As our worlds population grows by about 70 million each year, every approaching public health crisis becomes all the more threatening. At BestPublicHealthSchools.org we decided to use this infographic to explore ten of the most troubling threats on the horizon, including prevention and treatment:

1. Cyber-Warfare, 2. Chagas Disease, 3. Nuclear Radiation, 4. Pandemic Influenza, 5. Terrorism, 6. Antimicrobial Resistance, 7. Chemical Accidents, 8. Prescription Drug Abuse, 9. Slow-Killing Diseases Related To Diet, 10. Natural Disasters.
