In-depth Report: [NATO'S WAR ON LIBYA](#)

With the killing of Libya's leader Muammar Gaddafi this past week, NATO is celebrating what, in their view, is a great victory. However, this so-called "victory" has nothing to do with democracy, freedom or justice; it is part of a broad, insidious geopolitical strategy that has been on NATO's drawing board for years. And what is even more frightening than the bloodlust being shamelessly splashed across the mainstream media is the fact that this latest manoeuvre is merely a small part of a much wider military agenda with potentially catastrophic consequences.

In his latest e-book, "[Towards a World War III Scenario](#)", Prof. Michel Chossudovsky outlines the strategies and real motives behind the war on Libya, what we can expect next from NATO (the world's deadly "humanitarian" force), and the necessary steps for dispelling disinformation and preventing war on an unprecedented scale.

The object of this e-book is to forcefully reverse the tide of war, challenge the war criminals in high office and the powerful corporate lobby groups which support them.

The following extracts by Prof. Chossudovsky reveal several key issues facing humanity today. (The full version of "Towards a World War III Scenario" is [available to purchase from Global Research in convenient PDF format.](#))

Towards a World War III Scenario

The war on Libya is an integral part of the broader military agenda in the Middle East and Central Asia which until recently consisted of three distinct areas of conflict: Afghanistan and Pakistan (the AfPak War), Iraq, Palestine.

These four war theaters are interrelated. They are part of a broader region of conflict, which extends from North Africa and the Middle East, engulfing a large part of the Mediterranean basin, to China's Western frontier with Afghanistan, and Northern Pakistan.

The Battle for Oil

More than 60 percent of the world's oil and natural gas reserves lie in Muslim lands. "The Battle for Oil" waged by the US-NATO-Israel military alliance requires the demonization of the inhabitants of those countries which possess these vast reserves of oil and natural gas.

Iran possesses ten percent of global oil and gas reserves. The US is the first and foremost military and nuclear power in the world, but it possesses less than two percent of global oil and gas reserves.

The US-led war in the broader Middle East Central Asian region consists in gaining control over more than sixty percent of the world's reserves of oil and natural gas. The Anglo-American oil giants also seek to gain control over oil and gas pipeline routes out of the region.

Demonization is applied to an enemy which possesses three-quarters of the world's oil reserves. "Axis of evil", "rogue states", "failed nations", "Islamic terrorists": demonization and vilification are the ideological pillars of America's "war on terror". They serve as a *casus belli* for waging the battle for oil.

The Battle for Oil requires the demonization of those who possess the oil. The enemy is characterized as evil, with a view to justifying military action including the mass killing of civilians. The Middle East Central Asian region is heavily militarized. The oil fields are encircled by NATO war ships stationed in the Eastern Mediterranean (as part of a UN "peacekeeping" operation), US Carrier Strike Groups and Destroyer Squadrons in the Persian Gulf and the Arabian Sea deployed as part of the "war on terrorism".

The ultimate objective, combining military action, covert intelligence operations and war propaganda, is to break down the national fabric and transform sovereign countries into open economic territories, where natural resources can be plundered and confiscated under "free market" supervision. This control also extends to strategic oil and gas pipeline corridors (e.g. Afghanistan).

Demonization is a psy-op, used to sway public opinion and build a consensus in favor of war. Psychological warfare is directly sponsored by the Pentagon and the US intelligence apparatus. *It is not limited to assassinating or executing the rulers of Muslim countries; it extends to entire populations.* It also targets Muslims in Western Europe and North America. It purports to break national consciousness and the ability to resist the invader. It denigrates Islam. It creates social divisions. It is intended to divide national societies and ultimately trigger "civil war".

Is a World War III Scenario Unfolding?

The US and its NATO allies are preparing to launch a nuclear war directed against both Iran and North Korea with devastating consequences. This military adventure in the real sense of the word threatens the future of humanity. While one can conceptualize the loss of life and destruction resulting from present-day wars including Iraq and Afghanistan, it is impossible to fully comprehend the devastation which might result from a Third World War, using "new technologies" and advanced weapons, until it occurs and becomes a reality.

The international community has endorsed nuclear war in the name of world peace. "Making the world safer" is the justification for launching a military operation which could potentially result in a nuclear holocaust.

It is not Iran and North Korea which are a threat to global security but the United States of America and Israel.

Humanity is at a dangerous crossroads. War preparations to attack Iran are in an advanced

state of readiness. Hi-tech weapons systems including nuclear warheads are fully deployed.

This military adventure has been on the Pentagon's drawing board since the mid-1990s: first Iraq, then Iran, according to a declassified 1995 US Central Command document.

Escalation is part of the military agenda. While Iran is the next target together with Syria and Lebanon, this strategic military deployment also threatens North Korea, China and Russia.

The American Inquisition: Building a Political Consensus for War

In chorus, the Western media has branded Iran as a threat to global security in view of its alleged (non-existent) nuclear weapons program. Echoing official statements, the media is now demanding the implementation of punitive bombings directed against Iran so as to safeguard Israel's security.

The Western media is beating the drums of war. The purpose is to tacitly instill, through repeated media reports, *ad nauseam*, within people's inner consciousness, the notion that the Iranian threat is real and that the Islamic Republic should be "taken out". A consensus-building process to wage war is similar to the Spanish Inquisition. It requires and demands submission to the notion that war is a humanitarian endeavor.

Known and documented, the real threat to global security emanates from the US-NATO-Israel alliance, yet realities in an inquisitorial environment are turned upside down: the warmongers are committed to peace, the victims of war are presented as the protagonists of war.

Reversing the Tide of War

A good-versus-evil dichotomy prevails. The perpetrators of war are presented as the victims.

Public opinion is misled: "We must fight against evil in all its forms as a means to preserving the Western way of life."

When a US-sponsored nuclear war becomes an "instrument of peace", condoned and accepted by the world's institutions and the highest authority including the United Nations, there is no turning back: human society has indelibly been precipitated headlong onto the path of self-destruction.

The main factor which could prevent this war from occurring comes from the base of society, requiring forceful antiwar action by hundreds of millions of people across the land, nationally and internationally.

People must mobilize not only against this diabolical military agenda, the authority of the state and its officials must also be challenged.

This war can be prevented if people forcefully confront their governments, pressure their elected representatives, organize at the local level in towns, villages and municipalities, spread the word, inform their fellow citizens as to the implications of a nuclear war, initiate debate and discussion within the armed forces.

The holding of mass demonstrations and antiwar protests is not enough. What is required is

the development of a broad and well organized grassroots antiwar network which challenges the structures of power and authority.

What is required is a mass movement of people which forcefully challenges the legitimacy of war and the New World Order, a global people's movement which criminalizes war.

To reverse the tide, the spreading of information at all levels which counteracts the propaganda campaign is required.

The truth undermines and overshadows the lie.

Once this truth becomes fully understood, the legitimacy of the rulers will collapse like a deck of cards.

This is what has to be achieved. But we can only achieve it by effectively counteracting the official propaganda campaign. This initiative requires the spreading of information in an extensive grassroots network, with a view to weakening and ultimately disabling the administration's propaganda machine.

When the lies - including those concerning September 11 - are fully revealed and understood by everybody, the legitimacy of the US-NATO-Israel military agenda will be broken.

What Has To Be Achieved

Reveal the criminal nature of this military project.

Break once and for all the lies and falsehoods which sustain the "political consensus" in favor of a pre-emptive nuclear war.

Undermine war propaganda, reveal the media lies, reverse the tide of disinformation, wage a consistent campaign against the corporate media.

Break the legitimacy of the warmongers in high office.

Dismantle the US-sponsored military adventure and its corporate sponsors.

Bring home the troops.

Repeal the illusion that the state is committed to protecting its citizens.

Expose the "fake crises", such as the global flu pandemic, as a means to distract public opinion away from the dangers of a global war.

Uphold 9/11 Truth. Reveal the falsehoods behind 9/11 which are used to justify the Middle East/Central Asian war under the banner of the "Global War on Terrorism" (GWOT).

Expose how a profit-driven war serves the vested interests of the banks, the defense contractors, the oil giants, the media giants and the biotech conglomerates.

Challenge the corporate media which deliberately obfuscates the causes and consequences of this war.

Reveal and take cognizance of the unspoken and tragic outcome of a war waged with nuclear weapons.

Call for the Dismantling of NATO.

Implement the prosecution of war criminals in high office.

Close down the weapons assembly plants and implement the foreclosure of major weapons producers.

Close down all US military bases in the US and around the world.

Develop an antiwar movement within the armed forces and establish bridges between the armed forces and the civilian antiwar movement.

Forcefully pressure governments of both NATO and non-NATO countries to withdraw from the US-led global military agenda.

Develop a consistent antiwar movement in Israel. Inform the citizens of Israel of the likely consequences of a US-NATO-Israeli attack on Iran.

Target the pro-war lobby groups including the pro-Israeli groups in the US.

Dismantle the homeland security state, call for the repeal of the PATRIOT legislation.

The World is at the Crossroads of the Most Serious Crisis in Modern History

The US has embarked on a military adventure, “a long war”, which threatens the future of humanity.

It is essential to bring the US war project to the forefront of political debate, particularly in North America and Western Europe. Political and military leaders who are opposed to the war must take a firm stance, from within their respective institutions. Citizens must take a stance individually and collectively against war.
