Global Research, September 30, 2022

In light of the recent events surrounding the Ukraine war and the ongoing global COVID-19 pandemic, we present to you two important titles from Global Research that are both available in PDF formats.

The Worldwide Corona Crisis, Global Coup d’Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

"Michel Chossudovsky, in his book *"The Worldwide Corona Crisis"* describes in clear and concise and unabashed language the origins of this war, its conduct and its goals. No book of this kind can be infinitely comprehensive, nor should it aspire to be. But in this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight."

-Dr. Emanuel Garcia, psychoanalyst and psychiatrist

"In *The Worldwide Corona Crisis*, Michel Chossudovsky succinctly and methodically pierces through the numerous layers of lies surrounding the "pandemic." This meticulously researched chronicle is a must-read for anyone wanting to truly understand world events of the past two-and-a-half years."

-David Skripac, former captain in the Canadian Air Force

Reviews

“This book is a ‘must’ resource – a richly documented and systematic diagnosis of the supremely pathological geo-strategic planning of US wars since ‘9-11’ against non-nuclear countries to seize their oil fields and resources under cover of ‘freedom and democracy’.”

–John McMurtry, Professor of Philosophy, Guelph University

“In a world where engineered, pre-emptive, or more fashionably “humanitarian” wars of aggression have become the norm, this challenging book may be our final wake-up call.”

–Denis Halliday, Former Assistant Secretary General of the United Nations

“Michel Chossudovsky exposes the insanity of our privatized war machine. Iran is being targeted with nuclear weapons as part of a war agenda built on distortions and lies for the purpose of private profit. The real aims are oil, financial hegemony and global control. The price could be nuclear holocaust. When weapons become the hottest export of the world’s only superpower, and diplomats work as salesmen for the defense industry, the whole world is recklessly endangered. If we must have a military, it belongs entirely in the public sector. No one should profit from mass death and destruction.”

–Ellen Brown, author of ‘Web of Debt’ and president of the Public Banking Institute
