From our knowledge of country level mortality as well as from carefully documented studies and sample surveys, the global implications of the “killer vaccine” on humanity are beyond description.

What has been imposed on 184 countries is a Depopulation Agenda, a criminal undertaking (accepted by corrupt national governments) which is unprecedented in the history of humanity.

In early 2021, Pfizer was fully aware that the [mRNA Pfizer-BionTech vaccine](#) -which in the meantime has been marketed Worldwide- had resulted in an unprecedented wave of mortality and morbidity.

In July 2023, 13,5 billion doses of the Covid-19 vaccine have been administered for a World population of 8 billion people.

This is tantamount to a crime against humanity on the part of Big Pharma at the level of the entire planet.

It is also a Mea Culpa and Treason on the part of corrupt national governments which have obfuscated what is best described as a criminal process of depopulation, namely genocide.
