meme is taken up and repeated obediently by major media outlets [around the world](#), including [the BBC](#), [Le Monde](#) (owned by [Xavier Niel who owns telco "Free"](#)) [The Guardian](#), [The Infographics Show](#), [Yahoo Australia](#) and [Wired Online](#).
- 97 France 18 July French NGO [Alert Phonegate launches class action lawsuit against telco Nokia](#) for selling "smart" phones that were shown by the French National Frequency Agency (ANFR) to exceed the European specific absorption rate (SAR) limit. This deception is facilitated by the entry into force of the new European Directive (2014/53/EU), which has relaxed controls by allowing manufacturers to self-certify their products.
- 98 Ireland 22 July [Roscommon County Council opposes the testing of 5G](#) and the rollout of 5G in County Roscommon.
- 99 Switzerland 26 July [The Green party in Lausanne \(Vaud\) insists on the precautionary principle](#), saying that 5G antennas are being installed while the consequences of these new technologies are not known. Green representatives call for a moratorium in Vaud and commit to opposing all new antennas until they receive clear and satisfactory answers relating to the impact of 5G.
- 100 USA 28 July [Bees dropping out of the sky near two 5G cell towers, California](#).
- 101 Europe 6 August [5G: Implications on the Battlefield](#). Finabel (informal international de facto association comprising ministries of defence of France, Italy, Netherlands, Belgium, Luxembourg & Germany) reports that 5G real time potential will enhance military communications; provide "smart" military bases and command posts; is needed to react in real time to hyper- and supersonic weapons (coming as of 2022); battlefield information; augmented reality devices; unmanned aerial vehicles commonly known as drones; 4K videos, object detection, faster data processing and artificial intelligence; and mMTC (massive, Machine Type Communication), allowing the connection of up to one million devices per km². Smartwatches and wearables will enable real-time monitoring of soldiers' vital parameters, such as heart rate, blood pressure and fatigue, and geographical position.
- 102 Austria 8 August The Austrian parliament commissions a [study on the health effects of 5G networks](#) in response to concern from the public, without invoking the precautionary principle, which is enshrined in EU law.
- 103 Switzerland 5 August Swiss mainstream magazine [L'illustré reports on the injuries of Geneva's first 5G victims: "With 5G, we feel like guinea pigs"](#).
- 104 USA 9 August The US Court of Appeals for the D.C. Circuit finds that the [FCC did not adequately address the potential harms of deregulation](#) or the benefits of environmental and historic-preservation reviews.

- 105 USA
9 August
[The Oregon state legislative assembly declares a health emergency in Senate Bill 283](#) and directs the state health authority to review studies of the health effects of exposure to RF-radiation in schools and to recommend how to reduce children’s exposure in schools and to report back not later than 2 January 2021.
- 106 USA
9 August
The Natural Resources Defense Council, joined by various American Indian tribes, as well as the National Association of Tribal Historic Preservation Officers and the National Trust for Historic Preservation, win a victory when the [federal appeals court in D.C. ruled that the FCC illegally eliminated historic-preservation and environmental review](#)—and important opportunities for public participation—for 5G wireless infrastructure projects. Emphasizing the importance of such review, the court held that that the FCC’s attempted explanations for the elimination “did not meet the standard of reasoned decision-making.”
- 107 United Nations
19 August
The [UN Human Rights Council invites inputs on the possible impacts, opportunities and challenges of new and emerging digital technologies](#) with regard to the promotion and protection of human rights, with a view to preparing a report and holding a panel discussion at its 44th session.
- 108 USA
21 August
The Chicago Tribune finds that [popular cell phones tested for radiofrequency radiation measure over the legal safety limit](#), in some cases more than double what Apple reported to federal regulators from its own testing. The FCC is investigating.
- 109 USA
23 August
Cardiology Magazinereports on smart phones and obesity. A poster abstract, presented at the Latin America Conference 2019, found that [university students who used their smartphones five or more hours a day had a 43 percent increased risk of obesity](#).
- 110 Russia
26 August
Oleg Gregoriev, Chairman of the Russian National Committee on Non-Ionizing Radiation Protection, states that “[5G may be like a slow Hiroshima](#)”.
- 111 Spain
26 August
[Ombudsman says that National 5G Plan has not undergone environmental assessment](#). The Secretary of State for Digital Advancement ignored a number of articles of Law 21/2013 on Environmental Assessment, and ongoing pilot 5G projects use a band of frequencies for which the limits for safe exposure have not been fixed, which is contrary to the precautionary principle.
- 112 USA
26 Aug-1 Sept
The [5G Crisis Awareness and Accountability Summit](#) attracts 200,000+ viewers from around the world, who send over 200,000 liability letters to their government representatives.
- 113 USA
28 August
Medical doctor Dietrich Klinghardt warns that “Cell phone use of teenagers and children is [limiting brain development: certain aspects of humanity, like compassion and considering others, are the first parts of the brain that are getting disabled](#).”

- 114 USA
30 August [Tesla solar panels are catching fire](#). Amazon and Walmart have both been burned. Walmart is suing. Installations at all 29 Walmart stores showed signs of gross negligence and many were unsafe.
- 115 Australia
Sept Australian barrister Ray Broomhall reveals that children are being exposed to magnetic fields from cell phones that breach WHO's recommended 0.3µT safety limit by a factor of 20,000. ([Slide show](#).)
- 116 Russia
1 Sept [The Russian Defence Ministry refuses to hand over 3.4-3.8 GHz for 5G](#) because these frequencies are used for satellite communications, instead suggesting that 4.4-4.99 GHz be used, which are popular only in China and Japan.
- 117 Kuwait
1 Sept [The Kuwait Times publishes an article on the threats to health from 5G technology](#), recommending that cell towers be distanced from homes, daycare centers, schools, and places frequented by pregnant women, men who wish to father healthy children, and the young".
- 118 Ireland
2 Sept [Leitrim Councillors vote to oppose 5G rollout across the county](#).
- 119 USA
3 Sept [T-Mobile cancels 5G installation nationwide](#). Anonymous employee blames 15 states' lawsuits against the Sprint merger. On learning that Montreal would serve as a "living laboratory" designed to test 5G technology (50-60K antennas planned for Montreal), [Guy Boulianne calls it a criminal act and calls for a people's movement to oppose the deployment of 5G](#) in Montreal and elsewhere. François Croteau, Director of the "Smart" city project, said that [this "urban laboratory" would "enable the different branches of public health, federal and provincial, to come in and do analyses to see the potential impacts on public health"](#), adding that the studies conducted to date on the subject had been "contradictory".
- 120 Canada
3 Sept The NGO [Action Judiciaire contre la 5G](#) (Legal Action Against 5G) intends to use all the legal means at its disposal to demand from all the authorities concerned an urgent halt to the deployment of the 5G wireless network, including from satellites in space: [the Nuremberg Code](#), the [Rome Statute of the International Criminal Court](#), the [Crimes Against Humanity and War Crimes Act](#), human rights, the [Universal Declaration of Human Rights](#), the [Canadian Charter of Rights and Freedoms](#) and the [Charte des droits et libertés de la personne](#) (Charter of Rights and Freedoms of the Person).
- 121 Canada
3 Sept [Sligo County Council votes to delay the testing and rollout of 5G](#) in the county.
- 122 Ireland
7 Sept [Cellphone Users Sue Apple and Samsung Over Radiation Exposure](#). Andrus Anderson in San Francisco is representing 16 plaintiffs against Apple and Samsung in a controversy some in the medical and scientific community are allegedly calling "Phone Gate."
- 123 USA
11 Sept

- 124 International
12 Sept Based on data from a [2017 survey of a 6th floor apartment in Stockholm with a GSM/3G/4G LTE base station just 12 metres away](#), it is extrapolated that [666,000 such base stations would be needed before ICNIRP's ludicrously high so-called safety guidelines were breached](#).
- 125 International
13 Sept [Edward Snowden describes his role in the creation of the totalitarian surveillance state](#), enabling the new wave of authoritarianism by the political and commercial classes that are realizing they can use technology to influence the world on a massive scale, bringing societies' systems under attack.
- 126 Switzerland
13 Sept [5G opponents block applications on 320 out of 326 antennas](#). 5G opponents have raised objections to almost all of the applications for planning permission for antennas.
- 127 UK
16 Sept [Smart meter rollout delayed by four years](#). The government's deadline to have smart meters in 30 million homes by the end of 2020 has been pushed back to 2024.
- 128 Australia
17 Sept [TPG \(Total Peripherals Group\) abandons mobile network due to health fears](#). Chief operating executive Craig Levy says TPG had become nervous about community concerns over its small-cell 4G network rollout, concerns that he considers "rational".
- 129 International
18 Sept [Hits on a single popular music video burn as much energy as 40,000 US homes use in a year](#). *Despacito* set an Internet record in April 2018 when it became the first video to [hit five billion views on YouTube](#). The 5G Infrastructure Public Private Partnership (5G PPP), a joint initiative between the European Commission and European ICT industry, promises [savings of up to 90% of energy per service provided](#). Will that be enough, since they are "facilitating very dense deployments of wireless communication links to connect over 7 trillion wireless devices"?
- 130 United Nations
24 Sept [UK Prime Minister Boris Johnson](#) describes the Internet of Things, "smart" cities and AI as a giant, dark thundercloud lowering oppressively over the human race, threatening a cold and heartless future in an Orwellian world designed for censorship, repression and control. He appeals for joint efforts on agreeing a common set of global principles to shape norms and standards to guide the development of emerging technology.
- 131 International
24 Sept [Energy demand could triple with 5G](#). 5G will connect billions of things and accommodating these new connections might mean masts with as many as 128 antennas, versus just four or eight on a typical 4G mast.
- 132 Cyprus
26 Sept The Parliamentary Committees on Health and Environment in Cyprus hold discussions on the negative aspects of 5G. Proposals are put forward to freeze 5G deployment and keep Cyprus radiation-free as a detoxing zone attractive for tourism.

- 133 USA
26 Sept [Ornithologists, birdwatchers uncover staggering magnitude of bird population decline](#). An international team of 12 scientists analysed decades of data on bird population to find that in the last 50 years, one in four birds in North America has disappeared.
- 134 US
Sept-Oct Journal *Municipal Lawyer* publishes article entitled [Putting the Cart Before the Horse – The FCC’s ‘5G First, Safety Second’ Policy](#), which states that the FCC should have completed the review of its RF standards before opening the floodgates for the deployment of hundreds of thousands of small cell transmitters for 5G. The rules adopted by the FCC in 1996 were designed to protect only against the thermal effects of RF exposure.
- 135 International
Sept The authors of [5G Wireless Communication and Health Effects—A Pragmatic Review Based on Available Studies Regarding 6 to 100 GHz](#), funded by Deutsche Telekom, state that “The available studies do not provide adequate and sufficient information for a meaningful safety assessment, or for the question about non-thermal effects and conclude that, “In summary, [the majority of studies with MMW exposures show biological responses](#)”.
- 136 USA
25 Sept [Lawsuit filed over cell phone radiation](#). A new lawsuit claims that cell phone companies may try to hide how much radiation their devices emit. West Des Moines Iowa Attorney Bart Goplerud files [lawsuit claiming that Apple and Samsung misrepresent safety risks](#).
- 137 Czech Republic
26 Sept In the [Czech parliament, Ing. Pavel Jelínk addresses the Minister of Health](#) regarding the dangers of 5G technologies for the health of citizens.
- 138 Germany
October *Manager* magazine reports that protests by hundreds of protest groups aiming to stop 5G are hindering the multibillion 5G rollout. [Mast-Hass: Wie Proteste das Multimilliardenprojekt bremsen](#).
- 139 European Parliament
1 October MEPs Philippe Lamberts, Michèle Rivasi and Klaus Buchner invite Dr. Marc Arazi of Phonegate, Prof. Em. Martin Pall and European Stop 5G Alliance promoter Maurizio Martucci to a [press conference to discuss the health risks of 5G and the precautionary principle](#).
- 140 South Africa
1 October The [Supreme Court of Appeal affirms Cape Town’s constitutional mandate to regulate and control the use of land within its municipal borders](#). The judgement sets an important precedent that all telecommunications service providers, inclusive of state-owned Telkom, must obtain the City’s approval prior to installing cell phone masts in Cape Town.
- 141 International
1 October The first [IoT privacy study](#) examines the data-sharing activities of 81 different “smart” devices commonly found in people’s homes, finding that 72 of the 81 IoT devices shared data with third parties completely unrelated to the original manufacturer (and not just in the U.S. or UK).

- 142 France
2 October [A group of French NGOs calls for a moratorium on the rollout of 5G](#), saying it could “[push the planet and our society into a world with out-of-control consequences](#)”.
- 143 China
2 October From 1 December 2019, [Chinese citizens must pass a facial-recognition test to use the Internet](#) as part of Beijing’s social credit system. China is due to be equipped with 626 million CCTV cameras by 2020.
- 144 UK
2 October [Stop 5G campaigner John Kitson addresses UKIP party conference](#).
- 145 USA
3 October [Erin Brockovich firm joins citizens 5G lawsuit](#) brought by [People’s Initiative Foundation](#) against the FCC and the 1996 Telecom Act.
- 146 France
3 October [France is set to become the first European country to use facial recognition technology](#) to give citizens a secure digital identity in a move critics say is premature given the privacy stakes.
- 147 UK
6 October [Town of Totnes, Devon bans installation of 5G](#). Totnes mayor Jacqi Hodgson, a Green Party county councillor, said: “Our concern is that there will be a much higher blanket of radiation all around us.”
- 148 Russia
7 October [New Russian list of EMF hazard and prohibition signs for wireless users and general public](#). The Russian National Committee on Non-Ionizing Radiation Protection is calling for the release of new EMF hazard warning signs for wireless users of mobile phones and other EMF sources. ([Examples of stickers for wireless devices, including for pregnant women](#).)
- 149 USA
10 October [Liability claims from fires force Pacific Gas & Electric to turn off power to 700K customers](#). Five out of the 10 [most destructive wildfires](#) in California history were at least in part [the fault of equipment](#) belonging to PG&E, the utility company that delivers power to 16 million people in the top half of the state. In part because of liability claims from victims of past fires, \$8.4 billion worth, PG&E is [in the midst of bankruptcy](#).
- 150 UK
10 October [British household-products maker Dyson says it can’t produce an electric vehicle that’s commercially viable](#). Even the most established automakers have had trouble making money from electric vehicles. Research suggests automakers’ heavy investments in electrification [could lead to a \\$60 billion drop](#) in pre-tax profits through 2023.
- 151 USA
10 October [Internet service providers in the United States have spent more than \\$1.2 billion on lobbying since 1998](#), and 2018 was the biggest year so far, with a total spend of more than \$80 million.
- 152 UK
11 October [Kingsbridge Town Council passes 5G resolution](#) in response to requests for them to stand together with councils from Totnes, Glastonbury, and Frome and adopt a moratorium on 5G infrastructure.

- 153 France
11 October [French National Frequencies Agency \(ANFR\) announces the withdrawal from the market](#) and the [recall of the ECHO Horizon Lite phone](#) following measures to control the specific absorption rate (SAR) “trunk”, which revealed that the authorized regulatory limit had been exceeded. This is the 18th smartphone model to be identified in France by ANFR for exceeding the SAR “trunk” or “head”.
- 154 UK
11 October [EM Radiation Research Trust puts UK government on notice regarding 5G](#) amidst profound worldwide health concerns, calling for an outright ban for risky untested 5G technology in response to the UK Government’s consultation calling for proposed reforms to the permitted development rights for the deployment of 5G to extend mobile coverage. [Click here to download letter of notice.](#)
- 155 USA
11 October [Telecoms want to hide detailed 5G installation maps from the public and the Feds.](#) AT&T misled consumers about 5G availability by [renaming a large portion of its 4G network “5G E”](#). Reporting detailed 5G maps would show just how sparse the networks are, even in cities where it’s been rolled out. Outside densely populated areas, [Verizon says](#) that 5G will be more like “good 4G.”
- 156 Canada
12 October [Want to curb climate change? Then get off the internet!](#) Every day, people watch more than a billion hours of video on YouTube. Researchers at the University of Bristol calculated that in 2016, people watching videos on YouTube resulted in about 11.13 million tons of carbon dioxide equivalent, a standard unit of measure that indicates carbon footprint. That’s similar to the amount of greenhouse gases emitted by a city the size of Frankfurt, Germany, or Glasgow, Scotland, over a year.
- 157 USA
13 October [Massachusetts utility regulators investigate why one of their utility companies is not keeping its promises](#) on solar power, electric vehicles, and cybersecurity despite significant customer rate increases.
- 158 UK
13 October [Council bosses argue against Government’s 5G mast-planning proposals.](#) Blackburn with Darwen Council officials have voiced concern that local planning authorities are seeing their powers reduced.
- 159 Hawaii
14 October [5G drone project over Hawaii halted.](#) Research Corporation of the University of Hawaii (RCUH) withdraws its Use Determination Application from the Lana’i Planning Commission.
- 160 UK
15 October EM Radiation Research Trust sends a second letter to the British government: [5G to be or not to be? – that is the question.](#)
- 161 Switzerland
15 October [Jura parliament decides to apply the precautionary principle and re-establish its moratorium on 5G.](#)

- 162 Switzerland
15 October The Swiss Federal Chancellery approves the [launch of a people's initiative](#), the text of which requests that the limit values set by the Ordinance on Protection against Non-Ionising Radiation should not be increased. Supporters have until 15 April 2021 to gather 100,000 signatures.
- 163 USA
16 October [Microsoft Says 30% of IoT projects fail in proof-of-concept stage](#). Security experts warn IoT's vulnerability and 74% failure rate can cause catastrophic events.
- 164 Netherlands
17 October [Multi-billion-dollar liability action launched against 5G telecom companies](#). The *Nationale Bond tegen Overheidszaken* (NBO; National Union Against State Affairs) has launched a liability suit with 4,000 claimants to date. A charge is payable of €1,000 per day on which 5G is active, together with a charge of €2,000 when a 5G antenna is located within a radius of 250 metres of a claimant's home. Each claimant may be legally entitled to an annual fee of up to €730,000 if the 5G network is activated. The action is based on earlier NBO litigation successes against the health insurance companies. The liability action is operating from 27 September to 31 October 2019.
- 165 France
24 Sept The French Agency for Food, Environmental and Occupational Health & Safety (ANSES) has been mandated to examine "the possible health impact of new technological developments, starting from the trial phase" of 5G. The results should be published before the end of 2019.
- 166 UK
14 October [Brighton and Hove City Council join growing list of local authorities banning 5G masts](#). Brighton and Hove City Council is the latest local authority in the UK to ban the installation of new 5G masts because of a perceived risk to public and ecological health.
- 167 France
21 October [Recommendations made by the French Agency for Food, Environmental and Occupational Health & Safety \(ANSES\) call upon the public authorities and industry to face their health responsibilities](#). "Given that [the SAR limit value \(2W/kg\) has been exceeded for a large number of phones placed on the market under the previous European directive](#) (R&TTE) when used in contact with the trunk, the evolution of practices has led to increasing use close to the body (very small or no distance between the device and the body), and uncertainties about various long-term health effects ..."
- 168 UK
21 October [Shepton Mallet will not see 5G rolled out in the foreseeable future after the Council blocked the idea over apparent health concerns](#). At a town development and planning meeting held on 8 October, Shepton Mallet Town Council invoked the precautionary principle and decided to delay any decision on 5G coming to the area.
- 169 UK
28 October Did Coventry's 5G "smart" ambulance knock birds out of the sky? ([video](#))
- 170 Germany
November [Mayor of Bad Wiessee in Bavaria, Germany invokes precautionary principle and rejects 5G rollout](#). ([Deutsche](#))

- 171 Australia 5 November [Smartphones and tablets are having a detrimental effect on toddlers' speech, thinking, and reading skills.](#)
- 172 USA 7 November [Six lawsuits against FCC's 5G idiocy - that \\$2bn windfall for telcos - is bundled into one appeals court sueball.](#) State and local governments are challenging the FCC's recent imposition of a single flat-fee of \$270 per site per year for installing new 5G cell nodes, as well as standardized national processes and contracts for approving new sites, thereby giving wireless carriers a \$2bn discount. The FCC is also being sued by three telecoms operators - AT&T, Verizon and Sprint - because they wanted the automatic right to install their equipment once the imposed application timelines had passed.
- 173 Ireland 12 November [Sinn Féin supports calls for a government review into the health impacts of 5G rollout.](#)
- 174 France 18 November [4 times more new cases of glioblastoma in 2018](#) according to Public Health France. Dr. Marc Arazi, President of Alert Phonegate, says, "Over the last two decades, nearly 50,000 people have been affected in France by this extremely aggressive brain tumour, which has a very high mortality rate. It was also during this period that mobile telephony exploded and industrialists knowingly over-exposed us to the waves of our mobile phones. ... Public authorities can no longer deny the evidence and must urgently protect the health of tens of millions of users.
- 175 Australia 19 November Telco Telstra has called on the government to help combat a misinformation campaign on the health risks of 5G that has been carried out "on a scale we have not seen" before, driven by social media. [Mike Wood, Telstra's principal for electromagnetic energy strategy, governance and risk, said, "\[People\] often don't trust Telstra".](#)
- 176 Spain 19 November [Spain starts tracking mobiles but denies spying.](#) Millions of Spanish mobile phone users are being tracked this week as part of the government's census, in a move that critics fear is a step closer towards spying on the population. Statistics agency INE insists the eight-day project is anonymous and aimed at getting a better idea of where Spaniards go during the day and night. The three biggest mobile companies are taking part in the scheme. They say that by handing over the data they are not breaking any laws.
- 177 Russia 20 November [Federation Council announces preparation of a law governing electromagnetic radiation.](#) "We are now starting work on a law that would regulate electromagnetic radiation, said Senator Vladimir Krugly. Earlier, Russian scientists completed a 14-year study on the effects of radiation from [smartphones and cell phones on children and concluded that they negatively affect the health of the younger generation.](#)
- 178 US 20 November [Sacopee Valley \(Maine\) 8th grade science class investigates WiFi.](#) Proof of the danger to life of WiFi.

- 179 International 21 November [Amnesty International: “Surveillance giants” Facebook & Google “threaten human rights” with data-grabbing.](#) Tech titans Google and Facebook employ “surveillance-based business models” that threaten human rights and erode privacy worldwide, Amnesty International said in a new report, calling for an end to the data-grabs.
- 180 Russia 24 November [Crew calls for help as co-pilot falls ill mid-flight in Russia and dies just after emergency landing. Aviation health & safety in the digital age - radio-frequency \(RF\) exposure from mobile devices and in flight WiFi : A new human factor?](#)
- 181 France 24 November [France issues decree and order on exposure to waves emitted by radioelectric equipment.](#) “Tablets, connected watches, radio-controlled toys... From 1 July 2020, the Specific Absorption Rate (SAR) will be displayed on all radioelectric equipment likely to be used in the vicinity of the human body (up to 20 centimetres). To date, this display requirement only applies to mobile phone devices.” The permissible SAR limit values are:
- 2 W/kg (watts per kilogram) for head and trunk
 - 4 W/kg for limbs
- Reminder: In an opinion dated 21 October 2019, the National Agency for Food, Environmental and Occupational Health & Safety (ANSES) states that some expert reports highlight biological effects on brain activity when exposed to a SAR level above 2 W/kg.
- 182 US 24 November [Cell tower company President tells child she will not get cancer if tower is installed at her school even though his son got leukemia and his school had a tower \(video\).](#) [Note that he does not say that there is *no* evidence - he says that there is no “*credible*” evidence that his son got cancer from that cell tower.] Cancer clusters near cell towers have been reported at [locations all over the world](#). It’s not unreasonable that people everywhere - [including elected officials](#) - are trying to prevent them from being installed near schools.
- 183 Australia 24 November City of Sydney’s submission to government 5G enquiry: “[We will not be willing to sacrifice trees in favour of network performance.](#) Similarly, we need to consider the aesthetic and physical impacts of a potentially large volume of physical infrastructure which is located based on network performance only.”
- 184 US 25 November Veteran investigative journalist shows how “astroturf” or [fake grassroots movements, funded by political, corporate, or other special interests very effectively manipulate and distort media messages.](#)
- 185 Ireland 27 November [Laois County to suspend 5G deployment due to health concerns and non-coverage by insurance companies.](#)
- 186 Switzerland 27 November Glaciologist and climatologist Céilia Sapart: [using “smart” phones connected to the Internet two hours daily produces twice as much greenhouse gases as a return flight Europe/New York.](#)

- 187 Greece 2 December [Town of Kalamata in Greece votes to not renew the contract for a 5G pilot programme on its expiry at the end of 2019.](#)
- 188 USA 4 December Federal Communications Commission ([FCC declines to amend existing radiofrequency \(RF\) limits.](#))
[European Union Agency for Cybersecurity describes a taxonomy of threats.](#) Legal (LEG): This threat category is defined as “legal actions of third parties ... in order to prohibit actions or compensate for loss based on applicable law”. [Does this cover Stop 5G activists?]
- 189 USA 9 December [100 Italian municipalities officially stop densified 4G/5G](#) by adopting the precautionary principle according to article 32 of the Italian constitution and moratoria.
- 191 USA 11 December [As 5G rolls out, troubling new security flaws emerge.](#) Researchers have identified 11 new vulnerabilities in 5G—with time running out to fix them.
- 192 UK 11 December [Hundreds of dead birds found in North Wales,](#) where [5G is now available.](#) About 225 starlings were discovered with blood on their bodies in a lane on Anglesey, North Wales. A witness said it was as if “they had dropped down dead from the sky”.
- 193 France 12 December [French lawmakers pass amendment to inform broadband users of data usage carbon footprint. The Internet’s energy and carbon footprints are estimated to exceed those of air travel.](#)
- 194 UK 12 December [“5G genocide” message finally penetrates BBC propaganda wall.](#) Independent candidate in UK election John Kitson exposes the 5G genocide on BBC television.
- 195 USA 12 December [San Diego suspends face recognition program,](#) limits Immigration and Customs Enforcement access to criminal justice data. A new law in California, [A.B.1215](#) creates a three-year moratorium on law enforcement use of face recognition connected with cameras carried by police officers.
- 196 USA 14 December [Lawsuit Irregulars vs. FCC alleges theft and redirection of estimated \\$1 trillion in funds by the US telecom industry and FCC to enable 5G rollout.](#) America’s households and businesses have been charged at least nine times for broadband/fiber optic services, including the wiring of schools, libraries, and hospitals — about \$4000-\$7000 per household, and the total is way over ½ trillion dollars by 2016. ([Book](#))
- 197 Russia 14 December [Russian Ministry of Education reports that 25% of Russian schools have banned cell phone use during class.](#) 61% of students, 89% of parents and 90% of teachers expressed support for limiting the use of mobile phones in the classroom.
- 198 UK 16 December Taiwan has removed 1,700 towers from a heavily populated area due to miscarriages, cancers, neurological damage, depression and suicide. ([Conference with Barrie Trower: The truth about 5G and WiFi](#))

Subject index: 2019 5G-related news

Claire Edwards, BA Hons, MA, worked for the United Nations as Editor and Trainer in Intercultural Writing from 1999 to 2017. Claire [warned the Secretary-General](#) about the dangers of 5G during a meeting with UN staff in May 2018, calling for a halt to its rollout at UN duty stations. She part-authored, designed, administered the 30 language versions, and edited the entirety of the International Appeal to Stop 5G on Earth and in Space (www.5gspaceappeal.org) and vigorously campaigned to promote it throughout 2019. In January 2020, she severed connection with the Appeal when its administrator, Arthur Firstenberg, joined forces with a third-party group, stop5ginternational, which brought itself into disrepute at its foundation by associating with the Club of Rome/Club of Budapest eugenicist movement. She is a frequent contributor to Global Research.
