

The ISIS-US Empire - Their Unholy Alliance Fully Exposed

By [Joachim Hagopian](#)

Global Research, March 12, 2015

Region: [Middle East & North Africa, USA](#)

Theme: [Terrorism, US NATO War Agenda](#)

Let's be perfectly clear. The United States is not actually at war with ISIS. As Global Research director, economist and author Michel Chossudovsky plainly points out recently, Obama is simply waging "[a fake war](#)" against the Islamic State forces, putting on another propaganda show for mainstream media to keep his flock of American sheeple asleep in echo-chambered darkness. With a mere cursory review of recent historical events, one can readily realize that virtually everything Big Government tells us is happening in the world, you can bet is a boldface lie.

For over three and a half decades the US has been funding mostly Saudi stooges to do its dirty bidding in proxy wars around the world, beginning in Afghanistan in the 1980's to fight the Soviets with the [mujahedeen-turned al Qaeda](#) that later would mutate into ISIS. Reagan and Bush senior gave Osama bin Laden his first terrorist gig. Our mercenary "Islamic extremists" for-hire were then on the CIA payroll [employed in the Balkans](#) during the 1990's to kill fellow Moslem Serbs in Kosovo and Bosnia. For a long time now Washington's been relying on the royal Saudi family as its chief headhunters supplying the United States with as needed terrorists on demand in order to wage its geopolitics chessboard game of global hegemony, otherwise known by the central banking cabal as global "Theft-R-Us."

The Bush crime family were in bed with the bin Ladens long before 9/11 when that very morning [George H W Bush on behalf of his Carlyle Group](#) was wining and dining together with Osama's brother at the posh DC Ritz Carlton while 19 box cutting Saudi stooges were acting as the [neocon's hired guns](#) allegedly committing the greatest atrocity ever perpetrated on US soil in the history of this nation. And in the 9/11 immediate aftermath while only birds were flying the not-so-friendly skies above America, there was but one exception and that was the Air Force escort given the bin Ladens flying safely back home to their "Terrorists-R-Us" mecca called Saudi Arabia. On 9/11 the Zionist Israeli Mossad, Saudi intelligence and the Bush-Cheney neocons were busily pulling the trigger murdering near 3000 Americans in cold blood as the most deadly, most heinous crime in US history. If you're awake enough to recognize this [ugly truth as cold hard fact](#), then it's certainly not a stretch to see the truth behind this latest US created hoax called ISIS.

Renowned investigative journalist and author Seymour Hersh astutely [saw the writing on the wall](#) way back in 2006 (emphasis added):

To undermine Iran, which is predominantly Shiite, the Bush Administration has decided, in effect, to reconfigure its priorities in the Middle East. In Lebanon, the Administration has cooperated with Saudi Arabia's government, which is Sunni, in clandestine operations that are intended to weaken Hezbollah, the Shiite organization that is backed by Iran. The U.S. has also taken part in

clandestine operations aimed at Iran and its ally Syria. A by-product of these activities has been the bolstering of Sunni extremist groups that espouse a militant vision of Islam and are hostile to America and sympathetic to Al Qaeda.

The US Empire along with its international partner-in-crime Israel has allowed and encouraged [Saudi Arabia, Qatar and the United Arab Emirates](#) to be the primary financiers of al Qaeda turned ISIS. Even Vice President [Joe Biden last year said the same](#). If Empire wanted to truly destroy the entire Islamic extremist movement in the Middle East it could have applied its global superpower pressure on its allied Gulf State nations to stop funding the ISIS jihadists. But that has never happened for the simple reason that Israel, those same Arab allies and the United States want a convenient “bad guy” enemy in the Middle East and North Africa, hiding the fact that al Qaeda-ISIS for decades has been its mercenary ally on the ground in more recent years in the Golan Heights, Libya, Iraq and Syria.

As recently as a month ago it was reported that an Islamic State operative claimed that [funding for ISIS had been funneled through the US](#). Of course another “staunch” US-NATO ally Turkey has historically allowed its territory to be a safe staging ground as well as a training area for ISIS. It additionally allows jihadist leaders to move [freely in and out of Syria through Turkey](#). Along with Israel and all of US Empire’s Moslem nation states as our strategic friends in the Middle East, together they have been arming, financing and training al Qaeda/ISIS to do its double bidding, fighting enemies like Gaddafi in Libya and Assad in Syria while also posing as global terrorist boogie men threatening the security of the entire world. Again, Washington cannot continue to double speak its lies from both sides of its mouth and then expect to [continue having it both ways](#) and expect the world to still be buying it.

A breaking story that’s creating an even larger crack in the wall of the US false narrative is the revelation that Iraqi counterterrorism forces just [arrested four US-Israeli military advisors](#) assisting (i.e., aiding and abetting) the ISIS enemy, three of whom hold dual citizenships from both Israel and America. This latest piece of evidence arrives on the heels of a [Sputnik article](#) from a couple weeks ago quoting American historian Webster Tarpley saying that “the United States created the Islamic State and uses jihadists as its secret army to destabilize the Middle East.” The historian also supported claims that the ISIS has in large part been financed by the Saudi royal family. Interviewed on Press TV the critic of US foreign policy asked why NATO ally Turkey bordering both Iraq and Syria where the Islamic State jihadists continue to terrorize, why can’t Turkey simply use its larger, vastly superior army to go in and defeat the much smaller ISIS, especially if the US and NATO were serious about destroying their alleged enemy. Again, if ISIS is the enemy, why did the US recently launch an air strike on Assad’s forces that were in process of defeating ISIS? The reason is all too obvious, the bombing was meant to afflict damage to stop Assad’s forces from beating back ISIS that the US is clearly protecting.

Finally, Tarpley reaffirmed what many others have been saying that [chicken hawk Senator John McCain](#) is actual buddies with ISIS kingpin Abu Bakr al-Baghdadi. Of course photos abound of his frequent “secret” meetings with ISIS leadership illegally conducted inside Syria. This confirmed fact provides yet one more obvious link between the high powered criminal operative posing as US senator and the so called enemy of the “free world” ISIS.

Recall that iconic photo from June last year of American supplied trucks traveling unimpeded

in the ISIS convoy kicking up dust in the Iraqi desert fresh from the Syrian battlefields heading south towards Baghdad. It was no accident that they were equipped with an enormous fleet of brand new Toyota trucks and armed with rockets, artillery and [Stinger missiles](#) all [furnished by US Empire](#). Nor was it an accident that the Iraqi Army simply did an about face and ran, with orders undoubtedly coming from somewhere high above in the American Empire. The Islamic State forces were allowed to seize possession of 2500 armored troop carriers, over 1000 Humvees and several dozen US battlefield tanks all paid for by US tax dollars. This entire spectacle was permitted as ISIS without any resistance then took control of Mosul the [second largest city in Iraq](#) including a half billion dollars robbing a bank. Throughout this process, it was definitely no accident that the United States allowed the Islamic State forces to invade Iraq as with advanced US airpower it could have within a couple hours easily carpet bombed and totally eliminated ISIS since the Islamic State possessed no anti-aircraft weapons. And even now with the hi-tech wizardry of satellites, lasers, nanotechnology and advanced cyber-warfare, the US and allied intelligence has the means of accurately locating and with far superior firepower totally eradicating ISIS if the will to do so actually existed. But the fact is there is no desire to kill the phantom enemy when in fact it's the friend of the traitors in charge of the US government who drive the Empire's global war policy.

Washington's objective last year was to purposely unleash on already ravaged Iraq the latest US-made, al Qaeda morphed into the Islamic monster-on-steroids to further [destabilize the Middle East](#), [seek a regime change](#) to replace the weak, corrupt, Sunni persecuting Maliki government in Baghdad and ["balkanize" Iraq](#) into three separate, powerless, divisive sections in similar vein of how the West tore apart and dissected Yugoslavia into thirteen ineffectual pieces. The globalist pattern of bank cabal loans drowning nations into quicksand debt and transnationals and US Empire posts predatorily moving in as permanent fixtures always replace what was previously a far better off sovereign nation wherever King Midas-in-reverse targets to spread its Empire disease of failed-state cancer. After Yugoslavia came Iraq, Afghanistan, Libya, Syria, Yemen and Ukraine. It goes on and on all over the globe. The all too familiar divide and conquer strategy never fails as the US Empire/NWO agenda. But the biggest reason ISIS was permitted to enter and begin wreaking havoc in Iraq last June was for the [Empire to re-establish its permanent military bases](#) in the country that Maliki had refused Washington after its December 2011 pullout.

With 2300 current US troops (and rising up to 3000 per Obama's authorization) once again deployed back on the ground in Iraq acting as so called advisors, Iraq is now the centerpiece of US military presence in the Middle East region. Before a doubting House Armed Services Committee last Tuesday, CENTCOM Commander [General Lloyd Austin defended Obama's policy](#) insisting that ISIS can be defeated without use of heavy ground forces, feebly claiming that they're on the run because his commander-in-chief's air strike campaign is actually working. How many times before have we heard generals' glowing reports to Congress turn out to be lies?

As far as PR goes, it appears the lies and propaganda are once again working. With help from the steady stream of another beheading-of-the-week posted like clockwork on Youtube for all the world to shockingly see, not unlike when traffic slows down to look for bloodied car victims mangled on the highway. Apparently this thinly veiled strategy is proving successful again on the worked over, dumbed down, short attention-spanned American population. According to a poll released just a few days ago, [62% of Americans want more](#)

[GI boots on the ground in Iraq](#) to fight the latest made-by-America enemy for Iraq War III. Incredibly only 39% believe that more troops on the ground would risk another long, protracted war. Again, short attention spans are doomed to keep repeating history as in Vietnam, Iraq and Afghanistan.

This polling propaganda disinformation ploy fits perfectly with prior statements made a few months ago by America's top commander General Martin Dempsey that the US military presence in both [Iraq and Syria must be a long term commitment](#) as the necessary American sacrifice required to effectively take out ISIS. With US leaders laying the PR groundwork for more Empire occupations worldwide, of course it's no accident that it conveniently fits in with the Empire's agenda to wage its war of terror on a forever basis. Efforts by Washington to "prep" Americans for these "inevitable," open-ended wars around the globe are designed to condition them into passive acceptance of lower intensity, "out-of-sight, out-of-mind" conflicts specifically to minimize and silence citizens from ever actively opposing yet more human slaughter caused by more US state sponsored terrorism in the form of unending imperialistic wars.

Every one of these "current events" have been carefully planned, coordinated, timed and staged for mass public consumption, none more so than those [beheadings](#) of US and British journalists, aid workers and Middle Eastern Christians along with the desecration of ancient Iraqi history with dozens of destroyed museums, churches and shrines. Obama and the Empire want us all to be thoroughly horrified and disgusted so we fear and hate the latest designated Islamic enemy. Hating your enemy to the point of viewing them as the lowest of the lowest, sub-human animal is an old [psyops brainwashing trick](#) successfully employed in every single war from the dawn of violent man. It effectively dehumanizes the enemy while desensitizing the killing soldier. For over a year now we've seen this same MSM game being relentlessly waged to falsely demonize Putin. The sinister, warped minds of the divide and conquer strategists from the ruling class elite don't mind the resultant [hating of Moslems](#) around the world either. That's all by diabolical design too.

If only six organizations control the entire planet's mass media outlet that feeds the masses their daily lies like their daily bread, another winning bet would be that in a heartbeat they could also effectively [shut down the internet](#) pipeline that showcases ISIS horror show theatrics on the global stage. But by design, they are willingly, cunningly disseminated for worldwide mass consumption.

In fact the only consistent group that's even been able to militarily hold their own and actually challenge ISIS, the Kurds, are watching UK ship heavy arms to the same losing team the Iraqi army that ran away from defending Mosul. The last time the West gave them weapons and supplies, they handed them right over to ISIS.

In a recent [Guardian article](#), a Kurdish captain said that the Kurds offered to even buy the second hand weapons from the British used in Afghanistan. But because the West is afraid the heavy arms might empower [Kurdish nationalism](#) into demanding their own sovereign nation for the first time in history, the US wants to ensure that Iraq stays as one nation after implanting its latest Baghdad puppet regime. The fiercely independent Kurds are feared if they were granted autonomy that they might refuse to allow their homeland to be raped and plundered by the US unlike the corrupt current Iraqi government. The Kurdish fighters could sorely use the bigger guns as they plan to launch an offensive in April or May to take back Mosul from ISIS. But when permitting an ancient ethnic group its proper due by granting political autonomy risks interfering with the Empire's rabid exploitation of another

oil-rich nation, all bets are off in doing the right thing.

The mounting evidence is stacking up daily to unequivocally prove beyond any question of a doubt that ISIS is in fact a US mercenary ally and not the treasonous feds' enemy at all. From mid-August 2014 to mid-January 2015 using the most sophisticated fighter jets known to man, the US Air Force and its 19 coalition allies have flown more than [16,000 air strikes](#) over Iraq and Syria ostensibly to "root out" ISIS once and for all. Yet all this Empire aggression has nothing to show for its wasted phony efforts as far as inflicting any real damage on the so called ISIS enemy. Labeled a "soft counterterrorism operation," a prominent Council on Foreign Relations member recently characterized Obama's scheme as too weak and ineffectual, and like a true CFR chicken hawk, he strongly advocates more bombs, more advisers and special operations forces deployed on the ground.

But the records show that all those air strikes are purposely not hitting ISIS forces because they are not the actual target. Many air strike missions from both the US Air Force as well as Israeli jets have been designed to destroy extensive [infrastructure](#) inside Syria that hurts the Syrian people, [causing many innocent civilian casualties](#), while not harming ISIS at all. This in turn ensures more ISIS recruits for America's forever war on terror. Repeatedly oil refineries, pipelines and [grain storage silos](#) have also been prime targets damaged and destroyed by the West. Because in 2013 Obama's false flag claim that Assad's army was responsible for the chemical weapons attack was thwarted by strong worldwide opposition and Putin's success brokering the deal that had Assad turning over his chemical weapons, a mere year later ISIS conveniently provided Obama's deceitful excuse to move forward with his air offensive on Syria after all.

Finally, on numerous occasions the US was caught red-handed flying [arms and supply drops to the Islamic jihadists](#) on the ground. According to Iraqi intelligence sources, US planes have engaged regularly in air drops of food and weapons to ISIS. These sightings began to be observed after one load was "accidentally" dropped last October into so called enemy hands supposedly meant to go to the Kurdish fighters. Realizing the US has betrayed them, as of late Iraqi security forces have been shooting down [US and British aircraft](#) engaged in providing supplies and arms to their ISIS enemy. This is perhaps the most incriminating evidence yet in exposing the truth that ISIS is being supported, supplied and protected by the US Empire more than even the Iraqi government forces the US claims to be assisting in this phony war against the militant Islamic jihadists.

Clearly the unfolding daily events and developments in both Iraq and Syria overwhelmingly indict the United States as even more of "the bad guy" than the supposed ISIS terrorists. Recently the US was caught financing ISIS and has all along supported Arab allies that knowingly fund Islamic extremism. During the six months since Obama vowed to go after them and "root them out," countless times the US and allies have maintained the so called enemy's supply line with regularly scheduled air drops. Meanwhile, in both Syria and Iraq after a half year of alleged bombing, ISIS forces are reported to be stronger than ever. The air strikes have not been hitting jihadist targets because the American and coalition forces' actual targets in Syria have been vital infrastructure and civilians that are clearly attacks on Assad. All of this irrefutable evidence piling up is backfiring on the American Empire. The world is now learning just how devious, diabolical and desperate the warmongering, pro-Zionist powerbrokers who are the war criminals controlling the US rogue government really are. Their evil lies are unraveling their demonic agenda as the truth cannot be stopped.

Joachim Hagopian is a West Point graduate and former US Army officer. He has written a

manuscript based on his unique military experience entitled "[Don't Let The Bastards Getcha Down.](#)" It examines and focuses on US international relations, leadership and national security issues. After the military, Joachim earned a master's degree in Clinical Psychology and worked as a licensed therapist in the mental health field for more than a quarter century. He now concentrates on his writing and has a blog site at <http://empireexposed.blogspot.com/>.
