In a few days, the 11th anniversary of the 9/11 attacks will be commemorated worldwide. Undoubtedly, the mainstream corporate media will be full of reports and retrospectives on this tragedy, twisting it to justify the increasingly vicious US/NATO war agenda and thereby adding further insult to the horrific events of that day. Are we any closer to the truth now? According to [Washington's Blog](#):

“Whatever the details of the screw-ups on 9/11, the Bush administration used the attacks as a justification to promote their agenda. And - instead of changing the agenda - Obama has continued it.” ([September 11, 2001: Criminal Negligence and 9/11 Political Coverup](#))

On September 11, 2012, let us not only renew our efforts to expose the truth, but also take our awareness a step further to understand that the wars launched since that fateful autumn day in 2001 - in the bitterly ironic name of “justice” and supposedly to combat “terrorism” - continue to take lives of people across the world. These wars are based on lies and their costs are staggering.

Global Research offers you several important resources and encourages you to get the facts and share them with others.

According to Prof. Michel Chossudovsky, the “war on terrorism” is a complete fabrication based on the illusion that one man, Osama bin Laden, outwitted the \$40 billion-a-year American intelligence apparatus. The “war on terrorism” is a war of conquest. Globalization is the final march to the “New World Order”, dominated by Wall Street and the U.S. military

industrial complex. ([Also available in PDF format](#))
