One hundred and fiftieth episodes of the Pangea Grandangolo programme, the international press review on Byoblu TV channel on August 8, 2024. In this episode dramatic exclusive testimonies from the latest UN Report on the conditions of Palestinian prisoners in Israeli prisons. There are exclusive images of the Palestinian massacre going on in Gaza and spreading to the West Bank and Jerusalem.

“The United States recognizes Maduro’s rival as the winner of the Venezuelan elections”. Secretary of State Antony Blinken said there is overwhelming evidence of Edmundo González’s victory despite President Nicolás Maduro claiming victory”: this is what Washington decrees.

The attack does not only come from the Biden Administration: Elon Musk, the richest man in the world, now Donald Trump’s main supporter and financier (after having supported Biden), compares Nicolas Maduro to “a donkey” and announces that he is ready to face the “autocratic leader” in hand-to-hand combat. At the same time, Washington foments violent demonstrations inside Venezuela, during the rallies a statue of Hugo Chavez was torn down. This historic leader freed Venezuela – the country with the world’s largest oil reserves – from US domination.

Washington’s policy is clear: every country that becomes sovereign by escaping US domination – this is the focal point of Western domination – becomes an enemy to be fought and defeated. This is the policy that lights and fuels the flames of war that spread throughout the world. The West, however, is losing the dominance it has exercised for centuries. It is emblematic that the BRICS, centering on the alliance between Russia and China, has expanded from five to ten and continues to expand.

This is the context in which both the waged war by the United States and the European powers against Russia, and the war unleashed by Israel and the United States in the Middle East with the main aim of striking Iran, are taking place. In this war the genocide of the Palestinian people is being carried out, this genocide has been condemned as such by the International Court of Justice, the principal judicial body of the United Nations. The targeted assassinations of Hamas and Hezbollah leaders by Israel have triggered a chain reaction with possible catastrophic outcomes.
