Excerpt from the Forward of the Study:

"From the moment when some families of abducted children contacted us to inform us that they recognized the children among those who are presented in the videos as victims of the Chemical Attacks of East Ghouta, we decided to examine the videos thoroughly. ...

Our first concern was the fate of the children we see in the footages. Those angels are always alone in the hands of adult males that seem to be elements of armed gangs. The children that trespassed remain without their families and unidentified all the way until they are wrapped in the white shrouds of the burial. Moreover our study highlights without any doubt that their little bodies were manipulated and disposed with theatrical arrangements to figure in the screening.

If the studied footages were edited and published to exhibit pieces of evidence to accuse the Syrian State of perpetrating the chemical attacks on East Ghouta, our discoveries incriminate the editors and actors of forged facts through a lethal manipulation of unidentified children. ...

Thus we want to raise awareness toward the humanitarian case of this criminal use of children in the political propaganda of the East Ghouta Chemical Weapons Attack

We present this work to distinguished Spiritual Leaders, Heads of State, Members of Parliament Humanitarian actors and to any person who has heart for truth and justice and seeks to due accountability for evil deeds."

Mother Agnes Mariam de La Croix,

President, International Support Team for Mussalaha in Syria
