The true events of 9/11 have been systematically withheld from the public and greatly distorted by the mainstream media. At the heart of this distortion and cover-up has been the BBC.

The BBC has systematically supported the cover-up of a huge amount of incontrovertible scientific and forensic evidence and eye-witness evidence which strongly contradicts the official version of events of 9/11. The result of this cover-up has been the support for the wars launched on Iraq and Afghanistan in the name of 9/11, resulting in more than one million deaths of innocent civilians so far, as well as the ongoing supposed global war on terror at the cost of trillions of dollars to tax payers.

This two part documentary by Press TV exposes the BBC for exactly what role it has played in this process, which is political propaganda, funded by the British public, to support the official version of events of 9/11 and the subsequent global war on terror.

Produced by Ken O'keefe, a former US Marine in Iraq who quit the US military when he realised the truth about what was really happening, and who then led the human shield in Iraq in 2003.
