Awarding winning journalist and author Kristina Borjesson interviews [Michel Chossudovsky](#) on the Covid 19.

Author’s Note

This is what was discussed a year ago in an interview with Kristina Borjesson, Whistleblower Newsroom (October 10, 2020).

The interview was immediately taken down by Youtube. We subsequently posted it on Vimeo.

Censorship was applied to a discussion of the PCR test and the interpretation of so-called Covid positive cases.

The interview also focussed on the March 11, 2020 Lockdown, which was conducive to the closure of the national economies of 190 member states on the UN.

We were put on a blacklist for telling the truth.

Minor edits of original text which follow the video.

Michel Chossudovsky, October 10, 2021

Economics professor Michel Chossudovsky describes the “smoking guns” indicating that the Covid-19 pandemic is a fraud and details the devastation that already has occurred as well as what is to come with the so-called “second wave,” which he says is also based on flawed statistics and testing.

“Closing down the Global Economy as a means to combating the Killer Virus. That’s what they want us to believe. If the public had been informed that Covid-19 is “similar to Influenza”, the fear campaign would have fallen flat...”

Confirmed by prominent scientists as well as by official public health bodies including the World Health Organization (WHO) and the US Center for Disease Control and Prevention (CDC). Covid-19 is a public health concern but it is NOT a dangerous virus.

Corrections: On January 30th, 83 cases Worldwide.

On January 29, 2020, the day preceding the launching of the PHEI ([recorded by the WHO](#)), there were 5 cases in the US, 3 in Canada, 4 in France, 4 in Germany.

There was no “scientific basis” to justify the launching of a Worldwide public health emergency.

Region of the Americas	United States of America	5
	Canada	3
European Region	France	4
	Germany	4

The data and concepts have been manipulated with a view to sustaining the fear campaign.

The estimates are meaningless. The figures have been hyped to justify the lockdown and the closure of the national economy, with devastating economic and social consequences.

- Covid-19 is Similar to Influenza
- The whole exercise of PCR testing and establishing data of Covid-19 infection is flawed.
- The figures are fabricated and so are the death certificates.
- “Confirmed Cases” are not confirmed.
- The RT-PCR Test Does not isolate the Covid-19 virus.

These inflated Covid positive “estimates” (from the PCR test) are then used to sustain the fear campaign. The hype in Covid-19 deaths is based on flawed and biased criteria.

Governments are currently involved in increasing the number of PCR tests with a view to inflating the number of so-called Covid-19 positive cases.

[The RT- PCR tests do not prove anything:](#)

“Today, as authorities test more people, there are bound to be more positive RT-PCR tests. This does not mean that COVID-19 is coming back, or that the epidemic is moving in waves. There are more people being tested, that’s all.”

This procedure of massive data collection is there to provide supportive (fake) “estimates” to justify the so-called Second Wave.

The Endgame is to maintain the economic lockdown, enforce the compulsory wearing of the face mask, social distancing including the closure of schools, colleges and universities.

The tendency is towards a police state. It is all based on a Big Lie.

We need a mass movement, nationally and internationally to reverse the tide.

Mass demonstrations barely reported by the corporate media have taken place in major European capitals including London, Dublin and Berlin.

Corrupt politicians in high office must be (peacefully) removed.

Revealing the lies and deceptions is the first priority. Dismantling the fear campaign. Reveal the media disinformation campaign.

National economies must be reopened...
