The “Shock Doctrine” is clearly at work again. Look at Italy’s new leader’s credentials, Mario Monti

Monti is the first chairman of Bruegel, a European think tank founded in 2005, and he is European Chairman of the Trilateral Commission, a think tank founded in 1973 by David Rockefeller.[4] He is also a leading member of the Bilderberg Group.[5] Monti is an international adviser to Goldman Sachs and The Coca-Cola Company.[6]

In Greece the new PM Lucas Papademos served on the Federal Reserve of Boston!

He has served as Senior Economist at the Federal Reserve Bank of Boston in 1980. He joined the Bank of Greece in 1985 as Chief Economist, rising to Deputy Governor in 1993 and Governor in 1994. During his time as Governor of the national bank, Papademos was involved in Greece’s transition from the drachma to the euro as its national currency.[4] After leaving the Bank of Greece in 2002, Papademos became the Vice President to Jean-Claude Trichet at the European Central Bank from 2002 to 2010. In 2010 he left that position to serve as an advisor to Prime Minister George Papandreou.[4] He has been a member of the Trilateral Commission since 1998.[5]

You can’t make this stuff up, the Banksters are now just out right stealing governments and will perpetuate debt slavery and socialize their losses.
