The complaint filed with the International Criminal Court continues to provide a broad-picture view of the various ways governments have used the coronavirus to exploit the people.

INFLATED COVID FIGURES

Nurses and doctors from hospitals across the world have noted that nearly every death recorded is due to the coronavirus. The complaint notes that if an individual died for any reason within 28 days of receiving a positive COVID-19 diagnosis, their death is deemed a coronavirus casualty. The report notes that between March and June 2020, England and Wales recorded 4,476 deaths with no pre-existing condition.

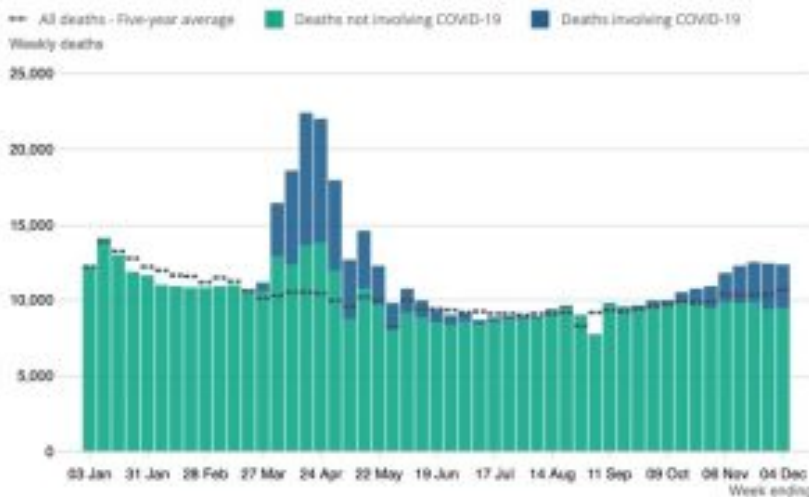

Table 6a: Number of deaths involving COVID-19 by main pre-existing condition, sex and age, England and Wales, deaths occurring between March and June 2020

Country	Sex	Age	Main pre-existing condition	Number of deaths
England and Wales	Persons	0-44	No pre-existing condition	101
England and Wales	Persons	45-49	No pre-existing condition	91
England and Wales	Persons	50-54	No pre-existing condition	123
England and Wales	Persons	55-59	No pre-existing condition	227
England and Wales	Persons	60-64	No pre-existing condition	230
England and Wales	Persons	65-69	No pre-existing condition	293
England and Wales	Persons	70-74	No pre-existing condition	407
England and Wales	Persons	75-79	No pre-existing condition	519
England and Wales	Persons	80-84	No pre-existing condition	699
England and Wales	Persons	85-89	No pre-existing condition	802
England and Wales	Persons	90+	No pre-existing condition	984

Yet, deaths for the same period suddenly spiked to 49,607:

1. Deaths since March were 20% above average

Death registrations in England and Wales compared with the five-year average (2015 to 2019), by whether or not COVID-19 was mentioned on the death certificate

Source: Office for National Statistics - Deaths registered weekly in England and Wales

The complaint alleges that governments have been artificially inflating figures and misbranding common flu, pneumonia, and other respiratory illnesses as COVID-19. To further show that the common flu has been mislabeled as COVID, data from the ONC shows that flu and pneumonia deaths in 2018 and 2019 came to 29,516 and 26,398, respectively. In 2020, only 394 people died from the common flu and 13,619 passed away from pneumonia.

Influenza and Pneumonia

Country	2018	2019
Total mortality	29,516	26,398
England	27,142	24,400
Wales	2,309	1,942
England and Wales	29,451	26,342
Resident outside England and Wales	65	56

Conclusion: The number of fatalities from the coronavirus has been drastically overstated. As mentioned in an earlier post, PCR tests were never meant to be used in their current manner, and often produce false-positive results. Anyone who dies within 28 days of a positive test result is deemed a casualty of coronavirus, even if the virus was not the cause of death.

CENSORSHIP

Twitter, Facebook, YouTube, Reddit, and countless social media platforms have removed any and all information regarding the coronavirus that does not fit the broader agenda. “.

Authorities have blocked legitimate websites and ordered the removal of unwanted content. Officials have reinforced these controls by criminalising [sic] more categories of online expression and arresting journalists, activists, and members for public speaking about the government’s performance. To suppress unfavourable [sic] health statistics, critical reporting and other COVID-19 content the UK government has blocked websites or forced users, social media platforms, or online outlets to delete information,” the report states.

Furthermore, Dr. Robert Malone, the inventor of the RNA vaccine, has been removed from all social media platforms for speaking out against the vaccine. “Smear campaigns are being waged against any doctors and scientists who challenge the WHO narrative on Covid-19 and the Covid-19 ‘vaccines’. We are in a situation where governments and global NGO’s have seized control of the medical profession,” the complaint continues.

Conclusion

Media companies are directly filtering and altering public information.

Even reputable medical professionals have been scrubbed from the internet. Governments around the world are using the pandemic as a reason to crack down on free speech and information.
