***Ukrainians are fighting and dying for the destruction of their own country.*** This has been the case since Washington orchestrated the violent coup against the elected Yanukovich government in 2014, (1) and instated a [nazi/genocidal ethnic nationalist infested regime](#), a proxy for Washington warmongers.

Ukraine is bleeding its humanity, its resources, and its sovereignty for transnational “war harvests”. Proxy president Zelensky is a “front” for these deep state “interests”.

## Ukraine Watch

### To whom have the arable lands of Ukraine been sold?

**Nearly 30% of Ukraine's territory today no longer belongs to the country. Foreign entities have acquired 170,000 square kilometers.**

Now the stakes are even higher since Washington has green-lit long-range missile strikes into Russia, and Russia has responded by deploying a [hypersonic ballistic missile](#) against Ukrainian military infrastructure. The West does not have comparable hypersonic technology, nor can it stop it.

**Congressman Tom Massie** of Kentucky correctly states that,

“by authorizing long range missiles to strike inside Russia, Biden is committing an unconstitutional Act of War that endangers the lives of all US citizens. This is an

impeachable offense, but the reality is he's an emasculated puppet of a deep state." (2)

Washington's permanent state of war-mongering, its policies of international lawlessness, are increasingly a danger to us all, and, as noted by Prof. Dr. Dan Kovalik,

"the trillions of dollars the US has spent on wars in recent years, and continues to spend, could be used to meet human needs — to eradicate hunger, diseases and poverty." All of this, he says, "makes such spending so tragic and immoral." (3)

Which country will be the next "[sacrificial lamb](#)" as Washington pushes us towards a World War Three scenario?
